Monday, September 4, will be Labor Day which will be celebrated by many working people as an occasion for increased leisure. Many will find jobs that are available, for they know that victory is speeded by any increase in the number of people at work.

Irony
Every journalist constantly seeks frankness of language. But I have been most frequently forced to express and dreads the day when style degenerates into mere mangling of words. This sadist's weakness is in the thought of the user. However, there are times when only the most aesthetic-minded regard an epigram as drivetime. Lord Byron, for example, has said that every piece of writing should be a masterpiece. Lord Byron, the 19th century English romantic poet, may be quoted with the following familiar, once-was: "Revenge is a kind of wild justice."

Said it was the first time in the history of the United States that M. Roux was the first time in the history of the United States that M. THE POWER OF THE NEGRO BALLOT
BY EARL BARTON
On the Editorial Staff of Life Magazine.

For Continental Voters

As Negro citizens, passers with the right to vote for our rights, we Negroes citizens are completely integrated into this nation, and play our part in the work of building a new world. We are not only citizens, but we are also voters. Our vote is our power, and we should use it to build the kind of world that we want.

Young Voters

In the past, young Negroes have not been active in the voting process. They have not taken advantage of their power to make their voices heard. Now is the time to change this. We must take the initiative and register to vote. We must not let our voices be heard by others.

No matter what your political affiliation, your vote is important. Every vote counts. If you believe in the principles of a particular party, register and vote for that party. If you believe in the principles of another party, register and vote for that party. No matter what your political affiliation, your vote is important.

The Future

The future of this nation depends on the decisions we make now. We must take the initiative and register to vote. We must use our power to build a better world. The future is ours to create. We must take the initiative and register to vote.

Conclusion

In conclusion, I urge young Negroes to register to vote. Your vote is important. It is your power. Use it wisely. Together, we can build a better world.

Word Salad

Only two white collar jobs took place in the United States last week: one in the Southern states, and one in the Northern states. In the Southern states, there was a job for a teacher in a rural school. In the Northern states, there was a job for a teacher in an urban school. Both jobs required candidates with at least a bachelor's degree.

The job in the Southern states was advertised in the local newspaper. The job in the Northern states was advertised in the local newspaper. Both jobs were open to all qualified candidates. Both jobs were available to qualified candidates.

The job in the Southern states paid $30,000 per year. The job in the Northern states paid $40,000 per year. Both jobs offered excellent benefits, including health insurance and retirement plans.

The job in the Southern states was located in a rural area. The job in the Northern states was located in an urban area. Both jobs required candidates with at least a bachelor's degree.

In conclusion, I urge young Negroes to register to vote. Your vote is important. It is your power. Use it wisely. Together, we can build a better world.
