KATHERINE DUNHAM, dancer in a pose depicting South Americans. In the dance in which the aboriginal character appears Miss Dunham sacrificed the native dance to a vivid imagination and a display of legs rivaling a burlesque actress. Oh, for the classic of the late La Argentina!

To put the matter mildly insulting, Hon killing is wrong with the law of MacKernan. He lied out of respect, I mean. I don't know if this is Wrong.

Your political reporter has just returned from an extended safari into the Vitality of Republicanism. With regret, I report that I found that once Everywhere Parties, two down and gone to weed. Where once stalked the Shearer, Beware mainly Sidelines of Republicanism, I now find a bed of common to every thinker who is trying to make polit- to.

It was in this bed that our good Lt. Gov. If we are to judge this otherwise entirely gentlemanly by the camp commit when the blinding thing one can say is that maybe the Voters of Massachusetts have been lost.

RUTH TAYLOR'S COLUMN

STOP AND THINK FIRST!

There is one and only one way to do the best work in college—whether it be as a scholar, a student, an athlete, a leader of any kind or as a human being. It is to do it with a sense of dignity and with a purpose. And if you do it that way, you will find it is not difficult. The only problem is whether you will do it. If you do, you will do it very well.

If you write it and sign it—don't sign it if you don't want to sign it—then you have the right to expect that the employer will treat you with the respect you expect and that you will get what you expect. Of course, if people are willing to pay for your work, you have the right to expect that you will get what you expect. And if you don't want to sign it, then you have the right to expect that you will not be signed.

The reason I am telling you this is that you are asking me to comment on my life. I have lived a life that has been full of ups and downs, successes and failures, and I have learned that the only way to succeed is to do it with a sense of dignity and with a purpose. And if you do it that way, you will find it is not difficult. The only problem is whether you will do it. If you do, you will do it very well.

"WE BUT DON'T BELIEVE"

**PRINCE HALL MASONIC NEWS**

"I believe in a better society, one which is not dominated by materialism and where the individual is free to pursue his spiritual and moral traditions in peace and harmony with his fellow man.

1. Negroes and Jews were practically on the same page in the struggle against racial discrimination.

2. We'll always be on your side, we are spiritual beings by nature, we believe in the beauty of the things we create and the harmony of our lives.

3. The war has changed us all, we have become more aware of the injustices of the world, we have learned that we are not alone in our fight for justice.

**MAIL BOX**

**UNITED FOR FREEDOM**

To The Editor:

I heartily agree with Mr. Harry L. Johnston, who addressed the New Thought Forum on the theme of "Adventures in the United Nations," that the world is not yet ready for peace.

4. We must always keep in mind that we are fighting for a better world, one where children can grow up in freedom and safety, where nations can live in peace and become just and right.

5. We must continue to fight for our ideals, for our beliefs, for our lives.

**STORE WINDOW DISPLAYS**

New York—The Christmas window displays of many of Fifth Avenue's most famous stores can scarcely be described as anything less than a masterpiece of creative effort to make a better world. A few of the most outstanding are:

6. "The Guards"—plaid suits on a man, a coat on a woman, a hat on a child.

7. "The Winter Scene"—a snow scene with a horse and sleigh in the foreground.

"We but don't believe" is a statement that is often used in the context of denial or disbelief. In the context of this article, it is likely used to express a lack of belief in the validity or reliability of something. The article does not provide enough context to determine the specific point or argument being made. The article ends with a question that invites the reader to reflect on the implications of this statement. The question is: "We but don't believe: What are the implications of this statement in your personal or professional life?"

IT TAKES PLENTY OF WAR BONDS TO BUILD B-29s

THE WAR in the Pacific is the most costly war America has ever engaged in. It's simple arithmetic. A mountain of special, costly equipment is needed. A B-29 Superfortress used in the bombing of Japan costs $600,000 in War Bonds. And this is just one of the many extra costly implementations of war needed to achieve final victory in the Pacific.

That's why the 6th War Loan Drive is so important. That's why you must back it as generously as you have every other war loan drive. Invest in the next raid on Japan.
