PROPHETS AND PROFITS OF SEGREGATION

"By Carter G. Woodson"

Segregation is a practice rooted in the past, but its impact is felt in the present and future. The Prophets of Segregation have sought to maintain the status quo by promoting policies and practices that reinforce racial inequality. Their legacy continues to shape the course of American history.

TO SAY THIS

"AmeriCom Trust Walker"

Segregation is a societal construct that has been perpetuated through policies and practices that systematically disenfranchise and subjugate marginalized communities. The legacy of segregation continues to shape the course of American history, impacting individuals and communities across the nation.
