You have the new service, for one, and the Carefree Club members have issued a $1000 bond to the City of Portland for the Carefree Club home. This is the first step, and we can count on an increase in the membership in the near future. We are in a position to support the Carefree Club project, and it is in the interest of all of you to support it, for only the members can control the funds, which is an advantage of this project.
