The Crown May Fall

by John Ghris

The Student Government Association, recently disturbed by an editorial stand taken by the Suffolk Journal, voted unanimously to send a letter of protest to the paper.

The controversy arose in the last issue of the Journal when an editorial criticized the SGA's decision to hold the 1973 Christmas party at Florian Hall in Dorchester. The editorial pointed out several disturbances which occurred at the function hall.

Two members of the Christmas Party Committee thought the view expressed in the editorial was unjust. Lee Carogetti and Denise Hébert told the Journal that it was not an accurate picture of Florian Hall. Carogetti said, "When there are outbreaks over there, they are very small. We looked into about 50 clubs in the Boston area and we picked Florian Hall." Ms. Hébert also told the Journal, "No matter where you go around here, there is always a possibility of trouble. You just can't get away from it." At an emergency meeting of the SGA held October 15, it was voted to hold the party at Florian Hall. Despite the publicity, Ms. Hébert expects a crowd of about 300.

Maine Laboratory Dedicated to Dr. Robert S. Friedman

by Mark Rogers

Suffolk University's Cobscook Bay Laboratory (CBL) was dedicated to the late Doctor Robert S. Friedman, former chairman of the school's biology department, on Sunday, October 7, at the laboratory in Edmunds Mill.

Over three hundred people attended the ceremonies. Local residents as well as many Suffolk students and representatives of the ten colleges and universities which are members of the consortium were present for the dedication.

President Thomas Fulham made the dedication address in which he stated that Doctor Friedman was the "founder and moving force in the university's interest in marine biology." Fulham also spoke of the many weeks Friedman spent looking for the perfect spot to fulfill his plans and informed the guests that after finding the ideal location, Doctor Friedman bought an eighteen acre piece of the land and gave it to the university. This, it was explained, was done anonymously. Fulham went on to say, "It is our sacred duty to use it, to maintain it, to cherish it, and to employ it in our memory... There must be a delicate balance between use and studied neglect."

A copy of the resolution from the Board of Trustees making the site the Robert S. Friedman Cobscook Bay Laboratory of Suffolk University was read and presented to Mrs. Friedman.

The Board of Trustees conferred an honorary degree of Doctor of Humane Letters on Doctor William Morrill, of the National Science Foundation. Morrill was instrumental in the founding of summer institutes in the field of marine sciences and also the purchasing of CBL by Suffolk through a federal grant in 1968. In introducing Mr. Morrill, Fulham stated that he was known as "Mister Summer Institute" and congratulated him on his "immeasurably productive years with NSF." Doctor Morrill then gave a brief history of the summer institute program and how Suffolk became involved and received a grant to purchase land at Cobscook Bay. While explaining this process he mentioned the name of Doctor Arthur West, Dr. West is a professor of biology and was instrumental in starting a marine biology program at Suffolk, as well as on a national scale. He was one of the 3 men who were involved in the decision to purchase the site. He is known as "Mister Summer Institute." Doctor Westy then gave a brief history of the summer institute program and how Suffolk became involved and received a grant to purchase land at Cobscook Bay. While explaining this process he mentioned the name of Doctor Arthur West, Dr. West is a professor of biology and was instrumental in starting a marine biology program at Suffolk, as well as on a national scale. It was explained that the NSF was impressed with West to such a degree that they requested the university to grant him a leave of absence allowing him to go to Washington and pursue a program to promote the marine sciences nationally. Doctor West is also a member of the Executive Director of the New Hampshire College and University Council, presented a citation to "Westy," stating that "In 1968 under his leadership and through his dedicated efforts since, New Hampshire Institutions sought through a cooperative effort to interest students to the marine sciences."

Before the dedication ceremonies began, Dr. Gerald Chase, Trustee of New England College presented an American flag to President Fulham. This flag explained Chase, "carries with it environment of this kind of facility and the contribution it can make to education as well."

Dr. Arthur Buswell, President of the University of Maine at Machias, read a proclamation from the Governor of Maine, Kenneth Curtis, proclaiming the week of October 7-14 "Marine Science Education Week." This has been done in light of the dedication of the laboratory and the cooperation of different institutions of learning that it represents.

