NEW MEDICAL-TECH PROGRAM

SUFOUK JIONS HOSPITAL IN COMMUNITY SERVICE

The University's new program was expanded one year earlier in September with the recent announcement of Prince Hall, Suffolk's and William Bosco of Newport Hospital concerning a new program aiding to a bachelor of science degree with a major in medicine.

Under the leadership of Dr. Robert A. H. Hargrave, chairman of the Department of Biology, and Prof. W. H. Haslam, Suffolk's new president, the program was introduced.

Dr. Hargrave said, "The program is designed to meet the growing demand for medical doctors. It is estimated that some 300,000 additional doctors will be needed by 1945."

The program, all of the students will be trained for medical doctors, filling the lack of knowledge in the field of arts and sciences.

Dr. Hargrave said, "The program is designed to meet the growing demand for medical doctors. It is estimated that some 300,000 additional doctors will be needed by 1945."

Dr. Hargrave added, "The University is pleased to announce the new program, and we look forward to the day when we can say that we have trained some of the finest medical doctors in the country."
McCarthy Calls for Debate Support

William McCarthy, president of the Suffolk University Debating Society, invites all students to participate in preparation of the forthcoming debate.

"If we are to defeat it all," he says, "it is absolutely necessary that we have a well-trained and literate audience of students who can present strong arguments and counter the conflicting viewpoints that we have here forming in the minds of our opponents."

McCarthy sees the debate as a way to help students clarify their own thoughts and improve their ability to express them effectively.

The Suffolk Debating Society is seeking students who are interested in debating and who are willing to put in the time and effort to prepare for the debate. If you are interested, please contact the Debating Society at the earliest possible time.

The Suffolk Debate is scheduled for the end of the academic year and will be held at a prominent venue in the city. The debate will be broadcast live on national television, and the winner will be awarded a prestigious prize.

If you are interested, please contact the Debating Society at the earliest possible time.

On Open Letters from Bruce I. Quick, President of Student Government 1960-61

On behalf of the student body of Suffolk Junior College, we would like to express a vote of appreciation and gratitude to Judge Henchey for his many years of service to the college.

Judge Henchey was honored at his retirement by the Board of Trustees of Suffolk Junior College.
