CULTURAL ENDEAVORs SUCCESSFUL

East Meets West
in Cultural Program

A Special Thanks

India

A Special Thanks

India

The land of India was brought to Raffles University during the week of March 11th, when the Indian Club, under the sponsorship of the Honorary Council, was planning the "Festival of India" which took place in the Audience Hall. The festival was held as a dramatization of the culture and lifestyle of the country. The performances included dance, music, and poetry, which contributed to the overall atmosphere of the festival. The audience was captivated by the rich and diverse cultural heritage of India.

Thanks to everyone who participated in the festival and made it a success. Your hard work and dedication were greatly appreciated.

Firing Range
President John E. Fenton

By JOHN HEMPEL

On Monday, students were present at the shooting range on the campus of Old Dominion University in Norfolk, Virginia.

President Bush was asked about the decision to close the range, which is located near the campus and is used by students and faculty members.

He said, "We have made this decision based on safety concerns and the need to maintain a safe environment for all members of the university community."

The shooting range has been a popular destination for students and faculty members, who use it for both recreation and practice.

The decision to close the range has been met with mixed reactions, with some students expressing concern about the impact on their social activities and others applauding the move as a necessary measure to protect safety.

The shooting range is expected to remain closed until further notice. Any questions about the decision should be directed to the university's Office of Safety and Security.
College Editors Conference- 1970
What's the difference if we don't wake up?

by Elliott Clements &
Robert Johnson

Friday morning, candidates bearing through the pinafore-frocked"of Louisa May Alcott alert us to the Great Hall in Boston, Massachusetts. They realize that the morning man is in front of us, standing patiently while they mend their own process plates, in Boston Ed Manley. He's a lot faster than his photos, a young, energetic, well-set man, and with full diction whether he should say anything to us, we blow the big stuff for an exclusive opportunity to receive smiling rapidly as he3 gives the keynotes to his general direction. He acknowledges us by a slightly nodding, smiling back.

Barbour Speaks Out—Students Tune In!

By Joyce Duggan

The Tuesday afternoon of March 19, 1970, saw a meeting of the student body at the University of California at Berkeley. The purpose of the meeting was to discuss the recent events at the University of California at Berkeley and the reaction of the students to these events.

The meeting was called to order by the student president, who welcomed the students and introduced the several speakers. The speakers were selected from the student body and included representatives from different organizations.

One of the speakers was a member of the Black Panther Party, who discussed the recent events in the United States and the role of the Black Panthers in the struggle for civil rights. Another speaker was a member of the Communist Party, who discussed the role of the Communist Party in the struggle for social justice.

The meeting was held in a large auditorium, and a large number of students attended. The atmosphere was charged with emotion, and the students were very active in expressing their opinions.

Belloti Comes to Suffolk

By John Howen

"I have the commitment and the know-how, and this is the time too, for the change I want Massachusetts. " Then with words from his March 19, 1970, speech to the Commonwealth, Governor Michael Dukakis addressed the student body at the University of Massachusetts. He appeared to speak directly to the students, and the response was enthusiastic and strong.

Dukakis, a Democratic Party candidate for the presidency of the United States, appeared to be very popular among the students. He spoke about the issues of the campaign, and the students were very attentive.

The meeting was held in a large auditorium, and a large number of students attended. The atmosphere was charged with emotion, and the students were very active in expressing their opinions.

Suffolk Center

New Guidelines For Calif. Student Press

Los Angeles (CPS) University of California at Berkeley has announced a policy of student publication of student publications, which was created by the student body.

The policy, which was adopted by the student body, is designed to ensure that the student publications are free from interference by the administration. The policy also provides for the right of the student publications to publish articles that may be critical of the administration.

The policy was adopted by the student body after a long and thorough discussion. The students were very active in expressing their opinions and in voting on the policy.

The policy was adopted by a vote of 11 to 5, with 1 abstention. The vote was a very close one, and the students were very active in expressing their opinions.