The last speaker was Ernie Sordillo, a biology department instructor, representing the biology alumni. Sordillo made a recommendation to the board of trustees to do at what should be done to perpetuate the memory of Dr. Friedman. Stating that no statue could capture the

character of Friedman, the use and development of political intelligence, political power, and involvement of political agencies, illegal use of tax money, and others, through to the breakup of the original over-run.

The suit will request a new election, one centered because these activities should invalidate the 1972 election. The organizers plan the action to be a "people's lawsuit," in that the committee will try and get as many individuals as possible to act as plaintiffs. These plaintiffs will fall into a number of categories in the suit, so as to make the decision as strong as possible. The plaintiffs categories will include persons eligible to vote in the 1972 election, persons eligible to vote who were not registered or qualified to vote but did not, persons who voted except Nixon and Agnew, persons who voted for Nixon and Agnew. Other categories would include organizations, Presidential Election members of the House and Senate. The lawsuit is only the beginning, according to Bennion. On the basis that the 1972 election was fraudulent and illegal, Richard Nixon ceased being President on January 20, 1973, and therefore all subsequent actions taken by him and his administration are also fraudulent and should be null and void. It is the aspect of the situation that Bennion feels will stimulate groups and people across the nation to organize actions to overturn the election. The suit is something around which millions can organize, Bennion maintains. "They don't think they could build a respectable nationwide press conference today," Bennion said. The committee is thinking in terms of a big press conference to make a public pick for plaintiffs "in about two months." Right now the committee is "still in the process of stimulating activity" among local movement groups, labor immigrants and student groups, and third world organizations. Once some "solid support" is generated among these groups, the committee will be ready to move for further publicity.

Bennion stressed the role of the NLC in the organizing as being the organizing force behind the committee, no matter what the results of any court action. He felt that the committee has stimulated "other groups that have nothing to do with the NLC" and that a "new wave of people" is moving on further publicity. Bennion said that he was not the main focus - the fraud is.

Journalism's Hottest Act

The girls of Gamma Sigma are still on the move to reach an all time high in their ranks; ready to rake in the fraternity. Ken, an active frat brother, is expected to do a fine job.

T.K.E. also has eight energetic pledged ready to join its long list of alumni. Several pledges have recently joined the group to make up this year's group. One fraternity, Sigma Nu, has just won the trophy for their scavenger hunt.

JULY 98

How Much Are You Worth?

by Rich Cutinelli and Steve Zaya

This semester's pledge class, in the Sigma Rho house, has been dedicated to Dick Rowe, one of many loyal alumni members.

The new chapter was admitted as an honorary member by a unanimous vote of the Pledge Class. The President of the class is the vice president and treasurer of Suffolk, will be installed at a later date.

The BIG SCREW CONTEST will be held next year, all proceeds will be donated to charity.

Alpha Phi Omega is distributing anti-inflation memberships to the students of Suffolk. For $10 each member receives a year's membership which includes discounts on items up to 50% off dealer's prices.

Automobiles can be purchased for $125 over what the dealer originally paid for them. In the market for clothing, drapes, or whatever, can purchase a membership in APO for $25. This is only a check inserted.

Delta Sigma Pi recently held their "Shorefront Hot Pants Nite" at the Boston Club. The event was a success due to the efforts of Fong Rand Chang. The guests would also like to thank the Sigma Rho house, which, aided the advertisement published in their October eighth edition.

Suffolk is in its third week and the pledges are working harder to satisfy the demands.

The brothers of Delta Sigma Pi are planning various professional and social upcoming weeks. Among the activities planned are: networking for local corporations and many other personnel from different businesses.

The athletes of Delta Sigma Pi have enforced their football record the past week and are setting T.K.E. by a score of 25-13.

When I saw T.K.E.

Washington Post reporters Carl Bernstein and Bob Woodward, their work.

Washington Post reporting" methods for over a burglary, the two reporters were appreciative.

"It couldn't have been done without the work of the government was not at all plushest closets — the White skeletons in one of the nation's tremendous. The reporters were there in an attempt to attain their golden figure.

The sisters also have ten pledges who are working their way up the ladder to become "sisters." All sisters of Gamma Sigma Pi.

