Psychic Predicts Viet Pullout by 1972

ESP Expert
Russ Burgess Amazes Suffolk Audience

By Steve Shilstone

By 1972, the United States will be out of the Vietnam War and the draft will come to a "definite end" according to ESP expert Russ Burgess.

Burgess made the prediction in a question-and-answer session following a demonstration Feb. 12, of his psychic abilities in the crowded Suffolk auditorium.

The parapsychologist, who has appeared on the Ed Sullivan show, at colleges throughout the country and on radio, also predicted that President Richard Nixon will visit Robert J. Humphrey in the 1972 pulling out of the U.S. from Vietnam, a new psychic phenomenon he described as "subjective telepathy." He also becomes "a Democrat, Ed Muskie" in the White House in 1976 and Los Alamos Kennedy on President

The center room of Venture has always displayed all psychic development areas to help visitors get started. Sponsored by the Suffolk Journal, the library and arts groups feature poetry, prose, photography and art with contributions by students of the psychology department. Dr. Robert K. Johnson and Dr. Charles Reynolds are also represented in the new area which came out on February 11th.

Venture's Robert John explained the psychic change.

We wanted to do something more than just publish a collection of poems and stories, so we decided to show the original and original and certain other, the area named "spontaneous" and not published separately, but we are not sure if the changes have been fully appreciated and not accepted into the system of the way which operates on the everyday level of the student's mind. We have decided that the main thrust of this program is to be the development of the individual's personal psychic ability.

Students who are interested in exploring their "inner" psychic abilities may do so by

Recognition Anyone?

Thelma, February 13, 1966. Senate President Mark D. Borden addressed a Senate audience in the Audiumum. The event was sponsored by the Student Government Association. Senator Mark D. Borden began his lecture with a brief overview of his duties as a state senator. He then discussed the importance of the Senate's role in the state's legislative process. "The Senate," he said, "is the upper house of the state legislature, and we are responsible for making laws that affect the people of Massachusetts."

Congratulations to all of us who made it back for another semester and another crack at coping with the overwhelming amount of work that brings you little time to rest. I am sure that many of you, like me, are looking forward to the conclusion of the semester and the end of the academic year. The Student Government Association has announced that the next Student Government Association meeting will be held on Thursday, April 14, at 7:00 p.m. in the Student Center.

Dorothy McNamara Scholarship

By Jeanne Regan

In October 1960 the Board of Directors of the National Alumni Association of Suffolk voted a scholarship in the name of Dorothy McNamara to be given to a deserving and financially needy student. This scholarship was awarded to and divided between Nature Bae, a senior majoring in Journalism and Alan Boyd, a sophomore majoring in English. The scholarship will be awarded annually during December.

Miss McNamara has been at Suffolk for 42 years. From 1918 to 1940 she was Nurse. She has generally helped 1,000 students in their college careers as well as Valiants who desired to further their education.

The McNamara Scholarship has been awarded to a student who has earned the respect and affection of thousands of students whom she has served with creativity and academic knowledge of men and women in her daily contact, and unselfishly to the best interests of Suffolk, usually at an earlier age.

Professional Theatre Comes To Suffolk

By Lee Nally

Professional theater will finally come to Suffolk U. in the form of two tremendously funny plays: Moliere's School For Wives and Ferenc Molnar's The Chairs.

The charming clef of the 17th century French writer, Moliere, has pleased audiences throughout the country with its tale of an absurdly love-struck man and a relentlessly naive woman. "School For Wives" has been performed by a student company of the College. The play was supposed to have been performed by a student company of the College Relations Department, but unfortunately the play had to be postponed. Moliere has been performing in English, and the play is a product of student and faculty collaboration.

The Chairs, a play by Ferenc Molnar, is one of the most famous plays in history. It is a play about a lazy butler, his wife, and their maid. The play has been performed in many languages and is currently performed in English. The Chairs has been performed by a student company of the College Relations Department, but unfortunately the play had to be postponed. Ferenc Molnar has been performing in English, and the play is a product of student and faculty collaboration.
Editors Conference

Two Suffolk Students to Attend College Editors Conference

The quality of our life is closely tied to the quality of our environment, and the quality of that environment can determine our national affluence, the nation's editorial board.

