Law Alumni Hear N.Y. Jurist

Judge Sets Mood with Humor, Lauds Supreme Court in Finale

"I won't talk long," Judge Henry A. Driscoll of New York's Court of General Sessions began in his concluding remarks at a benefit performance of the Suffolk Law School Alumni at the Park Theater. "Let's talk, gentlemen of a law school, to judge a fellow lawyer on his record in court..."

MR. HIGLEY LEARNS OF NAVAL CADET PROGRAM

George Higley, president of the University of Suffolk, recently visited the Kent Nineteen of the Naval Aviation Cadet Program at the University of Florida. During his visit, Mr. Higley was taken on a tour of the facilities and was introduced to the cadets and their instructors.

The university has a strong commitment to the Naval Aviation Cadet Program, and Mr. Higley was impressed by the level of training and discipline among the cadets. He was particularly interested in the program's emphasis on leadership and teamwork.

The program is designed to prepare cadets for careers in the aviation industry, and Mr. Higley was encouraged to see the high level of training and preparation provided to the cadets.

DELTA SIGMA PI IN HIGH GEAR

Delta Sigma Pi, the National Business Fraternity for Men, has recently been active on campus. The fraternity has been involved in a variety of activities, including community service projects and social events.

Delta Sigma Pi has a strong reputation for academic excellence, and the members are committed to promoting professionalism and leadership among business students. The fraternity's high level of engagement and involvement in campus life is a testament to its commitment to these values.
"An Appraisal"

BY NIKKI GABRIEL

Tenses were when a college student was compelled to have a bulky book in one hand and a few shelves, as well as participating in various club cards in order to "go looking." The need to "go-looking" is one the few today, although once it is used to "identify one's self." I suppose the bandit's straps are still well, the bandits are far from casual and preventive. It is more serious than doing it.

One night, it's all drably to; the room was dark, the milk, the air. Barely after the coffee, the milk, the air. Barely after the coffee, the milk, the air.

The ceiling was on the way, the room was dimly lit. The milk, the air. Barely after the coffee, the milk, the air.

The Automobile Driver Is
PUBLIC ENEMY NO. 1
by Massimo Baines

One of the most pressing challenges to the public safety in the United States today is the issue of automobile safety. This challenge is not only a matter of public safety, but also a matter of personal responsibility. The statistics are alarming: each year, thousands of lives are lost, and millions of dollars are spent on medical bills and funeral expenses. Yet, as long as we continue to drive without paying attention to the rules of the road, we risk causing accidents that can be prevented.

A complex, adequate traffic safety program must be adopted, which includes funds for new roads, safe places for pedestrians, and school crossing guards. We need to promote health and accident prevention in our schools.

The National Teacher Exams
To Be Held in February

The National Teacher Exams will be held in February. To the many teachers and students throughout the United States, this is an important event. The exam is a formal test, which includes written questions, a practical session, and a written section.

It is especially important for those who are thinking of entering the teaching profession. The exam is designed to test the candidates' knowledge and abilities. The exam is entirely fair and objective. It is a good opportunity for teachers to test their abilities and to demonstrate their commitment to the profession.

NUCLEAR TESTING IN THE ATMOSPHERE

In recent years, discussions on nuclear testing have intensified, drawing attention to the potential environmental impacts. The debate centres around the effects on the atmosphere and the wider ecological and human health consequences. While proponents argue that testing is essential for national security, opponents urge for a moratorium, highlighting the risks and the need for safer alternatives.

On Films . . .
ARTHUR T. DAVIS

Hollywood has the perfect answer...Art Davis. The methods of the artful dodger are his business. He is the manager of the Flying Hollywood studio. He's also the head of the 'Hollywood' movie studio. The other side of this story is that he deals with people he knows. He makes the film that deals with the movie business, the other side of the business. The studio is a place where there is a camera, a light, a sound...it's all there. He loves that part of the business. He's a veteran of the movie business, and he's very good at it. He believes that the film is an important tool to be used by Hollywood studios.

Dear Aggie,

I have been wondering how the idea of the "SUFFOLK JOURNAL" came about. Do you know when it started and what its purpose is? I would like to find out more about the history of this publication.

Yours sincerely,

White at Night
BY BILL WHITE

Well, until you've actually taken the time to be there, there's absolutely no way to fully grasp the phenomenon of the White at Night event. It is more than just a social gathering; it is a celebration of the history and culture of the university. People from all over come together to enjoy the food, drink, and music, and to explore the campus in a new and exciting way.

In fact, it's not just the students who attend; faculty and staff also come out to participate. It's a way for everyone to come together and have a good time, regardless of their background.

The atmosphere is electric, with people dancing, laughing, and enjoying each other's company. It's a night filled with joy and excitement, and it truly is an event that you don't want to miss.

So, the next time you have the opportunity to attend a White at Night event, don't hesitate. It's an experience that you won't forget any time soon.
