UNITY FOR VICTORY

That Boston will live up to its national reputation as a liberal city, and while white and Negro leaders may not always see eye to eye, is no doubt. Democratic politicians, however, are willing to bear their full share of the burden in order to see the nation's problems solved.

That blacks, who have fought for their God-given rights in the United States, will rise up to their national reputation as good Americans, will not be denied by any effort of the Fifth Column, the Ku Klux Klan and the infamous Hitler, and Hess, will not be denied. The people of Boston, Negro and white, love liberty and to halt the illegalities of certain individuals.

UNION BAPTIST CHURCH
Rev. William L. Clayton, Pastor

The Reality of our Witness was the subject of the sermon this morning. The message was delivered in a congregation at Boston Bay. The speaker emphasized the importance of the church and its role in the world.

There were many visitors in the church today, including several from the nearby community. The service was well attended, and the atmosphere was lively.

WEDNESDAY, JULY 1, 1948

By R. Taylor

For the next two months I have spent the greater part of my time in work and travel. This has made it necessary to cut myself off from all contact with the outside world.

However, I have been able to keep up with the news through the radio and newspapers.

The weather has been very good, with plenty of sunshine and warm days.

The children have been quite busy with their studies and activities.

I have also been able to spend some time with family and friends.

Overall, it has been a productive and enjoyable period of time.

A WARNING

By R. Taylor

In the past two months I have maintained a regular routine of work and travel. This has helped me to keep up with the news and events going on around me.

I have also been able to spend some time with family and friends.

Overall, it has been a productive and enjoyable period of time.

I TAKE THE PEOPLE'S SIDE

LIBERIA AND AMERICA

After the Haozal, the eyes of the world were turned toward Europe. America and her people had to realize, as they have always had to realize, that even love can be subversive. Too often Servicemen fall in love with the arts of other civilizations, but we are all Americans, beauty partners, and, unselfconsciously providing information about what is going on, the Committee for Safeguarding Military Information of the Nation, the "Do Not Look a Lie" campaign, at the request of the Army and Navy, is undertaking a task of the utmost importance. Those of us who are in the armed forces, or who are employed by the War Department, must never discuss war duties or activities or locations.

PROBE DETROIT POLICE

All of the recommendations for punitive action against the Detroit mob by the American civil rights organizations, the Christian Front, and other Fascist Fifth Column elements as recommended by the will of the people, the Congress of Industrial Organizations, under President Phillip Murray, victory would come soon for the American people and their allies of the United Nations. The initiative of organized labor in combating anti-Negro discrimination was never more clearly shown than when on Sunday, June 27, George Mintser, Secretary-Treasurer, ordered the Arthur Marcus Company of Brooklyn to discharge three members of the United Garment Workers Union (CIO), on the ground that they had fomented a strike in June 9 in a "white" labor union. The only reason given for the action was that they were Negroes, and they were asked to resign, or else their jobs would be given to others who would accept them.

Mintser has also recommended expulsion from the union of the Negroes, if they should attempt to gain admission to the garment industry. His action is an indication of the fact that the Congress of Industrial Organizations has taken a bold stand against the attack on the Negroes in the United States.

CIO SCORES AGAIN

If the leadership of every organization patriotically dedicated to the winning of the war, as well as the Congress of Industrial Organizations, under President Philip Murray, victory would come soon for the American people and their allies of the United Nations. Negro Boxers At Auditorium

President, R. L.—The next box- ees at the N. I. Auditorium, on Monday, July 8, will be in the form of a real boxing double- header when Promoters Dave Card- man and Leon Price of the Ames A. C. present two 10-rounders in the program of fisticuffs.

Martha, (Left) LaChante of New, lightweight champ- ion of New England, returns to the Fore River Park with a victory in her pocket. Her opponent, Billy Bibby, star colored Pitts- burgh, who makes quite an impression with local fans who witnessed his previous outings with Jackie Wilson while the latter was preparing for the little crimp with Jackie Collins. The featured ticket will bring together the popular New- york colored star, Terry Patterson, in action against Johnny Bonds of Boston. This bout will be part of a double feature for crowd-pleasing boxing. Patterson, who recently returned from Cuba, will bring himself to local fans by his game showing. He gained his first victory in a lively fight, and in all the other previous four Provincetown victories, manner, format, by partly joining Franky Baccare, is considered one of the best fighters in the weight class. Patterson has been seen at some of the better weight classes in the land. LaChante faced tough in every fight, and has become one of the best around Pennsylvania and New England, and provokes him a further ring test.

Base Joe started his comeback campaign with a good technical knockout over Maxie Finley in the sixth round.

Cuba Stars Play Fore River, Friday

Continuing the keen twilight competitions of Fore River Baseball Club of the Negro National League, last Friday night, July 5. Cuba will return to the field with 1,000 fans for the second successive Saturday feature. Both the teams are now preparing for the next Saturday feature in which Cuban will face the local club.

"I call this a Statue of Liberty, too!"

That's a world-looking construction, I'll admit. But I think what you think that gasoline has made me really recognize the war, it begins to look pretty wonderful! It's a plant for a new type of process for making aviation gas and synthetic rubber material from petroleum. It makes more gallons of better gas than any other process ever before. It makes both the aviation and synthetic rubber material at once, which is mighty important right now!

The freedom from fear will be the first step toward the realization of the promise given to us by the American people in the Declaration of Independence that freedom from fear and freedom from want are the birthright of all peoples. The freedom from fear is a prerequisite to the realization of the promise of the Declaration of Independence, and the freedom from want is essential to the realization of the promise of the Declaration of Independence.

Today we are able to assist our friends in freedom, in the knowledge that our friends are not only with themselves but with all people everywhere, in the struggle for freedom.

The association has grown in the war time. It has brought about better than certain portions of the people. Better housing conditions, better school facilities, and better living conditions have always been a part of the struggle for freedom.

This is not a superficial thing in its purpose. The aim in bringing a greater scale, or our own opportunity for the American people.
