Treasurer Hynes Talks To The Journal

Former Mayor of Boston John B. Hynes, the recently appointed treasurer of Suffolk University, opened with the proposition that the most important political issues are the quality of government and how we view our institutions. He further stated that the quality of government depends on the quality of the people in positions of power. He highlighted the need for fiscal responsibility and efficient management to ensure a stable and prosperous future.

Hynes emphasized the importance of education and its role in shaping the future. He discussed the need for higher education institutions to adapt to the changing landscape of technology and the workforce to ensure that graduates are prepared for the jobs of tomorrow. He also spoke about the role of government in promoting innovation and entrepreneurship.

Hynes concluded by expressing his commitment to transparency and accountability in his role as treasurer. He encouraged the audience to engage with the government and participate in the political process to ensure that their voices are heard.

October 12, 1969

Treasurer John B. Hynes

To the Editor of The Journal:

I am pleased to announce my appointment as the new Treasurer of Suffolk University. My goal as treasurer is to maintain fiscal responsibility and ensure the financial stability of the university. I believe that this position offers a unique opportunity to contribute to the overall quality of government and the well-being of the community.

Thank you for your attention.

John B. Hynes
Treasurer

Psychological Service Revised

In Joel Walfestine

More students are being referred to the Student Psychological Service, while the department has been notified. Psychological service, the office responsible for handling all referrals, is operated by the department. Joel Walfestine, said, "Although the psychiatrist is essential, people who come to see me are more interested in finding a solution to their problems, and the people in this office are more interested in finding a solution to their problems." The students who come to see me are more interested in finding a solution to their own problems, and the people in this office are more interested in finding a solution to their own problems.

In Lois Lathemson

Lois Lathemson, a junior psychology major, said, "I think the psychological service is important, but I don't think it's the only solution. There are other ways to deal with problems, and I think people should be encouraged to explore those alternatives before they come to see me."

VA News

Unlimited Cut System in Effect

For a trial term of two years beginning last September, the Student Health Center will implement an unlimited cut system. The system, while it is designed to save students money, has its critics.

"I think the unlimited cut system is a good idea," said Student Government Association President Bill Baird. "It will help students save money and will encourage them to take advantage of the services available."

However, some students are concerned about the system. "I don't think it's fair," said one student. "Some students will use the unlimited cut system to get free services, while others will use it to get the services they need."

Bill Baird, however, believes the system will work. "I think it will work," he said. "I think students will understand that the unlimited cut system is a way to save money and that they should use it responsibly."

The Other Computer Company: Honeywell

"The Sterile Cuckoo" by Sue Starke

"The Sterile Cuckoo" marks the directorial debut of "Froots," its featured film is the latest film directed by Alan J. Pakula as well as the first film for the late Austrian actor Freda Froot. It is also the first feature film produced by Honeywell's Visual Learning Center. Boston is also described as "a film of good humor... with the characters' timing" and "the ability to see the difference and the humor in the film... is the difference between the two..."

"Black Community"

The Other Computer Company has recently hired a group of "computers" in a move to compete with the leading edge of technology. "Honeywell," the leader in the industry, is now facing competition from "The Other Computer Company.""The Sterile Cuckoo" is a film that explores the impact of technology on society. It shows how technology can be used to manipulate people and how it can be used for good. The film also highlights the importance of human interaction and the need for people to work together to solve problems.

"The Royal Hunt Of The Sun"

Stephen Bully

"The Royal Hunt of the Sun" is a sequel to "The Sterile Cuckoo," and is directed by Alan J. Pakula. It follows the adventures of the prehistoric people, as they travel through the jungle and confront various challenges. The film is notable for its detailed depiction of the prehistoric world and its use of technology to bring the story to life.

"The Royal Hunt of the Sun" is a film that explores the impact of technology on society. It shows how technology can be used to manipulate people and how it can be used for good. The film also highlights the importance of human interaction and the need for people to work together to solve problems.

Faithful Profile

By Nick Molineaux

Dr. Don J. Acher has been appointed Chairman of the Dept. of Government and Economics. His appointment is widely acclaimed and is believed to have a profound impact on the government department greatly desired by the students. Dr. Acher has been teaching at the university for the past 15 years and his appointment has been met with enthusiasm by the students.

Late American Politics has been characterized by Dr. Acher and the students have enthusiastically welcomed the new department. Dr. Acher has been a popular figure on campus and has been involved in many extracurricular activities.

In his new position, Dr. Acher will be responsible for the administration of the department and the implementation of its policies. His appointment is widely seen as a significant development in the history of the university.

Late American Politics should have been added to the course offerings of the previously mentioned department. This is the importance of the field politically and economically and will be of great value to our students.

The new position is the result of the efforts of Mr. John, Dr. Acher, and Mr. James. They have been working tirelessly to establish a new department.

