SU report cites problems, renovations for handicapped

By Nina Garza

The Suffolk University Task Force on Handicapped Students, in its report to the university, recommends that the Suffolk administration be prepared to accept handicapped students for the fall 1980 term. The Task Force recommends that Suffolk begin an advertising and public relations effort to attract handicapped students in preparation for the fall 1980 term.

The Suffolk library facility was named one of many areas of the university requiring attention by the Suffolk Task Force on Handicapped Students.

After Bakke: no changes in store for admissions

Salary survey of staff well received by most

by Bill Colittta

The salary survey of staff members conducted in April by the committee on staff compensation according to Steve Glus, personnel and administrative officer, was generally well received by most staff members. The survey, which was conducted to determine the current salaries of staff members and the demographics of the work force, was believed to be well received by most employees.

A DAY IN THE SUN. Harbor seals take in the rays in this rare sight to a civilization in their native home in the Baja Chelengh Eonomes.

New IMC coordinator: a frustrated film maker

by Paul Draggin

Catherine Draggin, who has been appointed IMC coordinator, is a frustrated film maker, according to her former husband, director Paul Draggin. "She's been trying to break into the film business for years," Draggin said. "She's been working on a film for the past two years and has been living below the poverty line."

Suffolk adds two new officers to fill undisclosed gap in force

by Bill Colittta

The new IMC coordinator is reported to be a frustrated film maker. She has been working on a film for the past two years and has been living below the poverty line. The new officer is reported to be a frustrated film maker. She has been working on a film for the past two years and has been living below the poverty line.
Suffolk’s handicap

As present, Suffolk University, under the direction of Dean of Students Mr. Michael Sullivan, is lacking several key elements that could contribute to creating a vibrant, diverse, and inclusive campus. The process of accomplishing these needs is not negligible and has been hindered by several factors.

One key component of this endeavor is the relocation of the student affairs offices from the Student Services Building to the new Education Building, which no one on campus seems to be very happy about. The inaction of the University in this regard has been met with a collective sigh of resignation from students and faculty alike, signaling the lack of progress in creating a more inclusive environment.

Masters, too

Editor:

The Suffolk Journal, recognizing the need for a student to improve the general education of the Suffolk community, offers Commentator, a column open to any member of the University.

The subject matter is an important issue in social, political, and academic areas that directly affect Suffolk.

The next deadline is Friday, August 5th.

Young woman's fight for her life

by Jim Humen

The exhausted woman lay there, her body wracked by pain, her face twisted in agony. She had been in the hospital for weeks now, fighting for her life. Her husband, John, sat beside her, holding her hand, offering words of encouragement and support. He knew that she was in the early stages of cancer and that the battle ahead would be long and difficult.

The doctors said she had less than a year to live. They recommended aggressive treatment, but her body was too weak to withstand the chemotherapy. She wanted to try something else, something that would give her a chance at recovery. John knew that she was doing all she could, but he was worried about her declining health.

Despite the challenges, she remained strong and determined. She refused to let her illness define her, and she worked hard to stay positive. She read books, watched movies, and listened to music, all the while keeping her spirits up.

The treatment was difficult, and she often felt weak and tired. But she never gave up. She knew that she had to keep fighting, and she did. She refused to let her cancer win.

After several months, her condition began to improve. She started to feel better, and her pain diminished. The doctors were astonished by her progress, and they encouraged her to continue the treatment.

John was overjoyed. He knew that his wife was fighting, and he was determined to be there for her every step of the way. He helped her through the rough patches, and he celebrated her victories with her.

Finally, after months of treatment, she was declared cancer-free. She had won her battle, and she was grateful for every day she had left. She knew that she had been given a second chance at life, and she was determined to make the most of it.

John was overjoyed. He knew that his wife was fighting, and he was determined to be there for her every step of the way. He helped her through the rough patches, and he celebrated her victories with her.

Independent in spite of a handicap

Marianne O'Mara, a gifted and determined young woman, was diagnosed with a severe handicap when she was just an infant. Despite her circumstances, she never gave up on her dreams of achieving greatness.

Marianne was born with a rare condition that affected her mobility. Her limbs were shortened, and she had to work hard to move around. But she never let her disability hold her back. She learned to walk at a young age, and she worked hard to keep up with her peers.

Marianne was a natural athlete, and she excelled in sports. She loved running, and she had a natural talent for it. She ran cross-country in high school and went on to compete in track and field in college.

Despite her disabilities, Marianne never gave up on her dreams. She worked hard to overcome the challenges she faced, and she never let her limitations define her. She was determined to be the best she could be, and she worked hard to achieve her goals.

Marianne's success was not just a testament to her determination, but it was also a reflection of her family's support. Her parents were always there to encourage her, and they never let her feel like she was limited by her disability.

Marianne's story is an inspiration to us all. She showed us that with hard work and determination, we can overcome any obstacle. She proved that anything is possible if we set our minds to it.

Marianne's story is an inspiration to us all. She showed us that with hard work and determination, we can overcome any obstacle. She proved that anything is possible if we set our minds to it.
Suffolk bats keep ablaze in summer

by Mary Ellen Davies

Suffolk's bats were on fire and the home team was on top as the All-Star game between the Eastern and Western Conferences of the American Collegiate Baseball League was held last night at Vizzini Field. The visitors from the East coast lost 9-4 to the home team.

The game was a success on all counts. The visitors were given a warm welcome by the host team and the fans were enthusiastic and supportive. The game was played in fine weather and the conditions were ideal for baseball.

The visitors were led by their captain, John Smith, who was a star performer in the game. He scored two runs and his team was in the lead for most of the game. The host team was led by their captain, Mike Johnson, who was also a star performer. He scored three runs and his team was in the lead for most of the game.

The game was a thrilling contest and the teams played well. The visitors were outplayed by the host team in the second half of the game and the home team won in the end. The visitors congratulated the host team on their victory and wished them well for the rest of the season.

Overall, it was a great game and a great night for baseball in New York City. The fans were entertained and the players gave their best. The game was a credit to the American Collegiate Baseball League and to the players who participate in it.

Northwestern State University

All-Star game marred by bad voting, tender egos

by Buzz Ogden

The All-Star game was a disappointment to many of the players who were selected to participate. The voting for the game was mishandled and the players were not happy with the results.

The voting for the game was done by the coaches of the teams in the American Collegiate Baseball League. The coaches were asked to vote for the best players in the league and the players were selected based on the votes.

However, the coaches were not impartial in their voting. They were influenced by their personal biases and the results were not fair. Many of the players who were not selected were upset and felt that they were not given a fair chance.

The players who were selected were not happy either. They were not interested in the game and did not want to participate. The game was not played with the same enthusiasm as the regular season games.

Overall, the All-Star game was a disappointment to many of the players and the coaches. The voting for the game was mishandled and the players were not happy with the results.

Suffolk University

Nelson named Suffolk AD

by Joe Wilson

Suffolk University has named John Nelson as its new Athletic Director. Nelson was previously the head coach of the men's basketball team at Suffolk.

Nelson has been with Suffolk for 14 years and has been a valuable asset to the university. He has been instrumental in the development of the athletic program and has been a source of inspiration for the students.

The university is thrilled to have Nelson as its new Athletic Director and is confident that he will lead the program to new heights.
