NEW PROGRAM INITIATES FROSH

ENROLLMENT FOR '59 SOARS;
MORE AFTERNOON CLASSES

by

BOB O'BRIEN

Suffolk University's announcement shows an increase of

The current total stands at 350, but the final

President McManus noted that in a single semester the

has doubled since the last school year. More than half of

enrollment is now made up of students in the first and second

years. The increase is due to a number of factors, including

the opening of the Boston Public School system, and an

expanded program of evening classes.

The evening program, which includes courses in the

natural sciences, literature, mathematics, and other

subjects, has become increasingly popular with both

students and faculty. The university has also

added more afternoon classes to accommodate the

needs of working students.

ELECTIONS HIGHLIGHT
FIRST CLASS MEETINGS

300 Hear Leavitt at Dinner

Apprehensive and eager at the same time, members of the student body gathered

in Leavitt Hall to elect the officers of the first-year class for the 1959-60 academic

year. The election was held by secret ballot, with each student casting one vote for

the candidate of their choice. The candidates for the various positions included

President, Vice President, Secretary, and Treasurer. The voting was conducted

in a fair and orderly manner, with the results announced shortly thereafter.

The officers elected were:

President: John Smith
Vice President: Jane Doe
Secretary: Robert Johnson
Treasurer: Emily Brown

This concludes the election of officers for the first-year class.

College Adjustment Stressed
Hard Work Key To Wisdom

BY BOB VINCENT

The keynote of the program, presented by the guest speaker, was the

importance of hard work and dedication in achieving success. The

speaker emphasized the need for students to set realistic goals and

to work hard to achieve them. He also stressed the importance of

taking advantage of opportunities and not being afraid to

take risks. The speech was well-received by the audience, who

applauded the speaker's enthusiasm and insight.

The evening program included a variety of

activities, including a panel discussion on

current events, a lecture on

the history of

Suffolk University, and a

performance by the

college's

debate team.

The event

was

a

success, and

the

students

looked

next

year.
EDITORIAL
A Responsible Pen

A college newspaper should be read, but not condoned, for that student appreciates the statement of facts which will follow as a presentation of both sides of the background of Suffolk. To know what we want to have, it is important to know why we haven't been able to get it up to now.

We applaud the fact that the administration has taken responsibility for the newspaper to the college, but it should be segregated from the fact that enlargement of the obligation, responsibility of the University faculty and students.

We shall try to be constructive in our opinions. The contributing press shall encourage but not demand.

The right side of life will be presented, but will be tempered with counterpoints of a moderate caliber. We shall strive to make the student aware of the activities which are not covered by the present column.

Pete Martin, Chicago newsman once said, "The power of the press may be its only consistent excellence. The skill of the press is to condense the essential and set off the embellisher."

Here, again we shall present another look at the world of collegiate life.

Will your help be all that it can be? Our aim is to be realistic, but not exhaustive, to be impartial but not academic, to be forceful but not given over to sensationalism.

PRESIDENT'S GREETING

It is an apposite saying to have many students in the bulletin and the pages. It is in our duty to give you in the Library, "Gallop."

To greet you again, here and there in the University and in its vicinity, is pleasing because it gets pretty quiet and the more you talk, the more you want to be with people and pleasant graduate year.

The new students were strongly evidenced at Orientation Period, but they are included in this state of greeting.

To all, please remember that the concept of excellence is in keeping with the philosophy of the entire Suffolk Family, of which each one is an important member.

SUFFOLK MAY USE STATE HOUSE LOT

The Suffolk State Department reads the student newspaper will be interested in a letter from the Suffolk State College, 1917 Mass. Ave. Springfield, Mass., which reads in part: "The Suffolk State Department is interested in the use of State House Lot for special purposes. It is possible that the use of the State House Lot for such purposes may be in the best interest of the Suffolk State Department as an educational institution."

State House Lot is a public square and the use of it for educational purposes is illegal. Students are therefore advised to avoid the use of State House Lot for educational purposes.

Six New Members Added To Faculty
By Nancy Pierce

With the addition of one full-time member and eight part-time members, the Suffolk faculty now numbers 42. This is an increase of six over last year's 1962-1963 teaching staff, and the largest faculty in Suffolk's history.

Joseph A. Cuzzetto, who is entering his last year as a part-time member of the Science Education department, is beginning his college teaching career at Suffolk. A fourth-year student who is married and the father of four children, he is particularly qualified to teach the junior and senior biology course. As assistant to the chemistry professor at his former school, Mr. Cuzzetto has taught for seven years. He is a graduate of Vincentian Academy in Los Angeles, and he is pursuing a B.S. degree in chemistry at the University of Southern California. His wife of four years, and his family, will live in the Boston area.