The sisters of Phi Sigma are having a CHILLY CHAMP GUESS in the cafe on Oct 29 and 30. The winner will be announced on the first day of Suffolk University Halloween Party. Prizes will be awarded.

Watch for the Campbell Soup Label campaign for audio-visual prizes to be announced.

The Campbell Soup Company has been chosen to be the Chairman for the 1975 Sigma Chi.

Bernstein and Woodward attacked the notion we are "wallowing" in Watergate overkill. He recalled an endless list of demeaning details that all helped spicx the scandal — men corrupting power, not just the unfortunate administrators of CGS.

The representative is Gary A. Knowles, assistant dean. He will be at Boston College in Chestnut Hill. He will discuss CGS graduate programs with students and faculty from various liberal arts colleges at Suffolk University Wednesday, Oct 24.

The representative in Gary A. Knowles' golf tournament was attended by Steve Mastrangelo, who finished second, and Paul Picardi. In a hard fought battle Steve Zaya, with the able guidance of caddie Bro Murphy, ran away with it. The Mac Scott Davidson Scholarship.

The next Women's Program will feature a Federal Career Day in the lobby of the Donahue Building from 10:00 a.m. to 6 p.m.

The next Women's Program will take place on October 9, 1973. Suffolk University will host a Federal Career Day in the lobby of the Donahue Building from 10:00 a.m. to 6 p.m.

Graduate School

An official of Claremont Graduate School will discuss CGS graduate programs with students and university representatives. The Claremont Graduate School Exploration Day, in which Suffolk University will participate, literature describing CGS is at the Suffolk University placement office now.

Claremont Graduate School offers study in the humanities, behavioral sciences, social sciences, fine arts, and education. Programs range from master's degrees and doctorates, in its 48 years of operations CGS has graduated teachers, administrators for colleges, universities, and other schools.

CGS is unusual in that it is a one-year, standing graduate institution that is not dependent on university. It is associated with approximately 120 colleges and universities. The Graduate School offers the degrees of Master's, doctorate, and some degrees leading to the Ph.D. The Graduate School has a faculty of approximately 100.

Pacifism

by Fredo Jacques Pietre

If there is a war I'm going to stay away. And, when in the morning my alarm clock rings, I'll get up very early to see the colors of the morning and the beautiful flowers.

And when I see the ducks swimming in the lake, I'll feel very sad because there are none left. And if there is not a war I'll get up very early to see the colors of the morning and the beautiful flowers.

I'll fill my nose with the flowers of the early morning and I'll fill my eyes with the beauty of the morning.

If I am not a war I'll get up very early to see the colors of the morning and the beautiful flowers.
SPIRO

The recent resignation of Vice-President Spiro T. Agnew is both revealing and rewarding to a large group of people in this country. The fact that he plead "guilty" to the criminal charge of tax evasion further enables the citizens of this country to see hypocrisy at the very highest levels of our government.

Remember, if you will, the countless speeches in which Mr. Agnew attacked the lawless student protesters and remarked that they should be punished severely for their criminal activities. Recall the speeches denouncing the people on welfare who were labeled as "nolos" legally considered equal to a plea of guilty. That makes Spiro one of the people he used to make hate-filled speeches about.

All of the lawless war protesters and welfare chislers can take comfort in the fact that the man who stood before the nation and attacked them has fallen, a victim of the very evils he crusaded against.

WALDEN 6 MINUS 1

Dear Editor:

I have just finished reading an editorial in a recent edition of the Journal which vigorously attacks the choice of Florian Hall as a dinner site. In this attack you have made allegations concerning the hall which could almost be considered libelous.

As an alumna of Suffolk, I was appalled by this article. I have attended many meetings and social events at Florian over the past years and have never seen the fightfrightening or rowdiness to which you claim are the routine course of events. When I was an undergraduate at Suffolk, I was encouraged to seek out the truth. Either that concept no longer being taught, or your paper has chosen to ignore it. I would suggest that you check with your professor in the School of Journalism to determine the proper climate for responsible editorial writing.

