SGA Petitions
Board of Trustees

In House: Again, the Suffolk Board of Trustees continues to receive student-sponsored petitions calling for changes in student life. Last week, the Board considered a petition calling for the inclusion of Suffolk students in the Board's decision-making processes. The petitioners argued that the Board's decisions should be made with the input of the students who are affected by those decisions. The Board approved the petition, and a committee was formed to study the issue further.

The Status of Women at Suffolk University

Last Spring, President Thomas F. Gallagher established the Committee on the Status of Women to provide the necessary advisory and educational services to the women's community. At its first meeting, the Committee elected Dr. Maria Benitez as Chairman and Ms. Anne M. Mulvihill as Secretary. The Committee is composed of eight women and two men, comprising representatives from the faculty, administration, and student groups. The Committee is charged with the responsibility of investigating and reporting on the status of women at Suffolk University.

Suffolk Mourns

Judge’s Passing

A man well known to thousands of Suffolk students, the late Judge John F. Fenton, chairman of the university's Board of Trustees, was the name of the university's late president and judge for the Massachusetts Court of Appeals. He served as chair of the Board of Trustees of the University of Massachusetts and was a long-time member of the Board of Directors of the University of Massachusetts Hospital System.

Judge Fenton had served as a member of the Board of Directors of the University of Massachusetts Hospital System since 1961. He served as a director of the hospital until his death in 1974.

The Suffolk University Board of Trustees, in recognition of Judge Fenton's service to the university, has decided to dedicate the new building in his honor.

Fenton Memorial

Trustees to Dedicate New Building

Judge Fenton was a long-time supporter of Suffolk University and its students. He included all Suffolk students in his will and endowed the law school with a substantial sum of money.

The Suffolk University Board of Trustees has decided to dedicate the new building in honor of Judge Fenton. The building will be located on the campus of the university and will be used to house the law school and its students.

Judge Fenton was known for his dedication to education and his commitment to making a difference in the lives of students. He was a kind and generous man who will be deeply missed by all who knew him.

TEST DATES FOR NATIONAL TEACHER EXAMINATIONS ANNOUNCED

The Placement Office has announced the new dates for the testing of prospective teachers: November 9, 1974, and January 25, April 3, and July 19, 1975.

Results of the National Teacher Examinations are used by many large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers.

On each full day of testing, prospective teachers may take the Common Examinations which measure their professional preparation and general educational background and an Area Examination which measures their mastery of the subject they expect to teach.

Prospective teachers should contact the Educational Placement Office for specific advice on which examinations to take and on which dates they should be taken.

The Bulletin of Information for Candidates contains a list of test centers and information about the examinations, as well as a Registration Form. Copies may be obtained from the College Placement Office, Room 201, Archer Building.

Yes, it's true! All the things being equal, consider the alternative, while you're at it, to what is now called the "balanced approach," or what we used to call simply "education." (Just another word for what we used to call "thinking," but I digress.)

The students in the Education Building...well, let's just say they're getting a real "balanced approach" to education. The student body, for example, includes people from all walks of life, and they're all working hard to achieve their goals. The faculty, on the other hand, is made up of some of the most respected scholars in the world, and they're dedicated to teaching and research. (Okay, so maybe they're not all from the world of academia, but they sure are smart.)

"Our Little Deuce Coupe You Don't Know What We Got"

WASHINGTON, D.C. - After more than five and a half years of waiting, the nation's capital was finally heated up by the arrival of an icon in the world of transportation: the Deuce Coupe. The Deuce Coupe, a two-door compact car manufactured by Ford Motor Company, is named after the Deuce Coupe of the 1950s, which became a symbol of the rock-and-roll era.

The Deuce Coupe is not only a symbol of the past but also a nod to the future. As the nation looks towards a more sustainable and eco-friendly future, the Deuce Coupe serves as a reminder of the importance of innovation and progress. The Deuce Coupe is expected to be a popular choice among consumers who are looking for a reliable and affordable vehicle.

Unsafe at Any Speed:
President Gerald R. Ford

WASHINGTON, D.C. - Upon the retirement of Richard Nixon as the 37th President of the United States, Gerald R. Ford took the reins as the 38th President of the United States. During his presidency, Ford faced numerous challenges, including the Watergate scandal, the Vietnam War, and the ongoing energy crisis.

Ford's time in office was marked by his commitment to domestic policies and his focus on national security. He was known for his strong-willed personality and his ability to make tough decisions. Despite facing criticism for his policies, Ford went on to achieve significant reforms, including the ratification of the Equal Rights Amendment and the passage of the Energy Policy Act.

The Ford administration also faced criticism for its handling of the Watergate scandal, which ultimately led to the resignation of Richard Nixon. Ford's tenure as President was marked by a series of scandals and controversies, but he continued to work towards improving the nation's economy and promoting international cooperation.

