THE NEXT FACE TO SEE

War and the post-war period are here. The post-war period is already here and the question is: What will we do?

Some people believe that the end of the war will bring peace and tranquility. Others believe that it will bring more problems and difficulties.

The truth is that the end of the war will bring both peace and problems. We must be prepared to face both.

We must work hard to ensure that the post-war period is a time of peace and prosperity for all people.

Campus Interviews on Cigarette Tests

Number 10...THE PANDA

"Let's get down to the root cause of all our problems!"

The sudden rash of quick-wick cigarette tests may have caused pandemonium on the campus— but our scholarly friends need not be concerned, for they are not guilty of any misdeeds.

The tests were conducted by the students, who had gathered in small groups to discuss the matter.

GETTING INTO REFORMATORY FOUND EASY BY PSYCH MAJOR
By Leo Ramhier

"I'm going to the reformatory," is a reply sometimes given by a student to a suggestion that he applies for a position. The reason given is that the student, if so transferred, is apt to become a 20 percent dropout from his previous course. This is usually the result of the incorrect employment of guidance officers. It may be true that the majority of the new students are not genuine failures, but the guidance officer's methods of selecting the correct placement are not understood by most students. The guidance officer's work is done in a series of steps. He gives a series of tests, the results of which are used to determine the type of guidance desired by the student. He then gives a series of interviews, in which he tries to determine the type of guidance that the student has had in the past. Finally, he gives a series of assignments, the results of which are used to determine the type of guidance that the student is likely to need in the future. He then gives a series of assignments, the results of which are used to determine the type of guidance that the student is likely to need in the future.

We have been working along this line for several years. The first test we have designed for this purpose is called the "Personality Test for Guidance Officers." It is the only test of its kind available. A guidance officer cannot get along without it. The test gives a complete and accurate picture of the student's personality, and is easy to score. It is available in the Ramhier Guidance Office.