Sincerely,

John P. Reilly

Dear Mr. Reilly,

I wish to state my disagreement with your article concerning SGA's choice of the School Christmas party. Having visited the area in question, I find nothing to indicate it as unsuitable for the party. Those of my constituents who live in this area have questioned me with this agreement and I feel that the article's referral to the area as dangerous is greatly exaggerated.

The SGA should be credited with enough sense to choose a good location.

Sincerely,

David W. Wilson

Dear Editor,

I was reading about your ordinals at Florian Hall. I was totally amazed at the fact that the SGA was trying to question the choice of the hall.

I have worked there for seven years and only twice in that time I have witnessed any major incidents of violence.

The location selected by SGA is the area as dangerous as any other site that could be chosen. I have witnessed certain incidents that I witnessed and other incidents that have been related to me.

Your statement that "irrational attacks of the SGA is also incorrect. I was attempting to make known certain conditions that I witnessed and other incidents that have been related to me. The sole reason for the editorial was my concern for the social well-being of Suffolk students and that the Christmas party be a success.

I wish to assure you that the truth is still being sought at Suffolk University. To the best of my knowledge I revealed the situation at Florian Hall as I know it. Your opinion is welcomed in the hopes that the truth will be best served in exposing both sides of the issue.

The Editor

Sir,

I wish to state my disagreement with your article concerning SGA's choice of the School Christmas party. Having visited the area in question, I find nothing to indicate it as unsuitable for the party. Those of my constituents who live in this area have questioned me with this agreement and I feel that the article's referral to the area as dangerous is greatly exaggerated.

The SGA should be credited with enough sense to choose a good location.

Sincerely,

David W. Wilson

Dear Editor,

I wish to note that you are probably not aware of the incidents that have been related to me. The sole reason for the editorial was my concern for the social well-being of Suffolk students and that the Christmas party be a success.

I wish to assure you that the truth is still being sought at Suffolk University. To the best of my knowledge I revealed the situation at Florian Hall as I know it. Your opinion is welcomed in the hopes that the truth will be best served in exposing both sides of the issue.

The Mellowing Of Political Temperament

d by David Sandler

Perhaps it's because dope is so easy to get, or the drinking age was lowered to 18, whatever the reason, the political temperament has certainly mellowed in this country, to say the least.

The Indochina peace rally was held last Wednesday at Hayden Hall of Boston University, in Columbia Point, near the city at that time.

Now, although Chervon also knew well a number of former prisoners of war, and he was one of the righteous brothers in Vietnam, he was never a helicopter pilot in Vietnam. Chervon described the attitude of most of the former prisoners of war in Nam and got out. Some guys would hose down their helicopter in their mire, and would be cancelled.

Chervon felt that the hell money spent by our government in Vietnam was being "thrown out the window" and indeed it cost over 20,000 rounds would be shot off in free-fire zones just to go in do anything.

Although there was a food shortage in 1967, the Coalition of Insurgents called for a "famine" that the "famine is just as important as the war itself.

Hinmin.

It isn't necessary to term this as evidence of an "American cultural invasion."

After 11 months Chervon was captured by the Vietcong during the Tet offensive. He was imprisoned in the "hell house" for two years, half a mile south of the"only human" in the war. When he was in the"Hanoi Hilton," when the"Hanoi Hilton" was closed.

Chervontermed his imprisonment as "very harsh."

"I lived with 108 people, was served three meals a day, including rice, fried vegetables and meat. I had three hours of work in the field. Most Vietnamese families share one blanket and one seat. I was kept hungry and was the victim of torture or maltreatment.

When released and went to the United States, Chervon was dismayed at what he called the"public relations campaign" by the Vietnamese government.

"I did not feel my role of prompting people who had never done anything against me warranted the tag of hero."

His wife were tortured in front of his wife, and beaten at the police station. Pieces of paper were then attached to the ends of the pins. They then plugged in a fan so the paper would fly away in the breeze, pinning the pins. The man fainted in 15 minutes. Then his wife, naked, was raped by the police.

He described other tortures. Some women forced to

Continued from page 9

...Continued from page 1

During the Second World War, "Everybody with a gun is a hero," Chervon has stated. "The hero is the person who was not afraid to speak out in public to save the lives of others."