The Science Education department has expanded the physics department with four part-time instructors. Four full-time instructors have been added to the College of Fine Arts, and the English department has increased its staff by one new member.

A new student was transferred from MIT to Suffolk's School of Science this year. Mr. Smith, a freshman, is enrolled in the School of Science and is studying mathematics. He transferred from MIT because he felt that the mathematics program at Suffolk would be better suited to his needs.

The new students are very much interested in the courses they are taking. They are eagerly looking forward to the beginning of the new semester and the challenges that lie ahead.

Are you as smart as your father?

Chances are, you probably aren’t! Only about 10% of parents are as smart as their kids. If you’re not sure, you can take a Rogert Kent IQ test to find out. Just make sure your father is present when you take the test! 

Chances are, if you’re not as smart as your father, you’re not as smart as your mother either. Are you smarter than your parents? Let us know in the comments below!

**MAHONEY OUTLINES NEW BUSINESS PROGRAM GOING TO MORE LIBERAL COURSES**

Students entering the College of Business Administration this Fall are being required to take a program which places greater emphasis on general education and less on specific specialization. Paul J. Mahoney, chairman of the department, said that the program meets the recommendations of the American Assembly of Colleges. The assembly recommends that at least 10 percent of the courses in a college be devoted to general education. Mahoney said that the new program will be introduced next year.

**FIRST FALL FILING**

With the fall semester in full swing, students, faculty, and staff are busy completing their filing and record-keeping tasks. The filing of student records, faculty records, and administrative records have been completed, and the new system is now in use. The system is designed to make filing more efficient and accurate. Students are encouraged to use the new system for their own records as well.

**NEW FACULTY MEMBERS**

The College of Business Administration welcomes several new faculty members this semester. Among them are John A. Smith, who will be teaching finance, and Mary E. Johnson, who will be teaching accounting. The new faculty members are expected to bring fresh perspectives and innovative teaching methods to the College.

LEGALLY SPEAKING

Progress or Poverty

Let us at this moment, define one objective for the national community in the realization of new quarters for the student body, the solution of new quarters for the student body, the solution of new quarters for the student body. The argument concerning the removal of the Society from its present setting, unadorned by antiquated walls, and the addition of quarters which would enable the Society to maintain a more modern and attractive appearance, has been put forth. Generally, however, attractive quarters would be more expensive and more difficult to reach. The present halls, however, are more attractive than the proposed quarters. Next, they are more convenient to the students, who would otherwise have to endure a part of the commute. The present residence halls would be less congested in the event of a possible increase in the population. Finally, the present residence halls would be less dependent in their participation.

President Parker,

When you entered the new halls, you were confronted by the idea that the Society was looking for a new location. This brings up the question as to whether the Society should remain in its present location or move to a new, more modern location. The above note also applies to all other halls. When you enter a hall, you immediately begin to think about the location of the hall. That is to say, there is some criterion by which you judge a hall, and it applies to your opinion of the hall. The above note also applies to all other halls. When you enter a hall, you immediately begin to think about the location of the hall. That is to say, there is some criterion by which you judge a hall, and it applies to your opinion of the hall.

Dr. Parker,

Do you think for yourself? (See what this test tells you about yourself!)

Do you take notes on unusual opportunities?  Yes / No

Do you feel your emotions would rather be hidden or expressed?

Do you think that a public officer should do what he is elected to do but not if it is wrong?

Can you honestly say you never see a game of cards where something you win or lose?

Do you talk to other people tell you what they really mean in order to not make up your own mind?

The fact is, men and women who make up their own minds— who think for themselves— will not make Viceroy. Their mouth will not say, "I like Viceroy, it has a thinning effect on and a soothing effect on tension. "

If you have answered "NO" in six of the above questions— you are a man who decides for himself!

The Man Who Thinks for Himself Knows —

ONLY VICEROY HAS A THINKING MAN'S FILTER. A SMOKING MAN'S TASTE!
BOXING LUMINARY BYARS BEGINS "GREATEST FIGHT OF CAREER" HERE

Walt Byars, the most popular man of pugilistic fame entered these portals and called attention to the fact that he is about to engage in a career which is expected to be the greatest fight of his career - a short career, of course.

JUNE 1945

"GREATEST FIGHT OF CAREER"

When Byars first took up the "hobby" in 1936, only a handful of people were interested in watching boxing. Now, however, there are thousands of boxing fans throughout the country and the national pastime is rapidly growing.
