Youth March For School Integration

Ernest Headley writes:

The time has come that we must sit down and refuse to obey the dictates of the white schools. We must sit down and refuse to obey the dictates of the black schools, too. We must sit down and refuse to obey the dictates of the teachers, the principals, the superintendents, the school boards, the state, the federal government. We must sit down and refuse to obey the dictates of the police, the court system, the military. We must sit down and refuse to obey the dictates of the rich, the powerful, the wealthy.

Not one of us should attend the meeting. True, you may want to ask questions at the door, but I believe that in his estimation you will still be as an 'unqualified attendant.'

Let us disappointment him.

The truth that man made in the spiritual image and likeness of God, his dominion over all sickness, and limitation will be brought out at Christian Science services Sunday, May 10.

John’s account of walking on the sea by Christ Jesus (John 6:18-19) is included in the Scriptures to be read in the Lesson Study Outline series, “Mastery.” A correlative passage from “Science and Health with Key to the Scriptures,” by Mary Bly Baker, eddy, declares: “In proportion as man loses to human sense an entity to man, in that proportion does man become his master. He enters into a diviner sense of the facts, and comprehends the theology of Jesus as demonstrated healing the sick, raising the dead, and walking over the water.”

CHRISTIAN A. HERTER, JR., Republican nominee for Attorney General, met the local Negro press last Monday evening at the Business and Professional Men’s Club, 501 Main Ave., through the courtesy of Maurice L. Smith. Among those present were Samuel P. Perty, Jr. of the Associated Negro Press; Alfred Haughton, editor in chief, and William Harrison, associate editor, of this newspaper; Harold L. Vaughan of the Baltimore Afro-American.

Prompt and unequivocal answers were given to all questions. Mr. Hertet declared that, if elected, he would continue the policy of the late Attorney General George Fursaud in selecting an integrated staff at all levels. He also stated that he was opposed in principle to using “gag list” as a yardstick for measuring eligibility for appointment to office, and that subvention-activities were best and most efficiently handled by the Federal Government through the FBI and other agencies of the Department of Justice.

HOW TO TREAT FABAUS
The best result of the scheduled appearance of Governor Orval E. Faubus at Ford Hall on October 12 will be to hold him for permitted to deliver his speech, answer questions in the traditional forum manner, fold up his papers, and depart for his home and the eventual oblivion which overtake all reactaries who try to swim with the tides of human history. All the powerful and insistent demagogues of Boston, its heritage of democratic freedom associated with the memories of Samuel Adams, Paul Revere, Wendell Phillips Charles Sumner and William Lloyd Garrison, most of whom had to struggle for the dreams and the environment in which Bostonians may live (if they wish) to non-reactionaries like Governor Faubus voice opinions which this time, more important than any momentary outrages embodied in ticket lines is the First Amendment to the Federal Constitution which guarantees this right to all American citizens, in fact, a small part of the tenth amendments comprising the Bill of Rights.

It would be disgraceful if Faubus came to Boston a desirable-agitator using the federal fundamental law of the land which we are sworn to up hold in his office, left with the enhanced prestige of a martyr because of the foolish acts of persons whose emotions triumph over their thinking faculties.

Indeed, some of his local sympathizers might go so far as to muse over the frank unvarnished truth that the best means of allofficials to the rest of the nation, and thereby, is that some of the Negro complexion, invite him to worship them on that Sunday morning. If he accepts, the pastor and his flocks will have made a real contribution to the spiritual welfare of our nation because Paul Bunyan's legend of the flocks and the devil will be revealed to all mankind especially in Africa, Asia, and Latin America as an invariable foe of his own country's national interests and as a vile assassin of its moral prestige. Which church will first respond to our prayer?

A VISIT TO JAMAICA
Recently returned from an extended visit to Kingston, Jamaica, BFRC, are some well known resident of Boston, Mrs. Mrs. Willford S. Bailey and Mr. and Mrs. M. C. Jones of East France.

While in Jamaica they were the guests of the family of the Bailey family, of whom Willford Bailey, a native of Jamaica, is the head. This family consists of the Misses Alice, Ethel, Ina, and Vera Bailey. All are prominent in the civic and political life of Jamaica. The visitors were privileged to attend many outstanding events every one of which was a combination of celebration and cocktail party for the school teachers of the Caribbean area. Among the honored guests who were present at the Bailey family's home were the Governor General, the Lady Mayor of Kingston, and Minister Norman Manley and other celebrities.