(Continued on page 91)
Barbour Speaks Out—Students Tune In!

by Joyce Duggan

On Tuesday, February 14, at 1:15 in room 320 of the Alumni Assembly Hall, student members of the Angels' Club and Student Senate of The League of American Women met at a forum in the auditorium of Washington High School to hear Randall L. Barbour, the principal and author of "The Black Power Revolution," speak on the topic of "Students Tune In!" The forum was attended by several hundred students and faculty, including teachers from the Black Power Revolution. Barbour's speech was well-received and provoked much discussion among the audience.

New Guidelines for Calif. Student Press

LOS ANGELES, CALIF—University of California at Los Angeles (UCLA) announced new guidelines for student newspapers on February 17. The guidelines are designed to protect the freedom of the press and ensure that student publications remain independent. They also address issues such as advertising, fundraising, and the use of university resources.

Belloti Comes to Suffolk

By John Homest

I have been asked to outline the position of the new president, Mr. Belloti, and to announce his arrival on the campus. Mr. Belloti was appointed to the position of President of Suffolk College on February 19, and he will begin his duties on March 1.

Mr. Belloti is a former administrative officer at Harvard University, where he served as Vice President for Planning and Development. He brings to Suffolk a wealth of experience in higher education administration and a commitment to student success.

When Mr. Belloti begins his tenure at Suffolk, he will face a number of challenges, including the need to improve the financial stability of the College and to increase enrollment. He will also be responsible for ensuring that Suffolk remains a leader in innovative teaching and learning.

Mr. Belloti is a member of the Suffolk College Board of Trustees, and he has already begun to engage with the faculty and staff. He looks forward to working closely with the community to ensure that Suffolk continues to be a place where students can achieve their full potential.
Barbour Speaks Out—
Students Tune In!

by Jason Dugan

On Tuesday, March 24 at 11:30, just 12 moments after the All-American Club and Sociology students of The Vanguard in American Society, under the leadership of Miss Jose Popenoe, sponsored Floyd Barbour, author of Black Power Revolution and soon to be published.

Barbour, a white boy, an author, and a leader in Washington, D.C., and was educated at Harvard College. The students, after his speech on the relationship of black consciousness, the concept of education.

New Guidelines For Calif.
Student Press

by Joan Pycel

Last week, February 1st, the Los Angeles Times reported the results of a study conducted by the Los Angeles Times on the attitudes and behaviors of student newspapers in California. The study revealed that student newspapers are generally rather liberal in their political views, with a slight majority of students favoring the Democratic Party. However, there is a growing trend towards conservatism among student newspapers, especially in the more affluent areas.

Belloti Comes to Suffolk

by Joan Hazen

"I have the commitment and the know-how, and this is the time too, for the changes I want to make. These things will be done. On February 19th, Governor Frank J. Bellotti addressed a group of students in Room 10. Mr. Bellotti is an extraordinary governor of the Commonwealth of Massachusetts. He appeared in splendid spirits and seemed to welcome the students.

Bellotti told us that he is running for a Democratic Convention and he has many goals and plans for the state, especially in education and the economy. He said that he would work to create a fair and just system of education, and that he would strive to reduce the state's budget deficit. He also said that he would work to increase the state's economic growth.

Bellotti ended his speech by saying that he would work hard to achieve these goals, and that he would work with the students and the people of Massachusetts to make these changes happen.

The students were enthusiastic and one student asked Mr. Bellotti if he would run for the office of the Governor. Mr. Bellotti said that he was considering it and that he would make a decision soon.

The event was a success and the students were pleased with Mr. Bellotti's speech. They were impressed with his commitment and his dedication to the people of Massachusetts. The students also appreciated his humility and his willingness to listen to their concerns. They are looking forward to seeing Mr. Bellotti in the upcoming election.

Chicago Trial

On February 24, 1970, the following statement was sent to the Senate Judiciary Committee:

we are all one

...
The Chicago Conspiracy Outrage

After 21 long weeks of backstage intrigues and 100-page manifestos, the first phase of the Chicago Conspiracy Trial is over. Seventy-four-year-old I. F. Wallin has finally been convicted on the Chicago conspiracy charges, according to the Associated Press. He will be placed under electronic surveillance, and theourtional life style represented by him in the defense. He was not much of a surprise. A jury foreman in the trial said that the courthouse was located in a building near the judge's house.

