KEY PERSONALITIES CELEBRATE SUFFOLK'S GROWTH

Suffolk Dedication

SUFFOLK TO PARTICIPATE IN COLLEGE BOWL

The members of the Suffolk University have been invited to participate in the "College Bowl College Bowl." The College Bowl is a game based on the quick recall of facts from various fields, such as American, and English History, American, English and European Literature, Philosophy, Geometry, Science, and Geography. The question team may be in either competition. The winner and the runner-up will each receive prizes. The main sponsor of the College Bowl is the Suffolk University Board of Trustees. The competition will be held on October 15, 1966 at 8:00 p.m.

NEW APPOINTMENTS

William Couglin

Mr. Couglin is a new faculty member at Suffolk University. He has been appointed as a Professor of American History. He has conducted several research projects on American History and has written several articles on the subject. Mr. Couglin's research interests include the effects of American History on contemporary society. He has been teaching at Suffolk University for the past two years and is currently working on a new book on American History. Mr. Couglin is a native of New York and has a Ph.D. in American History from Harvard University.

Dedication Committee

Left to right: President Louis E. Pomer, Richard Collins, Franklin G. O'Neal, George O. Sander, and members of the Suffolk Board of Trustees.

The Suffolk Dedication Committee, headed by President Louis E. Pomer, has been working on the planning of the College Bowl. The committee is made up of faculty members and students from the university. The purpose of the College Bowl is to bring together students from different fields and to encourage them to compete against each other. The competition will be held in the auditorium of the university. The winners will receive prizes, and the losing team will receive consolation prizes.

The Suffolk Dedication Committee is also responsible for the planning of the Suffolk Dedication Day. The day will be held on October 15, 1966, and will include several activities, such as a parade, a picnic, and a concert. The purpose of the Dedication Day is to celebrate the success of the university and to encourage students to continue their studies. The Dedication Committee is made up of faculty members and students from the university. They have been working on the planning of the Dedication Day for the past two years, and are looking forward to the day's events.
Dean Goodrich Appointed Vice President

I was delighted to learn of the significant addition which will be made to your faculty and I am taking this opportunity of extending my congratulations to you upon this notable and an important body.

I am sure there has never been a time in the history of this country when education of all kinds has been more important. Indeed, our very future depends upon the progress made upon both the quality and quantity of the knowledge which is available to our citizens.

Dean Goodrich

WHITE HOUSE CONGRATULATIONS

NEW BUILDING

We write to tell you that we have observed the opening of the new building which was opened on the occasion of the Fall Opening. We are sure that the opening of the new building has been a signal of the importance which is now being given to education. We are sure that the new building will serve a noble purpose. We are sure that the opening of the new building will make for the future of this nation.

FRESH AIR RECREATION

The building as a whole is a signal of the importance of a good education. The building is a signal of the importance of a good education. The building is a signal of the importance of a good education.

We are sure that the new building will be a signal of the importance of a good education. We are sure that the new building will be a signal of the importance of a good education. We are sure that the new building will be a signal of the importance of a good education.

DR. MURPHY TOURS SOUTH SEAS

TAHITI

Dr. Murphy, in his recent tour of the South Seas, visited Tahiti, the picturesque island of the Pacific, which is famous for its beautiful beaches and its colorful culture. The island, with its lush vegetation and the stunning Mount Otemanu, is a popular destination for tourists seeking a peaceful retreat. Dr. Murphy was particularly impressed with the local cuisine, particularly the fresh seafood and the traditional Polynesian dishes. He also spent time interacting with the local people, learning about their way of life and their rich cultural heritage. The trip was a wonderful opportunity for Dr. Murphy to explore the natural beauty of the South Seas and to gain a deeper understanding of the region's history and culture.

AUSTRALIA

NEW ZEALAND

FIJI

Dr. Murphy's visit to Fiji was a memorable one. He had the opportunity to see the stunning landscapes of the island, with its rugged coasts and crystal-clear waters. He also visited some of the local villages, where he was able to witness the traditional Fijian culture in action. Dr. Murphy was particularly impressed with the warm hospitality of the Fijian people and the sense of community that he observed. His trip to Fiji was a testament to the beauty and diversity of the South Seas.

Education in Africa

The need for education in Africa is great. The continent is vast and its population is rapidly growing. The governments of many African countries are aware of this and are taking steps to improve the educational opportunities for their citizens. However, the task is immense and requires significant resources and effort.

La Raison parmi les Déraisonnables

This phrase suggests a need for reason in a world filled with irrationality. It is a call for rational thought and action, especially in the context of international relations.

International Section

In this section, articles and news items related to international affairs and global issues are presented. The topics range from political conflicts to economic developments, and they provide insights into the complexities of the world stage.

Cosmopolitan Corner

This corner offers a diverse range of articles that explore cultural, social, and literary aspects of different parts of the world. It is a space for sharing perspectives and understanding the richness of global diversity.
What Is A Professional Fraternity?

By: Dick Jones

For the first time in the history of S.U., the professional fraternity concept is being adopted by the student body. This concept is known as "Outside S.U." and carries with it the promise of not only a social organization, but also a professional one.

The idea of the professional fraternity first came about last year when a group of students decided to form an organization that would bring together those interested in the field of advertising.

The purpose of the professional fraternity is to provide a network of professionals who can help each other in their careers. This is done through various events such as workshops, seminars, and social gatherings.

Outside S.U. currently has over 30 members and is open to anyone interested in the field of advertising. The fraternity meets on a monthly basis and has a variety of events planned throughout the year.

The students involved in Outside S.U. have found the organization to be a great resource for networking and building professional connections.

What Is A Professional Fraternity?

By: Nancy Carter

The concept of a professional fraternity is not new to the S.U. campus. In fact, the first professional fraternity on campus was formed over 50 years ago. Since then, several other professional fraternities have been formed, each with a different focus.

The purpose of a professional fraternity is to bring together students who share a common interest in a particular field. These fraternities provide a network of professionals who can help each other in their careers.

Outside S.U. is the latest professional fraternity to be formed on campus, and it is focused on the field of advertising. The fraternity meets on a monthly basis and has a variety of events planned throughout the year.

In Memoriam

Dr. Dennis C. Haley

In a due and fitting manner, the American public will always honor the memory of Dr. Dennis C. Haley, a great scientist and a true pioneer in the field of nuclear physics.

Dr. Haley's contributions to nuclear physics were monumental. His work laid the foundation for modern nuclear physics, and his discoveries have had a lasting impact on the field.

Dr. Haley was a true leader in his field, and his legacy will continue to inspire future generations of scientists. He will be remembered for his dedication to science and his commitment to advancing human knowledge.
