S.U. Students, Faculty March for Dr. King, Attend Rally in Post Office Sq.

Student Counseling Services Expanded

A new counseling office has been opened at S.U. to help students with personal problems. The office is located in the Student Center and is open from 9 a.m. to 5 p.m., Monday through Friday. Counselors are available to help students with any personal problems they may have.

Faculty Promotions Announced

Dr. Charles B. Fishburne, associate professor of modern languages at Suffolk University, has been appointed chairman of the modern languages department. Dr. Fishburne has been a member of the Suffolk faculty since 1965.

Dr. Margaret L. Smith, professor of economics, has been appointed head of the economics department. Dr. Smith has been a member of the Suffolk faculty since 1963.

Studeat Counselling Services have been expanded to include additional services for students. The services include individual counseling, group counseling, and counseling for students with special needs.

Promotions have also been announced in other departments. Dr. John J. O'Brien, associate professor of history, has been appointed department chair. Dr. O'Brien has been a member of the Suffolk faculty since 1962.

Dr. Harry L. Thompson, associate professor of psychology, has been appointed department chair. Dr. Thompson has been a member of the Suffolk faculty since 1961.

Mrs. Elizabeth Williams has been appointed director of the Computer Center. Mrs. Williams has been a member of the Suffolk faculty since 1964.

Dr. Charles B. Fishburne, assistant professor of English, has been appointed department head. Dr. Fishburne has been a member of the Suffolk faculty since 1965.

Dr. Margaret L. Smith, associate professor of economics, has been appointed department head. Dr. Smith has been a member of the Suffolk faculty since 1963.

Dr. John J. O'Brien, assistant professor of history, has been appointed department head. Dr. O'Brien has been a member of the Suffolk faculty since 1962.

Dr. Harry L. Thompson, assistant professor of psychology, has been appointed department head. Dr. Thompson has been a member of the Suffolk faculty since 1961.

Dr. Charles B. Fishburne, assistant professor of modern languages, has been appointed department head. Dr. Fishburne has been a member of the Suffolk faculty since 1965.

Dr. Margaret L. Smith, assistant professor of economics, has been appointed department head. Dr. Smith has been a member of the Suffolk faculty since 1963.

Dr. John J. O'Brien, assistant professor of history, has been appointed department head. Dr. O'Brien has been a member of the Suffolk faculty since 1962.

Dr. Harry L. Thompson, assistant professor of psychology, has been appointed department head. Dr. Thompson has been a member of the Suffolk faculty since 1961.

Dr. Charles B. Fishburne, associate professor of modern languages, has been appointed chairman of the modern languages department. Dr. Fishburne has been a member of the Suffolk faculty since 1965.

Dr. Margaret L. Smith, professor of economics, has been appointed head of the economics department. Dr. Smith has been a member of the Suffolk faculty since 1963.

Letters to the Editor

More On
Student Power

Ask that the student life be more "studentimized," as we were a few years ago, to suit our needs, and no one would be upset if we made a few "student changes",

---

Open Letter to
Student Body

To The Student Body:

This is a sequel to the Student Government's 1966 venture in the Examiner, which was an attempt to bring the student views to the fore. We hope that this time, we can do a better job of reaching the students.

---

Courses In Banking
Offered In June

Suffolk University and the Boston Chapter of the American Institute of Banking have combined to offer a joint program in banking leading to the degree of bachelor of science in business administration and a certificate in business administration.

---

S.U. Offers Financial Aid

Names of Buildings

The Suffolk University College of Business offers a number of scholarships to students who wish to attend the university. These scholarships are available in various fields of study and are funded by different sources. The names of the buildings associated with these scholarships have been listed below:

---

Suffolk University's
New Library

The new library is a state-of-the-art facility that includes advanced technology and a collection of over 100,000 books. The library is open to the public and is a great resource for students and faculty alike.

---

Apologies to Attorney

The new building was designed to accommodate a large number of students and faculty. It features modern amenities and is equipped with state-of-the-art technology.

---

Suffolk University's
New Student Center

The new student center is a hub for student services, including academic support, counseling, and career development. It is a welcoming space for students to study, socialize, and connect with their peers.

---

Suffolk University's
New Engineering Building

The new engineering building is a state-of-the-art facility that includes advanced technology and a collection of over 50,000 books. The building is open to the public and is a great resource for students and faculty alike.

---

Suffolk University's
New Science Building

The new science building is a state-of-the-art facility that includes advanced technology and a collection of over 100,000 books. The building is open to the public and is a great resource for students and faculty alike.

---

Suffolk University's
New Law School

The new law school is a state-of-the-art facility that includes advanced technology and a collection of over 50,000 books. The building is open to the public and is a great resource for students and faculty alike.

