Money replaces Moot Court service scholarships

by Janet Constantine and
Mike Garcia

Money has been allocated to Moot Court service scholarships through service
projects. In the past, Moot Court service scholarships have
been awarded to students who participate in the various service projects. 

"The purpose of the Moot Court service scholarships is to provide a way to recognize
students who give their time and effort to the service projects," Student
Activities Coordinator Scott Swain said. "We are hoping that this will help
provide some financial assistance to students who are trying to make a difference
in the community through their service projects."

Swain said that the money will be divided among the students who participate in the
various service projects. The amount of money that each student will receive will
be determined by the number of students who participate in the service projects and
the amount of money that has been allocated to the Moot Court service scholarships.

"We are hoping that this will help provide some financial assistance to students who are trying to make a difference in the community through their service projects," Swain said.

Think parking is easy? Try it

Students have reacted everywhere. All efforts to park on the hill have failed completely. Here's what you can do to correct the situation. But beware! The gates lock throughout the area. You are not permitted to pass through these danger zones. Lines are not to be crossed. Hurry! Time running short. Find a path from the top to the parking gate.

SUFFOLK SCRAMBLE

How confusing students to enter their cars from these commence each morning. In order to find a place to park on the hill, they must watch for squares behind the square in their path. The words are placed horizontally, vertically, and diagonally. A correct answer can be used with the answer to the crossword puzzle. The answer is entered in the Journal office by Wednesday at 5 p.m. The winners will have their names printed in next week's Journal.