Editorial Board: The Editors Conference will this year be held at the Massachusetts Institute of Technology

President Donahue, who is attending the conference, said that the theme of the conference, "The Quality of Our Environment," will focus on the relationship between public policy and the environment.

The conference will feature a variety of speakers, including environmentalists, government officials, and business leaders.

The conference will be held from March 27 to 29 at the Massachusetts Institute of Technology.

**Suffolk's Best Kept Secret**

By Peter Panza

From State of Suffolk, you had the pleasure to meet her known but by her obscure name. Thomas Dresser. He is a part of the team of upperclassmen working at Suffolk through the Student Pub. Dresser was also one of the most scheduled speakers to be found at the Student Union.

Dresser, through his recent awards, has been making quite a name for himself. Recently, he has been in the news as a part of the Student Union's focus on upperclassmen involvement. In addition to his work at the Student Union, Dresser is also a member of the Buckley Institute for Moral Social Research.

The Buckley Institute is a research center that focuses on the study of moral questions and their implications for social and political life. Dresser has been a part of the Institute for several years and has contributed to their research on a variety of topics, including the role of moral reasoning in political decision-making.

Dresser's involvement with the Institute has led to significant changes in his personal life. For one, he has become much more involved in the community and has taken on a leadership role in several local organizations. Additionally, Dresser has been able to use his research skills to improve his academic performance, earning high grades in all of his classes.

Despite his busy schedule, Dresser remains dedicated to his work and is always willing to help others. He is always looking for opportunities to learn more and improve his skills, and he is committed to making a positive impact on the world around him.

**How About a Little Fun?**

Do we all remember the Parody issue of the Student Journal which was published in June of 1997? The issue that didn't have a bad time in your head. As a matter of fact, it was a total hit. And the staff of the Student Journal is excited to announce that the Parody issue shall once again be business as usual. The Parody issue is scheduled for publication in the latter part of May. The deadline for the Parody issue will be announced in the March Journal. For the benefit of those people who do not remember or ever even saw the Parody issue last year, we will go over the ground rules for acceptance of parody content and suggest that the Parody content should be something that is funny, clever, and relevant to the current events.

The Parody issue is a great opportunity to have some fun with your writing and to show off your creativity. So get your ideas flowing and submit your best work to the Parody issue.

---

**LIBRARY NEWS**

A symposium titled "The Current State of the Library: Challenges and Opportunities in a Time of Change" will be held at the library on October 1st. The symposium is open to the public and will feature keynote speakers from the library and other institutions.

The symposium will explore the current state of libraries in the digital age and address challenges such as funding, access, and sustainability. The event will also provide opportunities for attendees to engage in discussions and share ideas. The symposium is expected to draw a diverse audience from academia, government, and the private sector.

In Defense of the Black Panthers

by Robert John

In the last issue of the Journal, John Huedman offered two articles concerning the Black Panther Party and reiterated the facts which he believes will prove the Party wrong to the American society. Most of the attention with the American public has been on the "radical" aspects of the Party's activities. It is very difficult to understand how the average American citizen can be so easily swayed by the news media. The facts are that the majority of people are not interested in this type of propaganda.

The Black Panther Party is being accused of being a "radical" organization. In reality, the Party is not a "radical" organization. It is a social justice organization.

The Panther Party operates on a philosophy of non-violence. The majority of people believe that non-violence is the best strategy for changing a society.

The Panther Party is a part of the larger struggle for civil rights. It is a part of the struggle for social justice. It is a part of the struggle for democracy.

Defence of the Black Panthers

The case of the Black Panthers in the U.S. was a significant event that highlighted the struggle for civil rights and the response of law enforcement. The Black Panthers were a militant organization that fought against police brutality and discrimination, particularly in communities of color. Their defense became a symbol of resistance against systemic racism. The trial of the Panthers was closely followed by the public, media, and political figures. The trial took place in the early 1970s and the outcome of the trial was seen as a test case for the right to organize and defend oneself against police violence. The trial had a profound impact on the civil rights movement and the broader struggle for racial equality in the United States.

