Pre-Law Committee to aid students

The Pre-Law Committee is currently seeking students to aid in its efforts to aid students. The committee is looking for individuals who are interested in helping students with the application process for law school. If you are interested in becoming a member of the committee, please contact the committee chair, NICK BAKER, at 227-9235.

Beach party a possibility

A beach party is a possibility for the end of the semester. The students are currently in the process of planning the event. The party will be held at a beach located near the city. The date and time of the party have not been finalized yet. If you are interested in attending the party, please contact the committee chair, NICK BAKER, at 227-9235.

Ad-Hoc Committee to iron out Journal - trustee problems

An Ad-Hoc Committee has been formed to iron out the problems between the Journal and the trustees. The committee is made up of students and trustees who are working together to find a solution to the problem. The committee has been meeting regularly to discuss the issue. If you have any questions or concerns about the Ad-Hoc Committee, please contact the committee chair, NICK BAKER, at 227-9235.

FRESHMEN

I want to thank all of you for your support. Rumor has it, the turn out this year was bigger than most. This is an indication to me we have the potential to accomplish a lot as a unified class. I will do my utmost to have the whole Sufolk community proud of our SGA. It can at any time anyone, freshmen and upperclassmen alike, feel the need to sit down and talk, you have an attentive ear.

Invisible world exposed by MicroVISION

by Craig Lancaster

A photographer in a laboratory environment

The microscopic world of living organisms is revealed through a microscope, and the results are astonishing. This allows for a detailed examination of invisible details that are not visible to the naked eye. The microscope can magnify objects up to 2000 times, providing a detailed view of the inner structures of cells and other tiny objects. This is a fascinating way to explore the world of living organisms at a microscopic level.

Clark has something to offend everyone

The city is known for its pushy, hard-nosed politicians. But the people in this city are different. They care about the community and are dedicated to making it a better place. The city has a strong culture of civic engagement, and people are involved in many different organizations and initiatives. This makes the city a vibrant and exciting place to live.

Education department prepares for re-accreditation evaluation

The Education department is preparing for re-accreditation evaluation following last week's visit by the New England Association of Higher Education (NEAHE).

The NEAHE Accreditation Commission visits to assess the performance and effectiveness of each postsecondary institution. The evaluation process will be conducted by a site visit team that will spend several days on campus, conducting interviews with faculty, staff, and students, reviewing documents, and assessing the quality and outcomes of the institution's educational programs.