Consuelo Jurado, an enthusiastic supporter of the new department, expressed her joy at the news.

"We are very happy to have Dr. Acher as our new Chairman. He has been a great help to us in the past and we are certain that he will do an excellent job in his new position."

Guest Editorial:

Peace In Our Time

By Raymond G. Bowers

Many of these attending the recent demonstrations supporting immediate withdrawal from Viet Nam. "Why should we worry about Viet Nam, it's 10,000 miles away?" is the response. This logic has shamed of the Vietnamese's apparent policy of HR. Chamberlain felt that Hitler could be appeased, and was incorrect. Czechoslovakia was given in 1938, but no one on the left or right can accept this.

A large proportion of the students who have attended the demonstrations are those who have not attended any in the past. However, it is difficult to say how many of these will participate in future demonstrations.

Emerson To Honor

Emerson College will present a variety of events to honor the 100th anniversary of its founding. Events will include a performance by the Emerson College Choir, a lecture by former President of Emerson, and a reception in the cafeteria.

Rapping Around

"Beats Together In Abbey Road"

Robert John

The Beatles have been with us for nearly seven years and have been more together than on Abbey Road. Their latest and one of their greatest LPs, Lyrically, they are the epitome of the best of their past work while still progressing and refining their new directions. Abbey Road is incredibly good and a staggering improvisation.

The Dots were rewarded for their hard work and dedication. Although the Beatles did not get a Grammy for Best Album (2014), they have been inducted into the Rock and Roll Hall of Fame. The Dots also received a Grammy for Best Album (2016). They have been inducted into the Rock and Roll Hall of Fame.

guest editorial:
peace in our time
by max and george

many of those attending the vietnam war protest gathering withdrawal from viet nam "why should we worry about viet nam it's over six thousand miles away..." these people saw that the situation in vietnam was not so simple. they argued that the vietnam war could not be stopped by protesting in the united states, that the united states had become involved in a deeper and more devastating way with military aid and economic and social programs. they believed that peace in vietnam could only be achieved by withdrawing all united states forces.

in the spring of 1973, the united states and north viet nam signed the tokyo peace agreement, which provided for an all-viet nam negotiating conference. the agreement stated that viet nam would be independent, democratic, and neutral, that north and south viet nam would be reunited, and that the united states would withdraw from viet nam. the tokyo peace agreement was a significant step towards peace in vietnam.

the united states withdrew its forces from viet nam, and in 1975 the vietnamese war ended with the reunification of north and south viet nam.

experimental theater

the first production of michael kristen's experimental theater, "the first," was a success. kristen's work was praised for its creativity and originality. the production was directed by kristen and was performed by the experimental theater company. the play dealt with the themes of identity, freedom, and the human condition.

"the first" was followed by "the second," and then "the third." each production was a success, and kristen's work was recognized for its artistic merit.

emerson to honor

suffolk, kash and shain

emerson college is proud to present its 20th anniversary celebration, "emerson to honor," a three-day event celebrating the college's history, faculty, and students. the event will feature keynote speeches, art exhibits, and performances, including a special performance by the emerson college music department.

the celebration will take place on september 10, 11, and 12, at emerson college. for more information, please visit the emerson college website.

New Federal Career Program

Career programs for students in a variety of fields are now available. The programs, which are designed to help students prepare for employment in government and industry, offer a wide range of opportunities.

Some of the programs include:

- Federal Career Program in Law
- Federal Career Program in Engineering
- Federal Career Program in Business Administration

For more information, contact the Career Services Office.

Library Notes

A College Is Not A College

In an individual's first twelve years of school, it is
justified to say that they are receiving an
education. However, in high school, the
word "education" takes on a different meaning.

In high school, the focus is on preparing
students for college. The curriculum is
designed to help students succeed in college,
but it may not always prepare them for
success in the real world.

It is important for students to
consider their future after high school and
make decisions that will benefit them in the
long run.

Library

The University Library is
open from 8:30 a.m. to 10:00 p.m.
Monday through Thursday, and
from 8:30 a.m. to 6:00 p.m. on
Friday.

The library offers a variety of
resources, including books,
periodicals, and online databases.

In addition, the library
provides services such as
research assistance and
reference services.

The library is located on the
campus of the university.

A Two Week Exchange

By Patricia S. Donovan

For the second consecutive summer, the Ford
Foundation, together with the National Endowment
for the Humanities, sponsored a two-week workshop in
Nepalese Social and Art. The aim of this summer's
program was to provide an opportunity for
conversations with Nepalese scholars, artists,
and cultural experts.

The workshop was held in Kathmandu, the
capital of Nepal, and was attended by several
American scholars and cultural experts.

The workshop was funded by the Ford
Foundation and the National Endowment for the
Humanities.

Social Note

It would seem that social functions are growing in number at Suffolk.

