The FORD HALL YOUTH FORUM

presents:

DR. M. A. NELSON

Mass. Department of Public Health

on

“SYPHILIS:—

Our Oldest Public Enemy”

● Concerning ourselves with more colorful problems, we have been allowing a dangerous enemy to make gigantic inroads. Syphilis, long nurtured by hypocrisy and a false morality, has become one of the most prevalent diseases in the country. Today, one out of every ten citizens is its victim.

● The YOUTH FORUM takes this opportunity of presenting a discussion of the social and economic, as well as medical, aspects of this disease.

● Dr. M. A. NELSON, outstanding authority on this subject, is a member of the faculties of Harvard, Tufts, and Simmons. Youthful, alert, and forceful, he has earned an enviable reputation as a speaker on syphilis. Dr. Nelson's presentation will be non-medical.
