ROUPE ROUND
ATLANTA, GA. — A program which will maintain a balance between a general, liberal arts education, was called for July 1 by Dr. Curtis Dixon as he addressed the Summer School Assembly at Atlanta University.

Dr. Dixon, director of the Southern Education Foundation, pointed out the importance of colleges and universities to present a course offerings to the changing needs of business and society. He questioned the wisdom of trying to meet these expectations with education.

The schools can never meet them, he said, and if they try to, they will produce students with vocations rather than with culture.

WASHINGTON — A national wide campaign to urge teen-aged students to stay in high school and graduate was launched by the Department of Health, Education, and Welfare of the Department of Defense.

President Eisenhower added his support by placing Secretary James P. Mitchell and Secretary of Health, Education, and Welfare Marion B. Folson in pointing out the value of high school education to the individual and the nation.

O'Banyoun's Observations

Last Sunday morning, Pastor

Barr of St. Paul's of St. Paul

AME Church, Cambridge,

considered his precious ministry with

a sermon from Rev. 2, 14-15. As

ever, he draws word pictures of the
esences he is discussing, deduc
tions truths from the text, advising

counsel to those who attend. As

I have said often before, I can

think of no words to pass along

the sermons and the spiritual vi
durations caused by this ministry

and you must come and hear for

yourself. The faithful service

was on the job as usual. A pulpit
guest, Dr. Charles W. Gil-

Save Money by Paying Cash or Budget

Everybody knows you get more miles for your money on the MTA. More and more people these
days are surprised to discover just how much

you save by riding the MTA. When you add
gasoline and parking costs to wear and tear

on your car... you find it's not pennies but
dollars per week you save by going MTA. Intown MTA

stations are handy to everywhere... offices,

shopping areas, entertainments... all over town.

For local trips you pay only 15 cents per ride. For

20 cents you can ride anywhere in 14 MTA com-
munities. Plenty of room in non-

rush hours, or on Saturdays and Sundays. Go the MTA way and save money.

THE FACTS ARE...

By MICHAEL ALLEN

Another who has impressed many with the force and power that he has taken in the legislature on the important issues confronting the state is Senator Frank Foster. It will be recalled that Senator Foster, in his perfect introduction of former State Senator Daniel Sullivan for that seat, recently announced as a Democratic candidate for Massachusetts in the 1958 Party Primary.

Incidentally another outstanding Democrat at the primary prize candidate for a statewide office in 1958. He has already invested his time before making an official announcement. He is expected to end the many political careers here in Massachusetts

President Kennedy

The few of the candidates who have announced their candidacy for the Boston City Council, thus far, have given the chance of deleting any of the present members of the Council. City Councilor William J. Foley, Jr., who is also President of the Council, will take the ticket. Only one question in his case, is how much will he win by?

United Nations

By Samuel P. Fyry Jr.

The international Bank for Reconstruc-
tion, or World Bank, made a loan of $175 million to Ethiopia for the extension and further improvement of the country's highway system. According to the statement of the World Bank, the economic potential is only just beginning to be realized. A better road transport is the key to further development of the Ethiopia.

Bank officials expressed the opinion that the new improvement in highway system would stimulate trade by opening new areas to cultivation and by interconnecting the country. It is now imperative to have simple, bituminous roads and to improve the existing roads.

The new loan is the second World Bank loan in the Ethiopian highway. A loan of $50 million in 1954 was made for the rehabilitation and maintenance of the road system. With the help of that particular loan and an additional investment of 354 million by the Ethiopian Government a total of about 2,900 kilometers of roads have been repaired and maintained.

In recent months, however, there has been a 50 percent increase in highway traffic, resulting in a sharp drop in road and rail weight rates. This has been an important factor in the rapid extension of Ethiopia's foreign trade.

NAACP DID HELP

To the editor;

I am referring to your news item in last week's issue of THE CHRONICLE in which there was a case of James Bellamy, alias Donald Jefferson, wherein you stated that the NAACP had not come to the aid of this young man in his fight to avoid sending to the state of South Carolina.

For your information, I am the chairman of the Legal Affairs Committee of the Boston Branch, NAACP, interviewed the man and offered to aid him, however, I was later advised that friends of Mr. Bellamy had retained private counsel to represent him in court and upon I withdrew from the matter as I was not the request of his private counsel, I did not wish to assist in the case.

Knowing that this desire to be fair as well as accurate in your reports, I am sure that you will not fail to observe the facts.
