Suffolk University

DONORS REPORT 1985

SPRING
1986

Message from the President

Suffolk University is grateful for the generous support of its alumni and friends who have helped to make possible the sustained growth and development of this University over the past year. I am happy to report some of the highlights enjoyed by Suffolk University in the past academic year.

The 50th anniversary of the founding of the College of Liberal Arts and Sciences was enthusiastically and appropriately celebrated with a year-long series of special events including a symposia, lectures, professional meetings, an academic convocation and other celebratory activities. Two national moot court championship teams were victorious in the National Constitutional Law Moot Court Competition. It is a great distinction for a law school to win even one national moot court competition. Two such honors in a single year is truly exceptional.

A university-wide strategic planning study was completed and discussed by the trustees at a special meeting. The study reviews recent growth and development, assesses Suffolk University's role in Boston's higher education milieu and outlines goals for the future.

The admissions, financial aid and registrar's offices were re-organized in order to make our admissions and recruitment activities in liberal arts and sciences, and in management, even more energetic, professional and successful. Robert Lay was recruited to the new position of Dean of Enrollment Management to supervise these important functions.

Several members of the Suffolk University faculty and administrative staff were given national recognition by their colleagues and elected to top national offices in their national professional associations, including Arthur J. West II, chairman of the Biology Department who was installed as president of the National Marine Educators Association; Duane Anderson, Director of Student Activities, who was elected chairman of the National Association of Campus Activities; and Edward J. Harris, chairman of the Department of Communications and Speech, who served as president of the National Forensic Association.

Total gifts and pledges to the University exceeded one million dollars for the first time in a non-capital campaign year. Membership in the "Patrons of SUMMA," alumni and friends who have given \$50,000 or more over the years to Suffolk, has increased by 37 per cent. In the course of the past two years, alumni donors to the University have increased by 45 per cent and now number more than 4,500.

Two state-of-the-art computers, Prime 9950's, were purchased and installed, increasing the already high quality of the University's computer facilities.

The National Association of Schools of Public Administration and Affairs (NASPAA) conducted a favorable peer review of the Public Administration Program.

The facilities renovation program, made possible by gifts from alumni and friends, continued. Necessary improvements were made to the electrical system and air conditioning equipment serving the

Donahue Building. A second moot courtroom, necessitated by the expansion of the moot court program, has also been recently completed.

Your continuing and growing generosity sustains our spirit and makes it possible for Suffolk University to become even more successful in serving its students and the wider community.

Daniel H. Perlman

President

Message from the Vice President for Institutional Advancement

The late E.B. White once wrote: "How sweet are the uses of brevity!" The dean of twentieth century American essayists was referring to Henry David Thoreau, who was anything but a Vice President for Institutional Advancement. Nevertheless, I am instructed to be brief in this annual Donors' Report for the best of

all possible reasons. There are eight hundred and fifty more alumni donor names to be included in our sixteen pages than there were last year. A glance at the box of "Highlights" also reveals that 1984-1985 is Suffolk's first million-dollar year — in a non-capital campaign year — in the history of development at this university. Milestone that that is, to me the increased participation by Suffolk graduates is the greater advance. The conventional wisdom in my profession is that alumni of non-residential colleges and universities simply do not have the opportunity to develop as strong a sense of identification with their schools as do "boarders." Year after year, Suffolk alumni are giving the lie to that supposition.

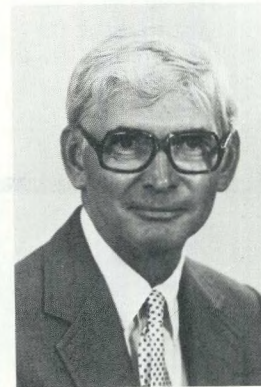

The secret — and it is no secret at all, of course — lies in the quality as well as the quantity of volunteers. Year after year we thank the stalwarts who return to phonathon evenings as regularly as swallows to Capistrano. And year after year, we welcome new cadres of volunteers, including current students, who help to maintain Suffolk's forward momentum. For this reason, some may find these annual messages slightly monotonous. I, for one, find nothing monotonous in being obliged to praise and give thanks where these are abundantly deserved.

In our last report I quoted F. Scott Fitzgerald's remark that "America is a willingness of the heart." To paraphrase Fitzgerald, I suggest that Suffolk, in all its constituencies, is a "generosity of the spirit."