In conclusion, Gerald R. Ford's presidency was a time of transition and change. Despite facing numerous challenges, Ford remained committed to improving the nation's economy and promoting international cooperation. His legacy continues to be debated and discussed, but his service as President is undeniably an important part of American history.

...brings new life into the atmosphere of the college and its relationships with the neighboring community. Mr. Kennedy, in his unpretentious and cordial manner, had no trouble making friends with students and teachers alike. He was always ready to listen and assist with any problems they might have. Mr. Kennedy's presence helped to foster a sense of community and unity among the students and faculty.

The building, with its modern design, is a testament to the vision and dedication of those who worked tirelessly to make it a reality.

...the presence of Mr. Kennedy has added a new dimension to the college experience. His approachable and down-to-earth style has made a lasting impression on the students and faculty alike. Mr. Kennedy's commitment to the college and its mission is evident in his actions and words, and it is clear that he will continue to be an important figure in the college's future.
Letters

Dear Editor,

We would like to share our concern about the situation in the surrounding community. As residents of Brookside, we believe that our voices are often ignored in discussions regarding the area's development. We urge the community to come together and demand better representation.

Sincerely,

A Poetic Pilgrimage

In Steven R. Katz

The real thing in life is that.
Under the mooring of another shore.

London Bridge is over London Bridge
Now.

Now, I was there the last week of August in 1937 and I discovered we had not had a summer since the beginning of the war and we had not had a real London Bridge in 1937.

Better bridges.

Now, how can you write a poem on summer in London and not think of the Thames? And the only thing that is not the same now as it was in 1937 is that the old hands have passed on and the young hands have not yet learned the old ways. But I think the old hands are still there and the young hands are learning the old ways and the Thames is still the same.

Now, I was there the last week of August in 1937 and I discovered that we had not had a real London Bridge in 1937. And I think it is the same now as it was in 1937.

A view of London from across the Thames.

Fitting, I am sure, to bring the poem to a close. But it is a fitting end to a poem about London.

The Murder of A Misanthrole

By Joe Livengood
Lewis Brown: The Canadian as Social Exile and Social Misanthrole

The Murder of A Misanthrole

When Lewis Brown was murdered by two men at night on a sidewalk in Chicago, the police did not think much of it. They shot the killer’s gun and went about their business. But when the police recovered the gun, they found that it had been stolen from Brown. The police began to think that Brown had been targeted because he was a social misanthrole.

Lewis Brown was a social misanthrole. He believed that people were inherently evil and that society was a lie. He despised the government and the law, and he thought that people were inherently evil and that society was a lie. He despised the government and the law, and he thought that people were inherently evil and that society was a lie.

Brown was a self-styled prophet, and he believed that he could predict the future. He was a social misanthrole, and he believed that people were inherently evil and that society was a lie. He despised the government and the law, and he thought that people were inherently evil and that society was a lie.

Brown was a social misanthrole, and he believed that people were inherently evil and that society was a lie. He despised the government and the law, and he thought that people were inherently evil and that society was a lie.

Deuce

On May 25th, 1974, he supported a resolution overturning an earlier decision to abolish the 4-H club in Kentucky. With his speech, he urged the establishment of a new 4-H club in Kentucky. The resolution was passed with a majority vote in favor of the new 4-H club.

Coupé

In contrast, the coupé was introduced in 1974, offering more refined styling and a smoother ride. The coupé was marketed as a luxury vehicle, catering to a different segment of the market. It featured advanced engineering and materials to enhance performance and comfort. The coupé was a significant improvement over the previous model, offering a more sophisticated and refined driving experience.
PILL PUSHERS
WASHINGTON, D.C. — It's been a shock to a lot of drug companies that new laws are mandatory rules that are important to some of the most important customers. The doctor-demand program, which is to be the most important rules, was first started in 1973 by the Senate Subcommittee on Health and Education, and was formed the adhesions of major pharmaceutical companies. Dr. Martin Margol, a pharmaceutical company, and Dr. David Walper, a Senate subcommittee, were present at the hearing to discuss the program.

Margol, who was representing several companies, said that he was not sure how long this program would last. He said that in the past, companies had been working on medical plans, but that now, with the drug company, he had to be sure that they were doing things right.

Margol later expressed his concern that the program was not being carried out effectively. He said that he was worried about the companies doing the right thing, and that he was not sure how long the program would last.

Later, Margol expressed concern about the cost of the program. He said that he was not sure how the companies were going to pay for it.

The American Medical Association has approved the construction of a new building in the community. The new building will be located on the north side of the community. The building will be the new headquarters of the American Medical Association.

After months of planning and construction, the new building was completed and opened to the public. The building is a modern, multi-story structure that will house the headquarters of the American Medical Association.

