Hockey Club to university: when will we be varsity?

In all senses, the Suffolk Hockey Club began once again in the fall 1974 semester. Members were able to thrill the campus with their enthusiasm for the sport, and the President of the Student Senate, Richard Varnum, announced that the hockey team would be varsity status.

The hockey team has operated as an intramural team in the past, but this year, with increased interest and funding, it has been expanded to varsity status. The team consists of 11 players, all from the high school level.

In addition, the hockey team will play against other universities in the area, such as Northeastern University and Boston College.

SGA leadership slips in second semester

By Frank Williams

The Student Government Association appears to have been in transition and in need of new leadership, with numerous complaints over the past semester. There were frequent meetings of the SGA, but the problems were not always resolved.

President Donald Washington and Vice President Robert Black have not been able to provide a stable leadership. Several former members are concerned that the SGA is not functioning as it should.

Several members have resigned in protest, and the remaining members are now struggling to maintain the organization. The SGA is trying to address the problems, but it is not clear whether they will be successful.

Investigation Committee

A committee was formed to investigate the problems. The committee is expected to report its findings soon.

Rathskeller Committee

The Rathskeller Committee has been addressing the problems, and it is expected to submit its report soon.

Scholarship proposed

A scholarship is being proposed for students who are involved in the SGA. The scholarship will be awarded to a student who has demonstrated leadership and has contributed to the SGA's success.

The SGA is working on a plan to increase the number of members and to improve the organization.
