Suffolk University

Annual Commencement

The College of
Liberal Arts and Sciences
and
The School of Management

Sunday, June 13, 1982

at two-thirty o'clock

John B. Hynes Veterans' Auditorium

Boston, Massachusetts

Suffolk University is a vital and dynamic university with 6,100 students of all ages enrolled full and part time in its College of Liberal Arts and Sciences, its School of Management and its Law School. The University is located on Beacon Hill in the heart of Boston and is accessible from all parts of the metropolitan area.

Founded as a law school, the institution developed by adding a College of Liberal Arts and Sciences in 1934 and a School of Management (then College of Business Administration) in 1937. On April 29, 1937, the Law School and the two Colleges were chartered as Suffolk University by the Massachusetts General Court.

The Law School awards the juris doctor degree to its graduates and is accredited by the American Bar Association and the Association of American Law Schools. The College of Liberal Arts and Sciences awards the bachelor of arts and bachelor of science degrees in fifteen academic departments and the master's degree in education. The School of Management conducts undergraduate and graduate programs in both business and public administration as well as a special master in business administration program for executives.

Since 1906 when Gleason L. Archer established a law school for working adults, Suffolk University has graduated over 26,000 students who have taken their places in the professional world. Among the alumni are some of New England's outstanding jurists, attorneys, businessmen and women, teachers, writers and scientists.

In the summer of 1981 the University opened the new twelve-story Frank Sawyer Building at Eight Ashburton Place. The University's other facilities, near the State House, include the Archer Building (1921), the Frank J. Donahue Building (1966) and the John E. Fenton Building (1972). In addition to smaller buildings used for faculty offices and student activities, the University operates a scientific field station at Cobscook Bay in Maine.

During its 76 years, Suffolk has grown in size and in the scope and quality of its academic programs. As it develops new programs to meet emerging needs, Suffolk University remains guided by Gleason Archer's strong commitment to the community and to its people.