Joseph M. Kelley

Joseph M. Kelley
Vice President for Institutional Advancement

Report of the Vice President/Treasurer

Having completed twenty years of service at Suffolk University, when the year ended on June 30, 1985, I reflected upon the many changes that have been made at Suffolk University during the last two decades. This led me to compare some 1964-65 statistics with those of 1984-85. The data on the accompanying chart (see page 3)

not only highlight some of the significant achievements made by Suffolk University over the twenty-year period, but also explain why tuition has increased well beyond the rate of inflation.

Perhaps the most notable are the astronomical increases in pension costs, disability insurance, and group health insurance. The spiralling costs of these benefits have frequently appeared in the news, and they are of special concern to all private institutions. As you can see, while the number of full-time employees at Suffolk University has increased 436 per cent in the two decades, their benefits increased 3,000 per cent. During the same period, the consumer price index increased a mere 325 per cent!

Suffolk University's physical plant has also experienced tremendous growth since 1964-65. At that time the Archer Building was our sole facility, housing three undergraduate schools (including the College of Journalism, now a department of the College of Liberal Arts and Sciences), the Evening

Highlights 1984-85

Total pledges of more than \$1,000,000 for fiscal 1984-1985 — an increase of over \$200,000 in pledges compared to 1983-84.

All time high in numbers of alumni donors to the University — 4,481 gave this year versus 3,360 last year, an increase of 24% in one year and a total increase of 45% in two years.

Membership in Patrons of Summa increased from 17 to 22 during 1984-85.

Alumni participation in giving passed the 20% mark for the first time. This level of participation is much higher than the national average for other urban commuter institutions.

The National Phonathon exceeded expectations by raising \$147,000 in pledges. This program is the foundation from which the success of all other fund raising activities is derived.

A concerted effort on behalf of the Merit Scholarship Fund in the name of President Emeritus Thomas A. Fulham realized \$120,000 as of June 30.

Division, the Law School, and all other graduate programs. The Donahue Building was under construction and scheduled to open in the fall of 1966. Our plant holdings have grown from one building to six, with a 370 per cent increase in square footage.

Suffolk University has grown not only in size, but more importantly in quality. The improvements in our library facilities are a good example. Total Suffolk University library holdings have grown from 60,000 to 345,000 volumes. Back in 1965, the library in the Archer Building housed the collection for the entire University including the Law School. The Law School now has two facilities: the Mugar Library housing the main collection, supplemented by the new Pallot Library. Our Law School collection is one of the outstanding law collections in the Boston area. For students in the College of Liberal Arts and Sciences and the School of Management, the Mildred Sawyer Library which opened in 1982 offers the very latest directories, statistical collections, investment house reports, business-related services, and on-line computer services.

With all the expansions and improvements at Suffolk University over the twenty-year period, it is no wonder that the plant assets increased \$29,000,000 or at an average of \$1,450,000 per year, and the total operating budget increased \$24,202,000 or an average of \$1,210,100 per year. What I do find remarkable is that with all the increased costs, tuition increases have been kept to a

minimum. For example, the full-time undergraduate tuition increased from \$900 to \$4,500 or 400 per cent, while the total operating budget increased 2,147 per cent. With the help of careful budgeting and full utilization of space, Suffolk University's tuition remains highly competitive in the Boston area.

Donations have been of primary importance in helping Suffolk University to achieve its goal of offering high quality education at an affordable price. As you can see on page 3, total gifts, grants and contracts have increased dramatically in the twenty years, helping to offset our skyrocketing costs. With the continued generosity of alumni, friends, foundations and corporations, we can maintain the excellence of our educational programs.

Total: \$27,079,986

Message From the National Chairman

First, let me express my personal delight and satisfaction at having been invited to serve Suffolk for a third year as National Chairman. The fact that we can report a twenty-four per cent increase in alumni participation over 1983-1984 — thanks to a devoted army of volunteers — makes me want to continue in this effort. If, as

I believe we can, continue to grow in alumni participation at this rate, we will be able to boast, entirely without overstatement or exaggeration, that Suffolk University leads the nation among non-residential universities in alumni loyalty and support.

There have been other reasons for satisfaction in this past fund-raising year. While we did not repeat special events like the previous year's Sargent and Byrne dinners, we are still observing the momentum created by those receptions. The principal of the David J. Sargent Fellowship Fund reached \$188,000 by June of 1985 and the Garrett Byrne Scholarship Fund is climbing steadily to the \$100,000 mark. The first Sargent Fellow, Mr. Theos Dickson McKinney III, has been appointed and begins his Suffolk Law studies this autumn. I confidently expect to be able to make a similar announcement both as to Sargent and Byrne scholars in this space in 1985-1986.