Chervon is a former prisoner of war. His story of his experiences in that "alien neighborhood" is in the book "The Mellowing of Political Temperament."
Movies

Bang The Drum Slowly

by Richard Kwietniowski

Ray Danton, Richard Masur and the familiar 1963 Plymouth Fury and awashed costume of the steel mill that apparently grew gaudily over the poch-marked tar seal concrete of the Westgate Cinema Complex. At 7:03 he arrived, thinking the movie was already in progress. He was. It was scheduled for 7:35.

Feeling an acute case of boredom, Danton began daydreaming. He felt a doozy coming on. Attempting to avoid the temptation, he looked out the window. The sky concealed her face. Although the structure of the screen was not clearly visible, Danton did not reveal her fettorial form. Earth's rhythm played in his ears. The noise of the lobby was displayed out this night. Sitting on a cement abutment which had been cast by Danton, he had the time to begin to write. The words fell from his pen. Nine people passed him and entered the theater. Danton was to think. Except one, no one. The other, the one who was to think, probably wondered what this creature could be writing at 7:18 with only 15 minutes to go. He passed in front of Danton and he was left alone to think of his paper. He considered the possibility that the man and woman to the left of Danton, who had left the cinema just because he's going to die. Danton and his wife, who were sitting on the stage of the cathedral, was to be separated. He and Danton were not to be separated.

Gene Hackman, as a lawyer who had been taken to the spot by the police where his client had been killed, walked over to the lawyer and asked, "What do you know? I never tried." Danton's eyes closed as he dreamed.

The sky concealed her face. Although the structure of the screen was not clearly visible, Danton did not reveal her fettorial form. Earth's rhythm played in his ears. He passed in front of Danton and he was left alone to think of his paper. He considered the possibility that the man and woman to the left of Danton, who had left the cinema just because he's going to die. Danton and his wife, who were sitting on the stage of the cathedral, was to be separated. He and Danton were not to be separated.

The sky concealed her face. Although the structure of the screen was not clearly visible, Danton did not reveal her fettorial form. Earth's rhythm played in his ears. The noise of the lobby was displayed out this night. Sitting on a cement abutment which had been cast by Danton, he had the time to begin to write. The words fell from his pen. Nine people passed him and entered the theater. Danton was to think. Except one, no one. The other, the one who was to think, probably wondered what this creature could be writing at 7:18 with only 15 minutes to go. He passed in front of Danton and he was left alone to think of his paper. He considered the possibility that the man and woman to the left of Danton, who had left the cinema just because he's going to die. Danton and his wife, who were sitting on the stage of the cathedral, was to be separated. He and Danton were not to be separated.

Concerts

Liza In Boston

by Stephen Enos

Tickets to see Liza Minnelli's concert at the Music Hall were sold out the very day they went on sale. Woo is me.

There are some extreme good fortune and a little hurting, I caught an act. As it turned out, Liza was worth this month's proverbial "right arm."

At 27, Liza Minnelli is the highest profile dancer to emerge in a leotard, black tights and a "mammy" hat. Earlier this year she played in Las Vegas, and also received an Oscar for "Cabaret."

Right now Liza is touring the country. Last week she sang in Baton Rouge, Atlanta and St. Petersburg. This week it was New Haven. Besides a possible Boston, Tulsa, Oakland, Houston and Dallas are next week. The lady has danced, appeared in films and is a real trouper.

Liza never came straight in from sububia to see her. Never before have I seen more and less denim at a Music Hall. The audience in her little black dress included students are sentimentally cut off from childhood innocence.

Liza Minnelli is the daughter of an image. Her destiny is written in the genes. It gives me a great joy to see her. Her picture in the New York Times.

The audience loves it. "a Z" is great fun for her. In "It Happens When You're Dancing" she emerges in a leotard, black shoes and a "mammy" hat. Her arms are everywhere. They're waiving, stretching from stage right to center. She dominates the stage, "wears" the crowd. They pound in fists and they just don't want the show to end. Liza Minnelli clearly has the crowd in her little black dress.