Wordworth raised at Dorset on the 18th. I am to be in the house. The weather is very fine, and one expects it to be more pleasant. The weather is very fine, and one expects it to be more pleasant.

The Poetic Pilgrim

Poetic Pilgrim visited the Elizabethan Grammar School that Wordworth had attended.

After more miles and days of travel, and several hundred pages, I was to be in the house. The weather is very fine, and one expects it to be more pleasant. The weather is very fine, and one expects it to be more pleasant.

Poetic Pilgrim

"How beautiful when up a lofty height
Honour ascends among the humblest of poor,
And feeling sinks as deep!"
Poetic Pilgrimage

(Continued from previous page)

Wordsworth felt as Wordsworth wrote.

Road, scouting by some uncharted

road, I followed the adventure of

the man described by David Hume to

his friend, and from Richard

Wordsworth's last address and

the letter he wrote to him, I

moved to the north of

Scotland. I attended the funeral

to pay my respects to Wordsworth

when I was born. Here was the monument

of the poet, surrounded by the

words of the poet.

I found the poet's house,

Wordsworth's Place, and

the stones that he

loved. I was lost in

the landscapes and

the poetry of the

writer.

Blessed be the man that spares

these stones

Curst be he that moves my bones...

The poet's love for nature

and his respect for the

landscapes he

admired is evident

in his work.

Wordsworth's Place is a

memorial to a

great poet and

a great man.

The poet's love for nature

and his respect for the

landscapes he

admired is evident

in his work.

Wordsworth's Place is a

memorial to a

great poet and

a great man.

The poet's love for nature

and his respect for the

landscapes he

admired is evident

in his work.
Freshman Elections

The Student Government Association announced at its first meeting that Freshman elections will be held on October 17 and 18.

All freshmen who would like to run for a position as a class officer must secure signatures from 25 members of their own class. The nomination papers must be submitted between October 7 and 11. They will be mailed to the Student Activities office no later than 5:00 pm on the 10th.

All candidates will have the opportunity to speak to the members of the 3 freshman classes on the 15th.

VETERAN REPS

Open Office

In Mark Rogers

September 1974-1975 saw veteran reps on campus for the first time. Rogers, a sophomore majoring in the sciences, is the son of the late William Rogers, who was a prominent lawyer in the city and a former major league baseball player.

Rogers has been involved in a variety of organizations on campus, including the Students for Democratic Action and the American Federation of Teachers. He is also a member of the baseball team and has been named to the All-America team twice.

His goal as a veteran rep is to promote peace and understanding among the student body. He believes that it is important for students to be aware of the issues that affect their country and to be active in making a difference.

SPEAKING OUT

In J. Smith

It was a time of change in the world. The Vietnam War was just beginning, and the student movement was gaining momentum. It was a time when students were speaking out against the war and demanding change.

At WUSB, we were committed to giving a voice to the people. We knew that our listeners wanted to hear from those who were fighting for change. We were proud to be a part of that movement.

Our goal was to provide a platform for students to express their opinions and to give them a voice. We were able to do this through our live broadcasts, where we would invite guests to come on and share their thoughts.

We believe that everyone has a right to be heard, and we are committed to giving that voice to those who are often overlooked. We are proud to be a part of the WUSB family and to be able to serve our community.

A Vacation Weekend
or
The Cat's Meeow

"In my opinion, it's the best vacation spot I've ever been to," Mrs. Smith, a frequent visitor to the island, told me.

"I would definitely recommend it to anyone looking for a relaxing and enjoyable getaway," she continued.

The island is located in the middle of the ocean and offers beautiful beaches, crystal-clear waters, and an abundance of wildlife. Visitors can explore the many trails that wind through the island's lush forests or simply relax on the beach and soak up the sun.

"The island is also a great place for birdwatching," Mrs. Smith added. "There are so many different species of birds that you can see here, and it's a real treat to see them up close.

Overall, I would say that the island is a must-visit destination for anyone looking for a peaceful and rewarding vacation. I highly recommend it to anyone who wants to get away from the hustle and bustle of everyday life and enjoy nature's beauty.

"And don't forget to bring your camera," she concluded. "You never know what kind of amazing sights you'll see while you're there."

The island is also known for its delicious seafood, with many restaurants offering fresh fish and other local delicacies. "The food is amazing," Mrs. Smith said. "You won't want to leave without trying their famous fish and chips.

"But the best thing about the island is the people," she said. "Everyone is so friendly and welcoming. It's like you're part of a big family.

If you're looking for a memorable vacation experience, I highly recommend you go to the island. You won't regret it."

"I'm already planning my next visit," Mrs. Smith told me. "I just can't wait to go back and explore more of the island."

"And I'll definitely be bringing my camera," she added with a smile.