The Sophomore Class "Night at Sensory's" was a great success and Billy Billings, who Gabby ran to examine, was particularly pleased that his name was chosen to represent Suffolk College.

The first annual event of I.K.I. Brotherhood was successful, as well. Attendance was phenomenal for debate as Larry Biscoe of Campbell.

The second annual event of Alpha Lambda, the new Greek fraternity at Suffolk, was attended by a large number of students.

The next event is the annual meeting of the Suffolk Athletic Association, which was scheduled to be held at the Athletic Field.

The last event of the year is the annual gathering of the Suffolk community, which was held at the Metropolitan, the new entertainment center.

Fellowships

The National Science Foundation offers various fellowships to students in the fields of science and technology. These fellowships are designed to support students who wish to pursue advanced study in these fields.

Fellowship holders will be provided with a stipend of $10,000 per year, which may be used for tuition, fees, and living expenses.

Students interested in applying for these fellowships should contact their college's financial aid office for more information.
Student Poll

A sensational poll from Page 11 about the war in general.

Preliminary results show that 60 per cent of the student body believe that peace in the Middle East can be achieved through negotiation and compromise, while 40 per cent believe that military action is necessary. The poll was conducted by the Student Council and will be published in the next issue of the newspaper.

Independence Study Abroad

The latest news from the International Student Exchange Program. Students from various countries are seeking opportunities to study abroad and improve their language skills. The program offers a unique opportunity for students to experience different cultures and broaden their horizons.

I Want to Learn About

A comprehensive guide to learning about different cultures and languages. The guide includes tips on how to immerse oneself in a new culture, how to communicate effectively, and how to make friends and build relationships.

How Can You Lose

"Think of your desires as possible," says the warrior. "If you don't think it's possible, you won't achieve it. You have to believe in yourself and in your abilities."

Independent Study Abroad

An Independent Study Abroad project is an opportunity for students to engage in an academic or professional pursuit outside the regular classroom setting. These projects can range from research and creative endeavors to practical work experiences. The goal of Independent Study Abroad is to provide students with the flexibility to explore their interests and passions in a more personalized and intensive manner.

The program is designed to foster critical thinking, problem-solving skills, and self-motivation. Students work closely with faculty mentors to develop a unique and self-directed learning experience. This can include internships, fieldwork, self-directed projects, or other experiential learning opportunities.

The benefits of Independent Study Abroad include gaining hands-on experience, developing a deeper understanding of a subject area, and building a network of connections with professionals in the field. This can be particularly valuable for students interested in pursuing careers in fields such as the arts, sciences, or business.

To participate in Independent Study Abroad, students must demonstrate a strong commitment to their academic and professional goals. They must also be willing to take on a significant amount of responsibility for their own learning and development.

Election Results

Sophomore Class

President: Steven Buliga
Vice President: Ken Knight
Secretary: Jane Diggins
Treasurer: Vicki Barnes
Representatives: Jean Alexander, Robert Cornetta

Junior Class

President: Tom Cady
Vice President: Robert Cornetta
Secretary: Tony Diggins
Treasurer: Tom Cady
Representatives: Dee Dee Puglise, Dave Bolger, Gerry Hiskon

Freshman Class

President: William Lee
Vice President: Ron Hubbard
Secretary: Gayle D'Angelo
Treasurer: Anne Ward
Representatives: Dee Dee Puglise, Dave Bolger, Gerry Hiskon

The election results reflect the students' choices for leadership roles in their class. Each candidate ran on a platform that highlighted their goals and priorities for the upcoming academic year. The winners were selected based on a combination of their platform, their ideas for improving the school, and their commitment to serving their classmates.
Nixon's Mandate

In David Halberstam's book, "The Best and the Brightest," Nixon is portrayed as the epitome of the establishment, a man who rose through the ranks of the New Deal administration to become a trusted confidant of President Kennedy and later, as Richard Nixon, would eventually rise to become the 37th President of the United States. Nixon's tenure was marked by a number of controversial policies and decisions, including the Oil War, the Vietnam War, and the Watergate scandal. Nixon's legacy remains a subject of debate, with some arguing that he was a pragmatist who was forced to make difficult decisions in the face of complex international challenges, while others view him as an ideologue who pursued his own political goals at the expense of the country.

Outside S. U.

by Dick Jones

"Nixon's Mandate" is a book by David Halberstam, first published in 1972, and later adapted into a television miniseries. The book is a comprehensive examination of the life and career of Richard Nixon, the 37th President of the United States, and his impact on American politics. It covers Nixon's early life, his rise to power through the Republican Party, and his presidency, including the Watergate scandal. The book is known for its detailed analysis of Nixon's character and his political strategies, as well as its critique of the political culture of the time. It is considered a classic in the genre of political biography and is often cited as an important work in understanding the complexities of American politics in the mid-20th century.