The Dr. Brumm Hearing

The faculty Committee on Tenure and Review has refused to remove Dr. Brumm. At a meeting held at the University of Chicago, it was announced that Dr. Brumm, who has been on the faculty since 1947, is being investigated for alleged scientific misconduct. The committee said that it would not make a decision on Dr. Brumm's future until the investigation is completed.

R.L.E. R.I.P.

It finally happened! The prospect of a second student newspaper of Suffolk College is now as certain as the sun rising in the morning. The student newspaper, the Suffolk Student News, has been given a new name, the Suffolk College News. The new name will reflect the university's commitment to providing a quality education to all students.

The Editor

The Editor is a student newspaper editor at Suffolk College. He has been working on the newspaper for three years and has been a part of the school community for even longer. The Editor is a graduate of Suffolk College and has been involved in various aspects of the college community. He is a member of the editorial board of the Suffolk College News and has been involved in various aspects of the college community.

Guest Editorial:
Biology Labs-A Call For Immediate Change

by Rich Deluca

Biology Labs take two hours each, twelve weeks per semester, twenty hours in all, the for the latest. Many students report to Biology Classroom work two and one-half hours per week, for twelve weeks. This lab takes students for fifty-eight and one-half hours each semesters per instruction per semester.

The purpose of the lab is to supplement the classroom work in many cases. I have been to those students failed the laboratory and missed the whole lab, more or less.

The lab is quite time consuming, and it is not an easy task to allow the students to actually learn and experience certain aspects of the course, when you fail both the biology and the lab. The latter makes the whole lab very challenging and time consuming. We must make sure that the lab is taught well, and that the students are knowledgeable about the material they are learning.

The other problem is the amount of time needed at this time of the year. A change is needed, and the students need to be able to take the problem of making up both classes.

The following is what I feel would be a workable system for alleviating this most serious problem:

[Continued on page 3]

"Underground Gold"

by Robert John

Strange things are happening in the rock music business since the advent of so-called "Underground" albums of material by major artists and the biggest
numbers are yet to come. Beat-City, an "underground"
record company, announced recently that one of its
newcomers had been signed to a contract.

The new artist's name was John "Underground"
Gold. The contract was a $50,000 deal with a
recording studio and other facilities.

But Gold did not have the typical "underground"
image. He was not a "hippie" or a "freak." He was
just an ordinary person who happened to be a
musician.

Gold said he was going to record a new album
that would be released next month. The album
would feature a mix of old and new songs,
including some covers of classic rock hits.

Gold also said he was planning a tour of the
United States, starting in April.

"I'm really excited about this," Gold said. "I've
been working on this album for a long time,
and I think it's going to be a big hit."

Brown Lashes out

By Mike Riles

The Wednesday, March 13 article about American Airlines President Fred Brown reporting recent layoffs at Delta and United was misleading, if not inaccurate.

While Brown asserted that the layoffs were necessary due to the impact of the economy on airline profits, he failed to mention that similar steps were being taken by his rival airlines.

"Brown's arguments are weak," said one industry analyst. "The real reason for these layoffs is the high cost of fuel. Airlines are cutting costs wherever possible, and Brown's statements are simply a way to downplay this issue."
A Challenging Career In Business Can Be Yours In Sanders' Financial Management Program

Sanders Associates, Inc., in Nashua, N. H. offers Business and Accounting majors an opportunity to join a growing company in the electronics field.

In the 70's Sanders plans to expand significantly into the commercial market of data display, data communications and management systems.

The Financial Management Program at Sanders offers an outstanding opportunity to begin an industrial career in finance.

As a participant, you will find that this program offers:

• Broad training experience
• Challenging assignments
• Excellent salary and benefits
• Graduate school expenses paid
• Business career with a progressive company searching for new ideas.

Who's In Charge?

by Robert John

Sometimes I really wonder what's going on. U. S. District Attorney Thomas A. Ferris, the chief prosecutor at the Chicago Conspiracy Trial and a very prominent Illinois lawyer, revealed his personal intellectual allegiance when commenting on the state of the nation in a speech before the Loyola Academy Booster Club in Winnetka, Illinois on February 20.

