FACE THE ISSUES

Students convey feelings about Journal fund cuts

By Alice Mibraby

In the records of the Student Government Association the fact that funds were cut before the end of the fiscal year is clearly stated. The cuts were made on April 30, 1980.

The Student Government Association (SGA) is an organization that represents the interests of the students at Suffolk University. It is divided into several committees, each responsible for different aspects of student life. The cuts made by the Board of Trustees on April 30, 1980, affected all of the committees.

The Board of Trustees, acting on the recommendation of the Board of Trustees, approved a 25% cut in the budget of the Student Government Association for the fiscal year 1980-1981. The cut was made due to the financial constraints facing the university.

The cuts affected the operations of all committees of the Student Government Association. The committees were required to reduce their expenditures by a significant amount.

The cuts were a source of concern for many students, who felt that the funding cuts would affect the quality of services provided by the Student Government Association.

The Student Government Association wishes the class of 1980 all the best wishes for the future, and hopes to see all other students in September.

Have a good summer!
