WHAT PUBLICITY DEPARTMENT?

The honorarium for the public relations officer of the Suffolk Publicity Department has since been reduced from $3,500 to $1,000. Current rates for the service of a college publicity officer range from $1,800 to $2,000. It is hard to believe that these rates can be cut so drastically.

In the past, the Publicity Department has been a source of satisfaction to those of us who have been interested in its work. It has been a source of pride to those who have cared for its development. It has been a source of concern to those who have helped its development.

The reduction in the rate for the service of a college publicity officer is a sign of the times. It is a sign of the times that the people who have been interested in the development of the Publicity Department are now interested in its destruction.

THE TUITION INCREASE

The Board of Trustees has, in effect, abandoned the public relations officer. The Board of Trustees has, in effect, abandoned the Publicity Department. The Board of Trustees has, in effect, abandoned the people who have been interested in its development.

THE EDITOR AND YOU

Pays tribute to the young and energetic, but the younger generation's lack of interest in public relations is evident. We are not even interested in the public relations officer. We are not even interested in the Publicity Department. We are not even interested in the people who have been interested in its development.
