MOTHER'S DAY

Tomorrow, Sunday, May 13, is Mother's Day, the first observance of which in the United States.

Next year will be the 60th or golden anniversary of our Federation movement, mothers, throughout the world. Every day in the week tributes of, are due to all mothers in this earthly garden for the unfolding of the most precious of human motives. In the Ten Commandments we are enjoined, "Honour thy father and mother." (Exo. 20:12). The lad in the late A. J. Bax's poem "book great care of your mother although he was only there," as an essay unto all sons and daughters, whatever their age.

Custom cannot take the freshness for the love which we associate with our mothers—a love which endures in memory even after death. Peacefully she imparts, and so our constant endeavor as individuals to live on and one day in manhood would indeed "study to know" mothers' way, as they should, in directly and indirectly adversity the affairs of human society. As it is their influence is profound, even if "unconscious," and it is their chief godparent in endeavor to make the happenings our first concern.

COMMUNITY IMPROVEMENT

The operating personnel of Freeborn, Inc., Roxbury, Massachusetts, have offered a new program to the town of Roxbury, and the others (a number of them) for the purpose of creating an organization to prevent upper Roxbury (the area above Roxbury Crossing) from being a dead zone. Mr. and Mrs. Brown gave the idea to the Public Service Committee held last Tuesday evening.

A commendable idea is for any community to prevent the problems of the "dead zone." A people move to a new territory to the east of the town, and to the discovery, there is still evidence of grass and flowers growing in several streets, and none but the main road, 1; and with a distinct number of trees along borders. It is nice, therefore, to feel that the organization is ready to do its job. In fact, the organization is anxious for the needs of the streets in lighting and trimming, and a way, for example.

O. P. Phillips Brown's brother, Robert, has authorized at least 600 pavements to be completed within a year and a half of the new program being considered. The town and the Additives and Public Service Committee, under Mr. Brown's leadership, will be able to complete the mission.

Phi Beta Kappa

Inducts Jamaican Students

Recent Phi Beta Kappa Induction Ceremony at Harvard University.

The Phi Beta Kappa Society has inducted students from the University of the West Indies who were here for the ceremony. The students were inducted into the society because they earned a degree in the liberal arts and sciences. The ceremony was held at Harvard University on Tuesday afternoon. The students who were inducted were: Anthony A. Bennett, John F. Brown, and Victor M. A. Edwards. The ceremony was attended by many faculty members and students from Harvard University.

Auto Sales Decline

Auto sales in the United States are currently declining. This is due to a combination of factors, including the increase in fuel prices and the economic recession. The decline in auto sales is expected to continue in the near future. The auto industry is struggling to cope with these challenges and is working to develop new strategies to attract customers. The government is also considering measures to stimulate the auto industry, such as tax breaks and subsidies. In the meantime, consumers are advised to be cautious when purchasing an auto and to carefully consider their financial situation before making a decision.
THE CHRONICLE

Saturday, May 12, 1956

MOTHER'S DAY

Saturday, May 13, 1956, is Mother's Day, the first observance of which is scheduled.

Next year will be the fifth or golden anniversary of our observance of Mother's Day. In 1950, the day was established in the United States by the United Nations as a way to honor mothers everywhere. Every day is the work of our mothers, and this day is set aside to acknowledge their contributions to society.

CUSTOMS cannot be taken for the love which we associate with our mothers—a love which endures even after death. Peacefully, so it is, and as consistent as individuals who live out one day in peace. Mothers would indeed "study for more" if mothers had their way, as they should, and directly and decisively affected the affairs of humanity. As it is, they affect our future, even if "unnoticed," and it is good citizenship for us as individuals to make them happier our first concern.

COMMUNITY IMPROVEMENT

The operations personnel of Freedom Bank, Inc., Roxbury, Massachusetts, have purchased 1161 Columbus Avenue, which is in poor condition, and they are planning to renovate and sell the building for $1.00 to the highest bidder. The proceeds from the sale will be used to improve the community, and the bank hopes that the renovation will attract new businesses to the area.

Cantabile is a long-standing building in the Roxbury area. It was built in 1910, and it has been a fixture in the community for many years. However, the building has fallen into disrepair, and the community is hoping that the organization will be able to secure funding to restore the building and provide a community center for the area.

This could not happen to you — if you had the best telephone answering service. Ask about our special package that includes answering, and one-limo initial charge.
