HUMANITIES PROFESSOR TELLS OF TRIP TO EUROPE

By ROBERT RAY

The train softly picked up speed and rolled out of America, a small Italian town. All the passengers were excited, wondering what they would see and experience in Europe. The professor, an expert on European culture, was eager to share his knowledge and experiences with the students.

He was accompanied by a group of students who had been selected for the trip. They were thrilled to be visiting some of the most famous cities in Europe and to see the sights for themselves.

The professor's first stop was Paris, where he took the students to see the Eiffel Tower and the Louvre Museum. They were amazed by the beauty and history of the monuments.

The professor then took the students to Rome, where they visited the Colosseum and the Vatican. They were impressed by the ancient architecture and the religious significance of the sites.

The students were grateful for the opportunity to study with the professor and to experience Europe firsthand.
