Be Happy—GO LUCKY!

In a cigarette, taste makes the difference—
and luckies taste better!

The difference between "just smoking" and really enjoying your smoke is the taste of a cigarette. You can taste the difference in the first few drags.

Lucky: The Lucky Strike blend is unique. In every Lucky you'll find the distinct, expected taste of Lucky that makes all the difference. It's a blend of finely processed tobacco. The difference is in the blend—fine, mellow, mild, mellow. The difference is in the blend. It's the taste that makes the difference.