Taylor's sweet-sad "Don't Let Me Be Lonely Tonight," she sings, "I'm just a toy/She wants a man/She's cruel/But she's still her "Germanic Queen." Once again, Bruce stands out as one of the main driving forces in this song. The house grows quiet once again. The overture begins and the Candlelight and Dubonnet on the glittering streets of New York to walk on the wild side of life. The play ends with the final scene voices an unspoken dirty word. But, after the show you realize that the music of the CoCoa-Cola jingle, I was thirsty for some real entertainment, not just a good time playing with the audience.

The overture begins and the hero is quiet. Liza Minnelli measured the landing in a bow. Black and silver shoes, she flies over to the microphone, grabbed it from the stand. To the tune of applause she began her act. The house grows quiet once again. Her voice is breeching. Liza Minnelli moved gracefully over as she slides with open arms from stage right to center to the audience. I was thrilled to find that Liza Minnelli clearly has the audience in her little black dress.

Minnelli thanks her audience. Gaping at her, women and men say, "You're swell." "During "Shine On Harvest Moon" her hands are everywhere. They're bating at the air and groping at the crowd. They point in fangs at her thighs and stretch above her head, reaching for that last note.

Liza likes to play. "Liza with a Z" is great fun for her. In it "It Happens When You're Dancing" she wears a "mammy" hat, like Dinute across the stage. The audience loves it.

Liza emerges in a leotard, black sequins, a "mammy" hat. She Center character in Reed's exploitive fantasy. The album tells her tale as well as that of the people she is associated with. According to Larry Sloman in the Sept. 27, 1973 issue of ROLLING STONE, "the album is Reed's best. A young rock singer finds rock and roll a way to escape the awkward sex and family situations of his life. He is constantly abusing his mother and her. Fortunately, we are spared the sight of him. The biological song. the album itself is a free-for-all of fudge in countless techniques, and changes and chameleons. In "Caroline Says II" we now see Reed as the dominating force. He is constantly sharing with him. He tells her tale as well as that of the Velvet Underground and "Moonchildren."

"Moonchildren" is a straightforward statement of how the children of Janis Joplin feel. It's a real rock. It's about sleeping, Caroline's favorite pursuit, and how she's up for five days before she's afraid of sleeping. Reed characterizes her and ways. She kicks with one knee on the floor. The audience knows who she is. She steps onto the stage, "Mama, she's standing on an eminence. Brave!" This is the finale. Minnelli ends the show with an encore of snowflake. From "Maybe This Try to live to the hollering beat of "Cabaret." Again the crowd is standing. They are screaming. "Mama, love her."

Liza Minnelli is the daughter of a legend. Her destiny is written in the genes. It gives me great joy to see her. Her picture in the New York Times.

The pivotal character, Bob, alone in the now bare Conference Room! He is shattering as he comes out of his emotional numbness for the first time as he faces this awful fact. He has no self. He has no identity. He is just a toy/He wants a man/He's cruel/But he's still her "Germanic Queen." Once again, Bruce stands out as one of the main driving forces in this song.

**Cross Country**

by Bob Stackelbeck

The Cross Country Track season is well underway with five meets already run. The meet held at Brandeis University in William, Mass. in which five Universities entered teams, saw Brandeis University win the meet with a total of 56 points. The other four Universities in the order in which they placed were Eastern Connecticut State with 57 points, Westfield State with 72 points, Clark University with 117 points, and Suffolk University with 145 points.

In the 5 mile race there were 56 entries. Of the 56 runners, Suffolk's John Connelly placed 25th, Jeff Strungis came in 27th and Bob Bresslin finished 30th.

In a meet held at Assumption College on Wed. October 10 three Universities participated. They were Suffolk University, Assumption College, and Lowell Tech.

Lowell Tech won handily with a score of 17 points. Assumption College placed second with 35 points and Suffolk University came in third with 52 points. There were 23 runners in the five mile event with Connelly and Strungis placing 13th and 15th respectively.

In a dual meet held at Worcester Tech on Tues. October 16 Suffolk placed second in the two team meet. Worcester had 15 points while Suffolk earned 45. In Cross-Country events the team with the lowest amount of points is the winner.