We've lost our ties to the breaking wave and we've got to reach out to them. Our kids don't understand that we don't mean anything by it when we call people "wingers." They look at us like we're from another planet. Roosevelt once said of the New Deal that no one had a clue as to what any of them (the Chicago?) and he was the only one I don't think was a fog.

**********

Secretary of Defense Melvin Laird, apparently acting on some alcohol-induced divine inspiration, recently decided that it was constitutional for the military character-guidance program to continue its influence on God's frontier concerning good and bad ideas.

Here is Melvin Laird, son of a frontier frontier man, and he is the only one who has the right to decide who's to kill and when. Unfortunately, he does not have a delegate that right to the state for the common good, and to the individual to appeal an unjust action. But it is obvious that he does not give that right to the nation.

**********

Attorneys General John N. Mitchell, that, considering who's on the inside, the proposed legislation to Congress which would allow public to become gunners to subject their lives even if there are only reasonable protests against probable cause to arrest,

I hope the President could order this respect to our people and to the military community. They have a responsibility to the people, to the military community, and to the nation. They have a responsibility to the people, to the military community, and to the nation.

**********

Our attitude by John A. Offer, is that we don't understand what we do with alcohol. They look at us like dinosaurs when we talk like that. Bobby Seale had more sense than any of them (the Chicago) and he was the only one who couldn't think of it.

**********

• S. U. Photo Club

On Tuesday, February 15, 1972, photographically oriented students assembled. Their attention was to organize what has now been officially recognized by the KGA in the PHOTO CLUB of Suffolk University can now claim to have student on staff who are working in photography and photographic techniques, put on exhibits and to benefit all clubs in the school as well as in the school itself.

S. U. Photo Club sponsors an area for photographic techniques, instruction in darkroom techniques, taking and camera techniques, film development, enlarged and print making, as well as in print Monte, grammar, subject, editing, and art. I'm attired to the photographic and faculty.

Under the direction of Adm. Theodore Marshall, Physics Department Chairman, THE PHOTO CLUB will sponsor photography in the visual reproduction field to the members and interested people.

The selection of officers produced three new President-Past President, William W. Wills, is the position of Secretary-Treasurer. It is hoped that the first degree will be chosen in conjunction with "Suffolk Day." The privilege, themes will be eligible "Photography." Three holding their place in the training of Photography knowledge will be welcomed at any meeting of THE PHOTO CLUB on Tuesdays at 5:00pm to 6:00 or as designated by special notice.
S.U. Photo Club

On Tuesday, February 28, 1978, photographers and photography enthusiasts assembled in the S.U. Photo Club to discuss the upcoming annual photography show. The club will be seeing the exhibits in March, andrews will be using the exhibit to promote the S.U. Photo Club.

The club officers, including Dr. Theodore Marshall, President, and Dr. Marshall, President, will be discussing the club's future plans. The club will be holding a special meeting on March 1.

Murder In The Cathedral Openings

The Cathedral of St. John the Divine will be holding a special opening on March 1.

STOP

St. John's University should be proud because it is one of the first schools to have a photography program. The program is located in the art building, and includes courses in photography, darkroom technique, and photo editing. The program is taught by Dr. Marshall, President, and Dr. Marshall, President.

Zabriskie Point, Tropic of Cancer & They Shoot Horses

Three minor motion pictures have been released recently, each representing a different storytelling mode. Zabriskie Point, Tropic of Cancer, and They Shoot Horses. (They) have been shown in the Columbia University Film Festival, and many independent filmmakers have attended.

Suffolk Journal

They were, in each case, beautiful, complex, and hard to forget. Why hampers faith, but on The Little Foxes, and Birdman, are both excellent films. Of Birdman, is a story of a man who has been put on the spot, and he must find a way to keep his job.

The Invisible Man

It is not easy to make a good science fiction film, but The Invisible Man, directed by Robert Wise, was one of the best. The film tells the story of a scientist who makes an experimental error and becomes invisible. He uses his invisibility to become a master criminal, and the police are unable to catch him.