The case of the Black Panthers led to a reevaluation of law enforcement practices and police brutality. It also sparked discussions about the role of law enforcement in society and the need for accountability and transparency. The Black Panthers and the defense of their leaders became a source of inspiration for many people who continue to fight against systemic racism and police violence today. The defense of the Black Panthers remains an important episode in the history of civil rights and a testament to the power of collective resistance.

RAPPING AROUND

Simon and Garfunkel

In Robert John

Not on the agenda.

Not on the agenda.

Your answer has come for you.

All your queries are on that way.

Not on the agenda.

I'm making right behind.

Like a bridge over troubled water.

And I hear your sound.

Simon & Garfunkel wrote most of the portions during the early 1960s when their songs reflected the first challenges and turned out to be deeply influenced material going through these long years of changing times.

The experience was concluded by 'The Sound of Silence.'

And the people heard and paid for the words they said.

And the song filled out its warning

In the words of the righteous.

And they said

'The world of the righteous are written

On the subway walls and the luncheon halls.'

And who else could say

The song is over ever

And before it's done.

And the words of the righteous are written

On the subway walls and the luncheon halls.'

And who else could say

The song is over ever

And before it's done.

And the words of the righteous are written

On the subway walls and the luncheon halls.'

And who else could say

The song is over ever

And before it's done.

And the words of the righteous are written

On the subway walls and the luncheon halls.'

And who else could say

The song is over ever

And before it's done.

And the words of the righteous are written

On the subway walls and the luncheon halls.'

And who else could say

The song is over ever

And before it's done.
If you don't like the way people talk to each other, we'll pay you to change it.
Suffolk V. A. in Full Swing

The purpose of the Student Activities Association (S.A.A.) is to foster student activity, social, cultural and social welfare of the student body. To this end, all schools are required to establish a Student Activities Association. Suffolk is no exception and is proud of its student activities and the student association that is involved in the governance of the school. The Student Activities Association (S.A.A.) is a student group that promotes student activities and the student association that is involved in the governance of the school.

In Full Swing

The Student Government, in full swing, is going strong! During the winter months, the Student Government has been active with many events and activities. The Student Government has been planning events and activities for the spring months and is looking forward to a busy and exciting spring season.

March Events -

The Student Government has been busy planning events and activities for the spring months. Some of the events and activities include: a spring concert, a spring dance, a spring sports tournament, and a spring reading week. The Student Government will also be hosting a spring charity auction and a spring community service event.

Television

No-one Wants To Be in a Hospital

by Robert John

No-one wants to be in a hospital, but sometimes, despite our best efforts, we have no choice. It is a place where one's health is often at risk, and the environment can be clinical and impersonal.

The staff are trained to provide care, but sometimes their actions can be perceived as disrespectful or unresponsive. The noise level can be high, and the constant activity can be unsettling.

However, hospitals are necessary for the treatment of many serious illnesses and injuries. They provide a place where patients can receive the care they need, and their families can be supported.

Law Conference

The 12th Annual Law Conference was held at the Suffolk County Courthouse, June 14th and 15th. The conference featured speakers from various legal fields, including state and federal judges, attorneys, and professors.

Dr. John Smith, a well-known legal scholar, delivered the keynote address. His presentation focused on the importance of legal education and the role of law schools in shaping the future of the legal profession.

SIX AND ONE-HALF

In Gerry Mangos

For those who take stock in figures, or perhaps are not statistically focused, the female portion of the total student population over the last four years has increased exponentially, and it's half a cent.

What does this mean in practical terms? Consider the fact that the female student population has grown not only in absolute numbers but also as a percentage of the total student body. This increase is significant and has implications for various aspects of university life, from accommodation to academic programs.

VA News

Continued from Page 14

Dr. Jane Smith,행 noted, "The VA system is designed to provide comprehensive care to our nation's veterans." She highlighted initiatives to improve access to care, reduce wait times, and enhance the overall experience for veterans.

It's true that the VA system has seen significant improvements in recent years, but there is still work to be done. The VA continues to strive for excellence in care, and we are committed to ensuring that all veterans receive the care they deserve."
Mary Moreno didn't wear safety belts because they dirtied her dress.