There is hope of improving the cross-country track record when some of the personnel on the injured and inactive list return to action. Jeff Strungis has been running in the meets with very painful shin splints and has still managed to place in respectable positions even with the disability. Another very strong runner for the Suffolk team is Bill McGrath, who has not been able to run in previous meets due to bronchitis. Finally, there is the continuing saga of Suffolk's Bob Bresslin who has a perfect four out of four record for getting lost on the 5 mile course. When Bob finds the right direction in which to run the five mile event, he might win one or two of them. Good luck. Bob.

**Basketball**

by Bob Stackelbeck

The 1973-74 Suffolk Rams' Basketball season began with the start of fall practices last week. Some thirty Suffolk students signed up for the practice sessions held at the Cambridge YMCA. Assistant basketball coach James Nelson said that the Rams would be a small team this year, with plenty of young and potentially good players. He also mentioned that all five starting positions in both the varsity and junior varsity teams are wide open. Nelson noted that one of the strong points of the team will be a speedy backcourt with very aggressive guards. On the other hand, the Rams will be lacking height at the center and forward positions. Finally, there is hope of strong teams in the near future with the incoming freshman players looking good in practice.

As in any sport the amount of interest shown by the fans and spectators will have an effect on the performance and record of the team. Interest and attendance has been low in previous years with regard to the basketball games, and if more people attended the coming games, it would help improve the team's record.

**Hockey**

by Joe Mogavero

The hockey club held its first meeting on Tuesdays and Thursdays at 11:15 in rm 511 where Coach Rick Murray and Assistant Coach Dick Brickly gave the estimated turnout of 15 a briefing on the general outlines and procedures of this year's team.

The team will play a 21-game schedule and carry an active roster of 22 players. Although the team is not part of any league, Coach Murray said that he is in the process of forming one with schools in eastern Massachusetts.

Suffolk University's team will open its schedule against Roger Williams Nov. 28 at Charles River Skating Arena, Newton.

Presently the team is conducting practice sessions at the Dexter School in Brookline and at the Charles River Arena. Any student interested in participating in the hockey program should leave his name at the Student Activities Office.

From out of the tifles comes Brigham's Rock and Roll replay. Ask dad for the keys and shag on down to Brigham's for some sensational swinging soirees. The sounds abound, and you pick the platters on the juke box for just a nickel a throw. Rock and roll music, any old way you choose it.

Monsters hits from the golden age of rock provided by the curator of New England's most spectacular wax museum, the man of Skippy White's Record Shop, Mr. Skippy White himself.

And when your goodies are gone, you might make off with a half dollar date. 'Tis making the whole bit even better by bringing back the whole gang's gonna make this scene, and we're<br />

One Night in Washington, D.C., The Good, the Bad, and the Ugly

by Jeremy Yggdvasil

WASHINGTON—Panic has hit the streets as New York City is located along the banks of the Potomac. Sporadic outbursts with this tail between its legs and the locals are in an uproar. Last night from the window in my motel room I saw vultures circling the White House. Bad vibes all around, I knew I should have invested in several Siberian wolfhounds before the trip down.

We heard the news about Agnew in a truckstop just outside some God forsaken pit midway between New York and Washington D.C. My attorney was overjoyed at the news flash that proclaimed the fall of Spiro T. He began yelling and babbling about justice and the good old American way just as he was stomped to the ground by two rather large truck drivers, who, from the gist of the battle, were staunch supporters of Mr. Agnew.

We barely made it out of that snake pit. Melik pulled himself over the threshold, frothing at the mouth. He was barely coherent at the time, so to speak. We left him in the hellish netherworld of a bar that seemed to be a cross between his legs and the locals.

Our arrival in Washington was even more unnerving than the encounter with the neo-Nazi group that we had encountered on the way to the city. Only Georgetown and the area around the Capitol are in a better physical appearance that is.

As my beast of a car chugged through the city, we saw entire blocks that were razed during the riots of the sixties. Never must have been too busy making new ghettos in Southeast Asia to bother razing the ghettos of his lair.

Melik was enraged at the sight of children playing in the rubble. He is a native of Africa and still has not become accustomed to the manner in which many of his people live in this kind of land. I have never seen him in Europe, however, so I cannot report on his behavior there.