March 19, 1978

The Invisible Man, directed by Robert Wise, was one of the best science fiction films of the year. The film tells the story of a scientist who makes an experimental error and becomes invisible. He uses his invisibility to become a master criminal, and the police are unable to catch him. The Invisible Man is a thrilling, suspenseful thriller that keeps you on the edge of your seat.

WARM CONGRATULATIONS TO THE SUU DRAMA CLUB AND DIRECTOR BRUCE BARBIERI ON AN EXCELLENT PRODUCTION
Film Reflections: The Damned and Tell Them Willie Boy Is Here

When watching the Damned and Tell Them Willie Boy Is Here, I was reminded of one traditional method of waiting for the rain: counting the number of drops which fell from the sky. This technique is employed to earn time, but the clock is not stopped; the raindrops keep falling, the time passes. Thus, in the same way, the Damned develop their plot while the wind and the rain fall over the landscape.

Tell Them Willie Boy Is Here is a classic example of how film direction can influence a story. While the Damned is a rather bleak and somber film, Tell Them Willie Boy Is Here, directed by John Ford, is a much more uplifting and inspiring piece. This is evident in the way the film unfolds, with Ford employing a gentle and soothing style that contrasts sharply with the harshness of the setting.

In both films, the characters are beautifully developed, and the relationships between them are complex and intriguing. However, Tell Them Willie Boy Is Here is a much more optimistic film, with the characters facing challenges and overcoming them in a way that is both realistic and inspiring.

John Lennon and The Toronto Peace Festival

By Robert John

John Lennon and his wife Yoko made unusual arrangements to be in Canada during December and trảe the plans for what will be the largest gathering of people for peace in the history of the world. The "Peace Bug Festival" will happen July 4th, 4th and 5th at Queen's Park, near Toronto. Inside Complete camping areas and sanitation facilities will be thrilled at the centre of the next six months as preparations for the deluge of more than half a million people who are expected to attend.

The theme of the Band, the Who, the Planks and the Ram! Elvis Presley, Sex Pistols, Joan Jett and many, many more - will be featured very prominently, but this would be their first gala in Canada. Arrangements for what would seem to be four years of which much will be asked to work in a half with their name and address. This will be registered on a world wide basis through the moral victory.

If we can get a vote of people around the world with millions of people that this is the way it should be. If we can get people to do this then we can do something and get what we want. And if we all can we don't know what to do. Let's all do it and then let them that have anything they have to fasten. If we have to drive

"War is over if you want it"

Delegate from page 10. Don't hang your hat up because society is getting bigger and bigger. Don't hang your hat up because society is getting bigger and bigger.

On Rights And Freedoms of Students

Joint Statement
On Rights And Freedoms of Students

"And isn't that the American Way folks?"
Student Rights

The student body, the faculty, and the administration of this institution are all dedicated to the principle of academic freedom. This principle is not only an expression of the respect for the individual but it is essential to the maintenance of a free, democratic society. The rights of students include the right to be free from interference with their academic pursuits, the right to receive a fair and impartial hearing in dealing with disciplinary matters, and the right to participate in the governance of the institution.

4000-11000 Standards of Discipline Procedure

In establishing student discipline, no definite procedure can be established, as the nature of the act and the circumstances in which it occurred will vary. The ultimate decision is left to the discretion of the president of the institution.

The president of the university shall be responsible for hearing all cases of disciplinary action taken against students. The university shall have the right to appeal to the board of trustees in any case of discipline.

The hearing shall be public, except in cases of confidentiality or when the safety of the individual or others is threatened.

The student shall have the right to be heard by a board of trustees in any case of discipline.

The hearing shall be public, except in cases of confidentiality or when the safety of the individual or others is threatened.

The student shall have the right to appeal to the board of trustees in any case of discipline.

In the absence of a hearing, the student shall be subject to an indefinite suspension.

The student has the right to appeal the decision of the hearing board.

**RESOLUTION**

Adopted at a Regular Meeting of the Board of Trustees of Suffolk University on February 11, 1970

WHEREAS, In obedience to the call of his Maker, the soul of The Honorable John B. Byrne, one of the most distinguished alumni of Suffolk University Law School, left its earthly home on January 6, 1970, to take up residence in the eternal dwelling place prepared for him and all God’s faithful people.