Thomas E. Dwyer, Jr., JD 70
National Chairman, Annual Law Fund

Volunteers Dinner (1985) left to right: Judy Dumont, William J. Geary, and President Perlman.

 Suffolk University does not discriminate on the basis of race, color, religion, sex, national origin, age, marital or parental status or handicaps in its admissions policies and in the administration and operation of all its programs and activities.

Students may apply for admission to Suffolk University for the fall, spring or summer session and may attend on a full or part time basis.

Summa

As the word summa denotes academic achievement of the highest distinction, by extension, summa can also mean leadership and outstanding example. Suffolk University has chosen to recognize as members of Summa those alumni and friends who make gifts of \$1,000 or more annually. Patrons of Summa is the title conferred on those donors of the past and present whose lifetime contributions to Suffolk University reach or surpass \$50,000.

Message From the General Chairman

I am very pleased to report that this first year as General Chairman has been truly exciting. As I am sure you know, there are many reasons to be pleased, however, the most important is the increase in alumni participation. This, as well as Suffolk's first million dollar year, is truly cause for celebration.

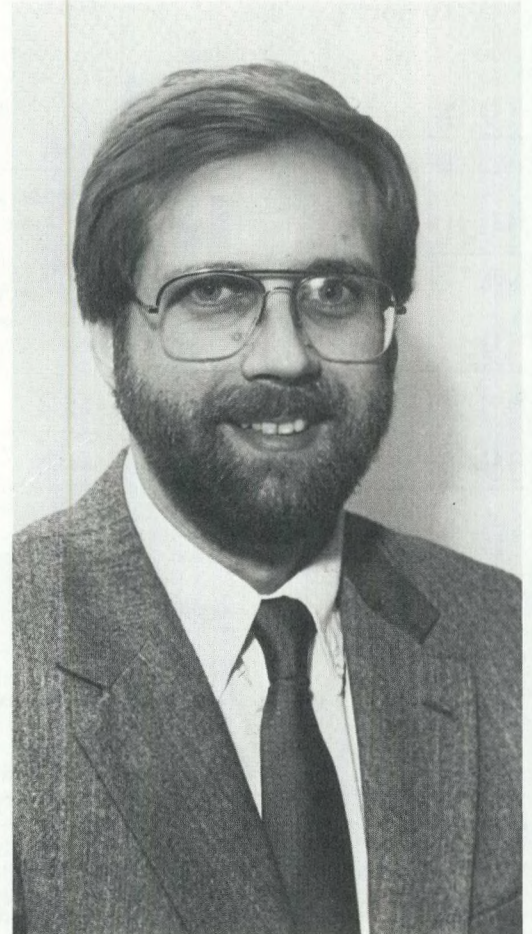

Of course, we can't pause for too long as the 1985-1986 campaign is already underway. My own hope is that this year's total will be even better, with a big increase in the CLAS and SOM donors.

Your gifts to the general fund are of major importance to Suffolk's operating budget, however, you may wish to consider donating to one of the named funds found on page 15. Even a modest gift to an existing fund is a quiet way of saying thank you for a Suffolk education.

Again, thanks to all the donors for making this past year a success and remember, it will take all of us to make this year better.

Paul A. DiPiero

The Cornerstone Society

THE CORNERSTONE SOCIETY gives recognition to those alumni/ae and friends of the College of Liberal Arts and Sciences and of the School of Management who strengthen the fabric of Suffolk University through annual gifts of \$250 to \$999. The steady increase in Cornerstone Society membership is evidence of the donors' dedication to and confidence in the programs and policies of the University.

Other Ways of Giving

There are ways other than cash or transfer of securities to make gifts to Suffolk University. (NOTE: Gifts of securities should always be sent by registered mail to F. X. Flannery, Financial Vice President, Suffolk University, 8 Ashburton Place, Boston, MA 02108.) These methods of giving include gifts-in-kind, annuities, and bequests.

Gifts-in-kind include libraries, art works, real estate, or other items which can be retained or sold for the benefit of the University. Prospective donors of gifts-in-kind should first confer with the Vice President for Institutional Advancement or the Financial Vice President regarding the usefulness and appropriateness of the intended gift.

Annuities create a method of making a substantial gift to Suffolk University while retaining the use of some annual income for one's own and/or one's beneficiary's lifetimes, with considerable tax benefits. Again, prospective donors of annuities should confer with their personal financial advisors.

Bequests are a very attractive method of associating one's name with a university in perpetuity. Graduates and friends who are considering including Suffolk University in their wills should confer with their own attorneys as well as with officers of the University.

Suffolk University Alumni Council 1985-1986

Douglas S. Bishop, JD'77