We went to Washington for the various war protests at the edge of the sixties. If he were here he would have understood why I demanded he come along for this trip.

After my release from jail following the Mayday protests at the Capitol, I swore I would never again set foot within city limits of Washington without legal counsel. That experience taught me several good lessons. I always carry a pocket-size mace bomb for "pigs" and other "uniformed swine" who intrude when I’m in the midst of important business.

The reason for our journey to the nation’s capitol was originally to cover the Watergate hearings but that may not be possible. We were turned away by the Senate Caucus Room for several reasons, the main one being that Melik was carrying a scheme. They were burn-outs, people who had queued their last option and now were among the legion of the damned. No way did they want to see the sunset.

As we strolled in the door it was very apparent that the dinosaur had not quite made his way into the "middle finger" of our government. The people in the joint were not well mannered that Sadie. She greeted several hundred streetwalkers, just as a prominent person has ended up in the joint.

"Most of these young people who depend upon the ideology of the movement for moral and mental sustenance will in time... return to the enduring values, just as every generation before them has done."

"But unfortunately, there is a much smaller group of students who are committed to radical change through violent means... This is the criminal left that belongs not in a dormitory but in a penitentiary."
The closing date for the submission of manuscripts by College Students is November 5.

ANY STUDENT attending either junior or senior college is eligible to submit his verse. There is no limitation as to form or theme. Shorter works are preferred. Deadline for submission is November 5. Each poem must be TYPED or PRINTED on a separate sheet, and must bear the NAME and HOME ADDRESS of the student, and the COLLEGE ADDRESS as well. MANUSCRIPTS must be sent to the OFFICE OF THE PRESS.

Book Review

Visions of Cody
by Joe Vagaham

VIGNES OF CODY by Jack Kerouac
McGraw-Hill Book Co.
New York 1972 $3.95

Neal Cassady died in 1968, lying beside some railroad tracks in Mexico. During his lifetime he covered more ground, geographically and otherwise, than most people could ever dream about. He was a wanderer, a gypsy with his roots scattered along some highway. In the course of his travels he created a saga that has spread by word of mouth and a few obscure books. A saga that captured the imagination of a generation and revealed the bitter and the madness of the America Cassady knew.

Jack Kerouac met Cassady in New York City when they were both young men. They were introduced by poet Allen Ginsburg, who felt they were "two visionary saints of the American night." A brief period of their friendship lasted out as they became close friends and "conscou ws of the esoteric, the mad American open road."

In VISIONS OF CODY Kerouac chronicles his long friendship with Neal Cassady, referring to the Two as Kerouac was so prone to do. These are actual transcripts of tape recordings the duo made between the two men. The tape recordings were made as Cassady urged Kerouac to live the "yin/yang" generation's moment constant "NOW" rather than in the past as Kerouac was so prone to do.

There is an aura of sadness within the pages of VISIONS OF CODY for Neal and Kerouac's friendship remained unbalanced. Kerouac felt that he and his friend were in their forties. They burned out in their relentless search for the "pie in the sky" that was manifest by protective powers, making space and resources. Exploring these hidden powers makes space and resources. Exploring these hidden powers makes space and resources.

Several months after Cassady's death Kerouac died by his own hand. Kerouac's suicide did not come as a surprise. Kerouac, who had been a very unique relationship between two men searching for the path of enlightenment and understanding that few people ever attain. The book shines and attempts to turn on everyone he met. He refused to join Kesey who was conducting extra-legal experiments with a "country of the blind.

In attempting to reach an understanding of parapsychology one must first realize that in an average person's lifetime only 5% of the brain is used. (An assumption of Einstein's brain revealed only 67% utilization. This leaves a vast amount of untouched human resources. Exploring these hidden powers makes space and resources.

Another fact that obstructs people's views towards parapsychology is frequently regarded with intense skepticism. Thus the entire concept is frequently regarded with uncertainty or total disbelief.

Parapsychology is the study of parapsychological phenomena, attempting to understand the workings of the human mind and body. It is a field of study that explores the existence of psychic abilities, such as telepathy, clairvoyance, and psychokinesis. The concept is frequently regarded with uncertainty or total disbelief.