WHEREAS, He so brilliantly demonstrated his legal ability as a student at Suffolk University Law School and as an Attorney at Law.

WHEREAS, By his force of character, knowledge of the law and conscientious discharge of duty, united with his high embodiments of intellect and fine judgment, he served Suffolk University faithfully.

WHEREAS, He had a unique gift for giving guidance and impartial advice, and he was a constant friend and resource for all his former classmates and their families.

WHEREAS, He so ably displayed his moral integrity and zeal in the indefatigable promotion of the common weal in every position he held during his lifetime, dedicating himself with conscientious generosity to the benefit and use of man.

WHEREAS, He gave himself in the City of Boston a new viewpoint by creating confidence in municipal government by the reorganization of departments of the City of Boston.

WHEREAS, He initiated a dynamic, massive urban renewal program by promoting the development of the Prudential Center and Government Center and upgrading the highest areas of the City.

WHEREAS, He was so outstanding in support of every good cause and his base set to the accomplishment of worthy, elevating work, and the personal sacrifice, so that through his exceptional administrative and executive ability, Boston received in position of leadership in this nation.

WHEREAS, He displayed extraordinary, genuine sense, high character, absolute integrity, sound honesty, exemplary virtue, sound qualities, and decided ability in every position he held, won so completely the admiration, love and appreciation of all with whom he had to do.

NOW, THEREFORE, IT IS RESOLVED That the Board of Trustees express in this way their tribute of gratitude and affection and THAT this Resolution be incorporated in the records of the Board of Trustees of Suffolk University and a copy of the same be presented to his bereaved family.

SIGNED for the Board of Trustees,
John E. Fenton

John C. Smith
Chairman of the Corporation

John Giffin
Chair of the Corporation

March 1970

The Sigma chapter of the national fraternity at Suffolk was recently installed as a national chapter. The installing officer was an officer of another national chapter. It was followed by a luncheon and an initiation celebration among the members. The chapter is officially known as a women's college fraternity whose purpose is to further the philosophy of education, scholarly abilities, and the ideals of scholarship. The chapter letters they received are Gamma Beta.

When you work through the political rhetoric, however, one thing becomes abundantly clear: either you are siding with the "old pro" politicians, or you are siding with the "new" politicians. But you can't do both. In the end, it all boils down to a choice of sides.

In November, 1968 Dick gave an address in the city of Istanbul and successfully performed a "striking" trick. It is true that he is not the only person who knows how to do such tricks, but Dick is certainly the most experienced and the most skillful.

Dick says that he never does tricks as part of a performance, but rather as a preparation for a show. He never does a trick as part of a performance, but rather as a preparation for a show. He never does a trick as part of a performance, but rather as a preparation for a show.

A photo of Dick taken during his performance in Istanbul was also included in the article. The photo shows Dick performing a trick with a deck of cards.

Dick has a unique ability to communicate with the audience, and his tricks are well-received by the public. He has performed in various countries and has gained a lot of popularity.

Dick's performance in Istanbul was a great success, and he was invited to perform in other cities as well. He is currently planning to perform in the United States and Europe in the near future.

Four months have passed since I last sat at this typewriter to do Outside S.U. My stay at the Soldiers Home is over, but the memory of the many wonderful people I met there remains with me. I have planted the seeds of friendship and hope during my time there, and I believe they will continue to grow. But I hope I can remain in touch with kindness in return. I thank the many wonderful people at the Soldiers Home, in particular, my gratitude goes to physical therapists Nancy Hulst and Martin Furt, my串联 to Ann Remey and her Howell names, and to Dr. John Reiner, who supervised the hospital.

The weight box is pounds. In the number of days that have passed since I last wrote you. And I hope you be even smaller for the Gulf War since the warnings of Sunday, June 1st at the Mill 126 in Dedham.

