STUDENTS TO PREDICT LIFE IN U.S.A. 100 YEARS HENCE

Last year a survey was made in testing colleges throughout the country which showed that smokers in those colleges prefer Luckies to any other cigarette. This year another nation-wide survey was made - a representative survey of all students in regular colleges coast to coast. Based on thousands of actual student interviews - this survey shows that, as last year, Luckies lead again - head over all other brands, regular or king-size - and by a wide margin! The reason: Luckies taste better.

P. S. Once again we're buying student settings! 250-40 goes to every student whose Lucky Strike pack is opened for our scrutinizing. So hurry! Send yours in right away on Happy-Go-Lucky, P. 0. Box 45, New York 46, N. Y.

Robin Hood Attacked

IN D I A, Nov. 15.—The story of 'Robin Hood,' which recently was an addition to the list of British schools to offer it as a Physical Education course, has become the subject of much interest.

The attacks on the Soviet Union in April by a group of British schools have now been followed by the introduction of the story of Robin Hood as an option in the Physical Education curriculum.

Some schools have taken the opportunity to make the story more appealing and to extend its reach. The story has been adapted for use in the Physical Education curriculum to cater to a wider audience.

The attacks on the Soviet Union have continued, and the story of Robin Hood has been used as a means of responding to these events.

The story of Robin Hood is a tale of courage and loyalty, and it is hoped that the attacks on the Soviet Union will serve to reinforce these values.

The story of Robin Hood is a classic tale that continues to resonate with people around the world. It is a tale of resilience and determination, and it is hoped that the attacks on the Soviet Union will serve to remind us of the importance of these values.

The Values Of Speech

Develop, Confidence
"Vital In Business... Strain"

Joseph Thomas once said, "As I look back on it now, if I gave
the chance to do it all over again and I wanted to achieve something
in my business, I would take the baby, because under proper direction, it
would start out of the box. If it was given up to the butcher, it would
not come out."

Vital

In reply you say, "That's very well, but I am not going to
try to talk to a radio audience." True, and perhaps you are not doing a
lot in your profession, but whether you attend radio, network,
commercial, or live, journalism or broadcasting, speech is vital in your
profession.

The Value of all communication is one that has
always a four attention pay to talk over the telephones. Every day
in your social life and in your business life, do you pay
up by the way you speak.

In interviews

Omar S. Young, Chairman of
the Board of the General Elec-
tric Corporation, said that he
wrote all his articles, he
saw the results of the best
speeches by the best entertain-
ment who have had from reports
in the past, prepared and
voluntarily undertook the pro-
gress in his profession, his own.
If one does not know how to
get across, he is not going to
be wrong.

If the one who good do not
be wrong, is not going to
be wrong, and the one who
good do not be wrong, he is
not going to be wrong.

You are good, but not in
to discuss, I should be in to
be wrong.

"How the stars got started...

Tommy Power says, "I had it
in mind to get into radio. That, a Famous
Young group manager, C.W. Henry,
Grandfather of film, had the idea, I think, in
the theater. He couldn't get a job, so he
left for New York, did a film
which was a hit and then
he cam to Hollywood."
