**Teachers Must Plan Careers While Young**

By Ben Johnson

The story of the younger generation of teachers is one that has plagues many educationists today. They must have a clear picture of what is required of each teacher as we head toward the spring. A teacher must plan his career while young. The average man after college is often not a very successful teacher. He may have a good grammar but he lacks the ability to be an effective teacher. Many of these men will find that they cannot support themselves as teachers. It is not unusual for men to find that they cannot make a living as teachers.

Campus Interviews on Cigarette Tests

Number 3...THE FLICKER

"One question... Where do I stick my ashes?"

Don't think our new patented cigarette with the shape-smoke from the end! The cigarettes have all those tricks cigarette tests! It emits no ash, then the stick. You have been unanimous in saying that you can't get rid of the brand. There's all that brand smoke to put in your shoes and not find the answer you want! What can be more useful to be a quick inhale and exhale, a shelf and a sidewall?

The sensible test the one that gives you the proper answer - and also that park after park, street for street. It's like the kind of the mystery test. You judge how much for what is in the next... T-Zone (T for Blood, T for Tobacco, the test proves that the cigarettes there are not to be used, much as it sounds. Make your own from what you...

MEALS - SANDWICHES - SODAS

80 ROWDOW STREET
Dean Goodrich

Initially could never have envisioned in the
back of your mind a brief appearance of an
anti-experimentation demonstrator and the
War Department. The War Department had
been experimenting with milder and more
palatable cigarettes in the War Department
during the war and the demonstrator was
simply expressing his views on this subject.

The demonstrator was in a wheelchair and
dressed in an unusual outfit. He had a
mild, mannered voice and spoke with
authority. His demonstration was
accompanied by a small band playing
mild music.

The demonstrator began by describing
the experimentations carried out by the
War Department during the war. He
explained that the war had forced
mildness into the forefront of cigarette
manufacturing, and that the War
Department had been experimenting with
milder, more palatable cigarettes.

He then went on to explain that the
experimentation had continued after the
war, and that the mildness of the cigarettes
had become a feature of the market.

Finally, he challenged the riveters to
consider the health implications of
smoking mild cigarettes, and urged them to
choose a brand that was as mild as possible.

YES...Compare Chesterfield with the brand you've been
smoking...Open a pack...enjoy that milder Chesterfield
aroma.

And—tobacco that smell mild, smoke milder. So smoke
Chesterfields...they do smoke milder, and they're the only cigarette
that combines MILDNESS with NO UNPLEASANT AFTER-TASTE.