**Drugs, Uses And Abuses**

By Linda Fraley

Dr. Victor A. Gallina, Director of Research in "Can I drug addict rehabilitation succeed?" Massachusetts Institute of Technology's Student-Staff Lecture Series over the years. Dr. Gallina's introduction in which the lecture series noted that the "present age is characterized by drug use.

Dr. Gallina began his talk declaring that there are no experts in this field, but rather a variety of experts in various fields. He noted that there is a need for more research in the area of drug addiction and abuse.

Dr. Gallina noted that in 1965, there were 200 communities in Massachusetts with 200 different forms of drugs. The consumption of users is higher than ever before and the community is more aware of the dangers of drug addiction and abuse.

Dr. Gallina stated that we have an "authenticated" number of addicts, and that the numbers are increasing. He noted that the demand for drugs is increasing, but that more research is needed in this area.

Dr. Gallina said that there is a need for more research in this field, and that the community is more aware of the dangers of drug addiction and abuse. He noted that the demand for drugs is increasing, but that more research is needed in this area.

The speakers will make an announcement of the remainder contained in the report by the President's Commission on Civil Disorders, especially now highlighted by Martin Luther King's death," said Rev. George Fitzgerald, director of the Newman Center.

The program will be held at 7:30 p.m. in the joint house of the Linnean Science Center on the Medical campus. The public is invited free of charge.

V.I.P.s Speak Of Choice 68

Adams Faculty:

"Since college students make up a major part of our population and are generally well informed, so should we. If we want to be heard, we must be ready to express our political views in a way that is meaningful to young people and young leaders to express their political views in a meaningful way to young people and young leaders in the national political process.

"Since it is a matter of national concern and should be reflected better to develop national power to influence the course of the nation in a meaningful way..."
Choice Depends on Moderates

One of the more amazing political stories involves the current state of the Wisconsin Republican Party, which has been under the control of conservative leaders for many years. This situation has created a rift between those who support a more moderate approach and those who adhere to the traditional conservative philosophy. The leaders of the conservative wing, led by Senator Robert Byrd, have been able to maintain control through a combination of influence and power. However, recent events have shown that the moderate wing is gaining strength and gaining support among a growing number of voters.

The moderate wing of the Wisconsin Republican Party has been led by Senator Bernie Sanders, who has been working to change the direction of the party. Sanders has been able to gain support by focusing on issues such as economic opportunity, healthcare, and education. He has also been able to appeal to a broad base of voters, including those who are concerned about the state of the economy and the future of the country.

As a result, the moderate wing has been able to gain significant leverage in the party. They have been able to push for changes in the party platform and to influence the direction of the party. This has been a significant development, as it has shown that the party is not immune to change and that there is a desire among many voters for a more moderate approach.

In conclusion, the current state of the Wisconsin Republican Party is a stark example of the importance of moderation in politics. The moderate wing has been able to gain significant support and influence, and this has led to a shift in the direction of the party. This is a positive development, as it shows that moderation can be a powerful force for change and that it can be used to bring about positive results. As the country continues to face a range of challenges, it is clear that moderation will be a key component of any successful political strategy.

Newman Chaplain
At Suffolk
For the convenience of the student Newman chaplain, Newman Chaplain, will be in the Dr. White's office Room 216, every Tuesday during the morning hours.

Dear Uncle Says...

Dear Uncle

While I am not one of the discriminating, snobbish sort who dismisses the idea of going to a college dance because it is a college dance, I come very near it. I consider myself a very clever man. I have a name, a name which I have earned, and I hold a respected position. I am a man of means, and a fashion sense. I am a girl who can lead her own horse. What do you think?

Cousin Dave

Dear Cousin Dave,

Perhaps you are the one understanding right. I think I can understand a girl who wants to dance with me, even if I am a college student, even if I am not the most distinguished. I look back on the occasional cost of my dress and what it means to my family. I think I can offer a unique experience, a unique charm that only a new man can provide. Remember, my education starts at an extremely young age.

Uncle

Dear Uncle

You're not a very smart fellow; I can see that you can only understand by the colors of my gowns, not by the quality of my selection. If you were my brother, you'd be in college; you'd be a college man; you'd understand me, not just someone's daughter. I've had a very difficult life, and I don't think you've had the opportunity to understand the complexities of my life.

Uncle

Dear Uncle

I don't need anybody's sympathy, not even your's. I can understand a man's difficulties, and I can even understand the difficulties of someone with a great education. I can understand the difficulties of someone who is a great scholar. I can even understand the difficulties of someone who is a great dancer. But I don't think I can understand the complexities of your difficulties.

Uncle

Dear Uncle

If it is necessary to understand complexities, I am not prepared. I am not seeking for any intellectual matters, comprehensible to the set, in a working manner. I think, however, that you should have a better understanding of the situation and the problem of a girl within your own age group.

Uncle