"The evil that is in the world always comes of ignorance, and good intentions may do as much harm as malice, if they lack understanding. On the whole, men are more good than bad, but that does not mean that they are more or less ignorant, and it is this that we shall call me or enter." - Albert Camus

---

**Reaction**

by Gerty Wanghi

The shock to Nightmare Town, Ga., made no mark about March 7's solar eclipse. They slept through it. Some of the other animals in the 55,000-acre swamp, however, didn't take things quite as calmly.

The First Bank Science Center and high schools from nearby Waycross, Ga., reported that many wild animals became confused. Raccoons began to pass up and down in the light directed under orange skins, then finally settled down for a lonesome nap.

But even that didn't shock the researchers or the scientists much, since it is known that many species will pass up on normal sleep and spend the day in the sun.

The researchers didn't mind the 55,000 acres of swamp, however, for it was the perfect place to study the behavior of the animals. The researchers were able to observe the animals closely and record their reactions to the eclipse.

In the end, the researchers were able to conclude that the eclipse had little effect on the animals. They were back to their normal selves by the next day.

The What & Why of Women's Liberation

by Sherrill Nelbo

Suddenly everyone has heard of women's liberation. But many people have a subconscious negative fantasy about it. That the women's liberation movement is actually called the Women's Liberation Movement is a thinly veiled group of Liberal doves who are限量 people in order to build up or not actually destroy the system. This fantasy is premature. It will offer a picture perhaps more acceptable to the conservative.

Women's liberation is a social movement which has been growing rapidly. It has spread among women between 15 and 50 different countries and is spreading rapidly. There are many activities in which women participate. Among them are civil rights, politics, education, and religious groups. Women's liberation is popular in group discussions, where women talk about their lives, problems, and feelings. It is to be understood and have a new way to think about their lives. It is an organization that is not a political party or a social club. It is a movement for social change.

Women's liberation is not a movement for liberation. But there is a tremendous feeling of anger among women in all societies about the way they are treated and the way they are viewed. The experience of the difference between men and women is very different. The experience is the fact that no difference between men and women in society is the same. This means that what many women want to change is their status in society and the way they are viewed.

What is the purpose of the Women's Liberation Movement? Sherrill Nelbo, the author of the article, does not explain the purpose of the movement. The purpose of the movement is to change the status of women in society and the way they are viewed.

The movement is supposed to be more, a women's liberation movement, is an organization that is not a political party or a social club. It is a movement for social change.

The movement is supposed to be more, a women's liberation movement, is an organization that is not a political party or a social club. It is a movement for social change.

When Education Isn't

By Paul W. Larsen

Massive structures of higher education, into the mainstreams of American life, toastic interests of the growing generation. Like most world-wide trends the long range effects cannot be accurately foreseen. While it produces immediate understanding and awareness more material and technical developments, all these things directly related to the present are also evidence of certain basic values that get caught up in them.

This is partly, well known institution in the Boston area, a private school of being such a training ground for the future. It is, in a sense, the same school we went to, the students and the teachers. We, as the other, could not have been there if we had not had the same opportunities. And, of course, we were all given that same opportunity. Why was that?

The second and more important fact that was the same was the quality of the teachers and the quantity of the students. The quality of the teachers and the quantity of the students were both grown up. The school was then, as the other, a training ground for the future. It is, in a sense, the same school we went to, the students and the teachers. We, as the other, could not have been there if we had not had the same opportunities. And, of course, we were all given that same opportunity. Why was that?

We know that a black man named Bobby Seale is represented in California. We think we know why.

We know that a black man named James Foreman is demanding $300,000,000 from the religious institutions of America. We think we know why.

Suffolk Tennis in Growing Stages

By Colin Marley

Practises are continuing at Randolph's Suburban Indoor Tennis Center, and the boys are getting better all the time.

Monday's match set a new practice record. The two boys who were the last to make the cut and the two who were the worst were the last to leave.

Under the guidance of Paul T. Crowell, a new coach and Paul Farnsworth, the tennis director, the boys are giving their best effort to improve their skills.

Tennis is constantly changing in importance as a competitive sport. This week, March 6-10, and 11 world indoor men's championship will be held at the University of London, where American and Australian teams are competing. Some of the best players in the world figure are battling for the title. The matches may be intercollegiate and will prove interesting to tennis enthusiasts as well as to the general audience.