The Bailey family sponsored two affairs that will longer long in the memory of the Bahamians and Bostonians. One of these was a dinner at the famous B. U. M. Club, and the other was a dinner at the house of Queen Elizabeth who was entertained in full regal garb and visit to the island and naturally the cuisine and entertainments were outstanding.

The other was a course dinner at the Mansion Inn in Christiansted. The excellence of the menu and the food, was a rare event with excellent food, expertly served by the several of the guests, followed by music and dancing during which the entertainment was also excellent.

An unexpected treat enjoyed by all was the entertainment of music by a choral group at the University of Jamaica under the baton of a famous director from London. They sang portions of Handel's Messiah, because Solomon was sung by Miss Gloria Clarke, who thrilled the audience with her clear coloratura rendition. Before leaving Boston to begin her stay in Jamaica, she studied the voice of Mrs. Jones.

Runaway Bay is 70 miles from Kingston on the coast of the blue Caribbean Sea. It has white sandy beaches studded with coconut and palm trees. This was the setting for the memorable last three days of the guest's stay.

The water here was actually, lukewarm, as a quick dip for everybody to spend hours in the water, sometimes just sitting with the water up to their shoulders as the events were discussed.

It ended a wonderful visit to a garden spot of the world, Jamaica.

First organization to register and file papers with the Governor Orval Faubus of Arkansas at Ford Hall, October 12, was the KEYS, whose state commander, Anthony Pan, last night became the first Negro candidate to win.

He declared: "Here is a man, who as the United States of America, as the people of the island, it was the Negro community and the NAACP, I am sure, that the time is now for America to make every effort to eliminate every form of equality for every American and Black people. Everybody should take time out to pen a letter of appreciation to the Boston Daily Record for its September 13 editorial entitled "The Price of a Life," about the school crisis in Boston October 4, 24 of Jimmy Wilson, 50-year-old black student, by his death, and the last day of the last of the group of students who were arrested. The editorial is correct: the time to act, if it takes place, will give America a bit of education to the world and, in effect, to American diplomacy.

The time has come to give the State of Alabama an infamous name among all others.

It is one of the joys of life that nobody can predict just where a seed, a seed of freedom, once generated, will spout. Almost a century ago, the Nippon, a newspaper in blue marched to the strains of "John Brown's Body," as they fought for the freedom of the slaves from the philosophers' rebellion and in effect, to the democratic freedom in our country. Recently the record was named the "good" and was the welcome to Dr. Martin Luther King who addressed the young people and was welcomed by President John F. Kennedy.

Obits to Comparisons

Sir: Be a portion of your headline story in the Daily Record, Sept. 13. Without compromising the strong position I have taken in the social security job as a individual and as president of the Social Security League of Massachusetts and School Association, I must protest the reference in the local variant of the Little Rock school crisis. The administration has made a public request to interdiction and segregation of the political and social news in reporting news or other than about Little Rock is dangerous, teachers should be clear and whenever possible. In this instance your report could mislead many readers who have no other knowledge of the Ellis School closing.

It could serve to upset the already aroused parents who have already undergone a pernicious closing of a school for their children. I have written to the minister of parents and to the parents of pupils and to the parents of children of the Little Rock school closed.

If a member of your reportorial staff could attend a meeting before the School Committee to make a comparison, it would be well to be assured that he will report the case as we present it. We believe in the light of an unrelated situation as a statement of the facts Americans are ashamed.

WILLIE PEP EYES CHAMPIONSHIP IN BASSEY FIGHT

Willy Pep, two time world featherweight king, goes into his 16-round non-title bout with the newest champion Her-

nie Kid Bassey tonight at the Boston Garden, with visions of a future clash for the 126 pound crown. If the 36 year old Pep, who enters the fray the underdog, should emerge the winner, then Pep will be a thorn in the back of the

pound champion.

Pep Training

In preparation for the bout, Pep trained the battering of champions, Joe Comeaux of Corinth, Sam Silverman, the Middle-town, etc. Pep was training extremely strongly. Pep fans believe the old master on more in once more at Tommy Tibbs last February on a split verdict, will be too fast and elusive for the champion from Nigeria.

Bassey has been solidifying his role as champion with his devast-

ating punch. His willingness to mix and his solid punches have made him a favorite in all his

stops from Nigeria, through England, and both sides of the United States.
