William Lawrence To Sing Here

Returns To Boston After Five Years of Study in France. Will Also Play Own Composition

WILLIAM LAWRENCE, tenor, composer and pianist, will appear on the program of the Bos- ton University Theater, Huntington Ar- mour, on Saturday evening, December 11, at 8.30. He will sing selections collected by Lionel, Louis and Arthur M. de Negre Spiritualists. He will also play one of his own compositions, with the accompaniment of Lawrence Browne.

Lawrence Browne

Mr. Lawrence is best known in this country and in Boston especially, as a pianist and ac- companying the Spiritualists, an he was an occasional performer on the program of the Boston University Theater. He is son of the late Rev. Dr. George A. Lawrence, well-known in Boston for his profound knowledge of music and the spiritual world. The program is under the personal management of Mr. Lawrence. It has been favorably commented on by such outstanding personalities as the famous Lincolns of Paris, in the effort to make the music with such spirit and strength, for which he has been always admired. The program is expected to be of great interest to all who enjoy fine music, and to be a success.

It is not surprising to his friends to find that this young composer is playing such a part in the musical world. He has been a contributor to the best periodicals, in which his compositions have been favorably commented on. The audience is expected to be large, as the program is expected to be a success.

IMPRESSIONS

Talking with a young man about the current political situation, I realized that the organization he belonged to had been responsible for a significant increase in the number of young people joining the movement. We discussed the potential impact of this growth and the challenges it might present.

As we continue to focus on youth engagement, it is important to consider the role of mentorship and guidance in helping young people navigate the complexities of the world. Providing opportunities for leadership and civic engagement can foster a sense of community and purpose among young people.

The focus on youth engagement is also a reflection of the changing demographics of the country, as younger populations become more influential in shaping the future. It is crucial that we invest in the development of young leaders and ensure that they have the support and resources they need to succeed.

In conclusion, the growth in youth engagement is a positive development that can have a significant impact on the future of our society. It is essential that we continue to support and encourage young people in their efforts to make a difference.

READERS and ADVERTISERS

What's Your Business?

Whatever it is, it is up to you to let the public know what you have to offer. Here are two important things you should know:

1. The Newspaper advertisement has contributed largely to the development and success of every kind of legitimate business.

2. The well balanced circular or pamphlet has been proven to be one of the most effective salamens that any business could adopt. It gains admittance into places where the most intrepid two-footed representative fears to tread.

THE ETERNAL LIQUOR QUESTION

All want admit an open and honest discussion of the liquor question is long overdue, to bring the matter to an open and honest consideration by the public. This is a question that has been the subject of much debate and discussion in recent years. Many people believe that the prohibition of alcohol is necessary to protect the public health, morals, and welfare of society. Others argue that the prohibition of alcohol is a violation of personal freedom and a violation of the Constitution. The debate on this issue is likely to continue for some time, but it is important that we continue to have open and honest discussions on this topic.