In order to play a good competitive game of tennis, it is essential that a person be efficient at the sport and be in proper physical condition. The sport demands high skill, endurance, and a tremendous amount of stamina, plus mental resistance and physical endurance. This comes with training, but constant practice. The individual must perfect his technique with his skill mental, and physical capacity. We believe we can do a good job in these. If we train them and get them right, it is not too late to pull in, come out and play with us - see you at Randolph's.

Suffolk Hockey Club Enjoying a Winning Season

By Bob Dyer

Where people are doing something, usually with sticks, it must be hockey. The Suffolk University Hockey Club has been successful in their efforts to build a winning team. The boys are working hard to achieve this goal.

The club has a good deal of credit going into their work. They have been a losing team statistically, but a winning one emotionally. The players are working hard to improve their skills and are dedicated to the team.

The club has a good deal of credit going into their work. They have been a losing team statistically, but a winning one emotionally. The players are working hard to improve their skills and are dedicated to the team.

Crowley, Dalton to Lead S.U.

James B. Crowley of Everett and Allen Dalton of Danvers have been elected captains of the 1970-71 Suffolk University hockey team. Head coach Charles Crowell has announced.

It marks the first time that Suffolk has ever chosen co-captains for its hockey team.

Crowley, a 6-foot 2-inch center and former Everett High School hockey captain, averaged 11.0 goals and 5.5 giveaways per game last season. A former two-year varsity player, he is the younger brother of Suffolk's all-time scoring leader, Frank Crowley.

Dalton, a 6-foot 1-inch center, had a sensational season. He led the Rams in scoring with 34.7 goals and a 27.6 per game average. He also was Suffolk's leading scorer last season. One of the team's most exciting players, Dalton was also named Most Valuable Player in the Lowell Christmas Tournament this winter.

The co-captains succeed Walter "Buddy" King of Danvers, who also captained the Suffolk baseball team. The 1969-70 Suffolk hockey team finished with a record of 10-13, 12-13.

S.U. Hockey Club Downs Quincy Junior College

by Gerald Farnsworth

On Monday, March 2, the Suffolk University Hockey Club defeated the team from Quincy Junior College. The S.U. "Rams", under a fast skating and aggressive strategy to upset the strong Quincy team, 6-5. The Quincy Junior team (who had scored 27 goals in the last three games) had an all-star point's streak to be proud of.

The S.U. team was led by G. Farnsworth, captain of the Suffolk junior team, who scored 19 points on the Suffolk net but the winning goal was scored by Dan Dade, who scored 20 points, and a goal of the S.U. seniors, John Cadwell and Tom Barry.

The game was 3-4 when the Quincy Junior net yielded the backhander to Jeff Sanders (No. 9). Two of his goals were assisted. Two of the goals for Suffolk were scored by Dan Heere, whose aggressive and driving work earned him the award. Dan O'Brien for his excellent work in the center. Both forwards were also to the end of the shift for their brilliant play.

Hockey At S.U.
shape up. During each practice season the numbers pay a number of games against each other so we can determine who are our best individual players and in what positions they will be placed on the team. So far, we have twelve active members, all of good size.

Tennis is constantly gaining in importance as a competitive amateur and profession sport. This week March 10 and 11, world indoor men's championships are being held at Harvard university, where American and Australian tennis world figures are battling for the title. The matches may be attended and will prove interesting to tennis enthusiasts as well as fans of the game.

In order to play a good competitive game of tennis, it is essential to have a good forehand at the open and to hit good physical condition. The sport demands such skill and physical stamina amount of endurance plus the ability to excel in both hands and physical endurance. One must have knowledge of sound tactics. One individual must outmatch his opponent with his skill mental and physical condition. We believe our men are the good team for us. We know they can and they have the ability to excel in our team and play with us. We are coaches.

A good deal of credit must go to Mary Fitzgerald for her aggressive and accurate work in clearing the puck from the corners, and Ken O'Brien for his excellent work in passing the puck. Credit must also be given to the rest of the club for their brilliant play.
