Negro Literature Course to be Offered

The Coalition for New Politics

The Coalition for the new political movement is a group of students and faculty member who have been meeting on the campus of Suffolk University to discuss and organize for a new political system. The group has been holding regular meetings to discuss issues such as the need for a more inclusive and democratic political system, the role of the media in shaping public opinion, and the need for a more participatory democracy.

Editorial:
And Then There Were None

There was a very good meeting held last night and we want to make known about it. It was held in the Academic Building at 8:00 p.m. The topic discussed was the current status of the Suffolk University Club. We want to extend our congratulations to those who attended and to those who contributed to the discussion.

Thank You,
Mrs. Adams

Suffolk Attends NECEA Meeting

A delegation of faculty from the Suffolk University English Department attended the 2nd Annual Conference of the Northeastern College English Conference held at the University of Massachusetts, Amherst. The conference was held on October 30 and 31. Faculty from Suffolk University and other institutions attended the conference and discussed various topics related to English education. The conference was well-attended and provided valuable insights into the latest trends and developments in the field of English education.

Cleiman on Clubs

Dear Students,

I am writing to address an issue regarding the Suffolk University Club. The club has been facing some difficulties lately, and I want to bring these problems to your attention. The club is struggling to attract new members and retain existing members. We need your help in finding solutions to these problems.

Thank you,
Chairperson, Suffolk University Club

Some Other Views

by Robert Vogger

The following article was originally written in response to the editorial which appeared in the October, 1968, issue of The Journal.

I was greatly impressed by the Michigan GOP's DSTP (Dietary Standards Test Project) article. It was well written and has been utilized as a political weapon of our cause. I urge my readers to support the daily Torch, which was published and edited by some of the students of Michigan State University.

The Michigan DSTP project was well received by students and faculty. The students were well informed and were able to understand the political aspect of the issue. The Torch is an excellent publication and is to be commended for its work.

Sociology Department Moves Forward

The Sociology Department plans to hold a series of colloquia, seminars, and special events. The department is also seeking to increase its faculty and student body.

The department will host a colloquium on the topic of "The Sociology of Education" on November 20th. The colloquium will feature guest speakers from various universities. The event will be held in the Social Science Building, Room 202, from 10:00 a.m. to 12:00 p.m.

Upcoming seminars will include "The Sociology of Gender" on December 4th and "The Sociology of Work" on December 11th. Both seminars will be held in the same location and time as the colloquium.

The Sociology Department is also planning a series of special events, including a guest lecture by a prominent sociologist on January 8th, and a panel discussion on "The Future of Sociology" on February 5th.

The department is seeking to increase its faculty and student body. Interested candidates are encouraged to apply by January 15th.
Rapid reading skills can cut your study time in half!

How much time do you spend studying for your classes? If you're like most students, you probably spend hours each day poring over textbooks and notes. However, with the Read Ability System, you can drastically reduce your study time and still retain all the important information.

The Read Ability System is a revolutionary new reading method that allows you to read and remember information at an incredible speed. Developed by Dr. John Halliday, the Read Ability System is based on years of research and has been proven to work time and time again.

How does it work?

The Read Ability System uses a unique combination of visual and auditory cues to help you absorb information quickly and easily. As you read, you'll see special symbols and hear specific tones that correspond to each word. This process activates your brain's natural reading patterns and makes it much easier to process information.

With the Read Ability System, you can read through a chapter in just a few minutes and still retain all the important details. And because the system is so intuitive, you'll be able to apply it to any subject or material.

The Benefits of the Read Ability System

- Increased study efficiency: With the Read Ability System, you can cut your study time in half or more, allowing you to focus on other important areas of your life.
- Improved retention: The unique visual and auditory cues used by the Read Ability System help you retain information for longer periods of time.
- Increased confidence: As you start to see the results of the Read Ability System, you'll feel more confident in your ability to complete assignments and study for exams.
- More time for other activities: With less time spent studying, you'll have more time for hobbies, exercise, and other activities that you enjoy.

Don't wait any longer to experience the benefits of the Read Ability System. Start using it today and see how much your study time can be cut in half!
