Trends indicate future tuition may stabilize

Alumni funds expected to increase

By Nancy Finn

Alumni giving is expected to reverse the recent trend of decreasing tuition rates. "The overall increase in tuition is expected to stabilize," said Ronald D. Kikas, vice president of the Alumni Association.

"The goal is to maintain the same level of quality education for the same cost," he added. "We will continue to seek ways to reduce costs and improve the educational experience for our students."

curricula and the college press

The curricular guidelines are designed to encourage and support the development of curricular content that is meaningful to all students. The possible increase of the number of students in the curricular guidelines has led to concerns about the adequacy of faculty resources. This is a matter of concern and will be addressed before the next meeting.

The development of curricular guidelines is a continuing process that will involve all students. The guidelines are intended to be flexible and can be modified as necessary. The guidelines are to be reviewed and updated periodically.

Piece of the crystal ball
A stop-by-stop tour of fortune telling

by: Thomas L. Anderson

The fortune teller's trade is quite a large niche in our society. The tradition dates back to ancient Egypt and Persia. In fact, it was the Egyptians who first used the crystal ball for divination. They believed that the mysteries of the universe were revealed in the patterns of light and shadow that appeared in the water. Today, fortune tellers use a variety of methods to forecast the future. Some use crystal balls, while others rely on tarot cards or other mystical tools. I talked to a fortune teller who claimed she could see into the future. She told me she had been doing it for many years and had never failed to predict an outcome. She claimed that she had a special connection with the universe, and that her ability to see into the future was a gift from the gods. Despite my skepticism, I was curious to see what she had in store for me. I walked into her booth and sat down opposite her. She looked me over carefully, then began to move her fingers over the crystal ball. After a few minutes, she looked up at me and said, "You have a very bright future ahead. You will achieve great success in your career. You will marry a successful man and have children. You will travel the world and see many interesting places. You will live a long and happy life."

price, yet pay the hard way

by: Thomas L. Anderson

The price of success is high, but it is worth it. I have learned that if you want something, you have to work hard for it. It is not always easy, but it is rewarding. I have seen people who have achieved great success, but they have had to pay the price. They have worked hard, put in long hours, and sacrificed a lot. They have faced many challenges, but they never gave up. They have been rewarded with success, but they have paid the price. The price of success is high, but it is worth it. I have learned that if you want something, you have to work hard for it. It is not always easy, but it is rewarding.

Buckland, Giles lead State over Rams, 93-90

By Joe Window

WSUB hassled over televising

In last Thursday night's basketball game between the Saints and the Rams in the WSUB studio, the networks and the public were not happy with the way the game was televised.

The game was broadcast on WSUB, but the quality of the picture and sound was not up to par. The networks were not pleased with the way the game was televised, and the public was disappointed with the quality of the broadcast.

State's Boris Giles scored 27 points in the game, leading the Saints to victory. The Saints' defense was also strong, holding the Rams to only 56 points.

Buckland's Brian Giles scored 20 points for the Saints, and the team's third leading scorer was二季度's John Doe with 15 points.

Buckland's defense was also strong, holding the Rams to only 56 points. The Saints' offense was also strong, scoring 93 points.

Buckland's coach, Bob Smith, was pleased with his team's performance.

"Our defense was strong, and our offense was also strong," Smith said. "We had a great game, and I'm proud of my team."

But then they wouldn't have the time to be student leaders!

Manfred Mann
stuck in rut

By John Bercow

Manfred Mann, born March 1, 1940, is the lead vocalist of the British rock band Manfred Mann. His distinctive singing style has been compared to that of soul and R&B performers like Sam Cooke and Otis Redding. Mann's voice has been described as soulful and emotive, with a range that stretches from soulful crooning to powerful banshee wails. His falsetto is often highlighted in performances of songs like "Blinded by the Light." Mann's influence on contemporary musicians is evident in the soulful and emotive performances of today's artists.
