T'ain't Valentine's Day!

Three organizations lose funding

St. Judy's Multicultural
The Latin American Society, the Italian American Society, and the Pan-African Students Union have lost funding for the Springfest 81 at their annual show.

In a decision that surprised the three groups, the University's Committee on Institutional Affairs (CIA) ruled that the groups must reduce their show's budget. The CIA, which oversees the University's budget, has the final say on the allocation of funds to student groups.

The three organizations were given until March 15 to submit their revised budgets. If the CIA approves the new budgets, the organizations will be able to proceed with their plans for the Springfest 81. However, if the CIA determines that the budgets are still too high, the organizations may have to make further cuts.

St. Judy's Multicultural is a group that promotes cultural diversity and inclusion on campus. The Latin American Society is a group that represents the Latin American community, while the Pan-African Students Union represents the African-American community.

SGA allocates $1,200 for Springfest

by Gene Rossell

The Student Government Association (SGA) allocates $1,200 for the Springfest 81 at their annual show.

The allocation was made after the SGA received a petition from the Springfest Planning Committee, which is responsible for organizing the event. The petition requested $1,200 to cover the cost of food and drinks for the guests.

The SGA approved the petition after a vote by the SGA executive board. The board had previously approved a budget for the Springfest 81, which included $1,200 for food and drinks.

The Springfest 81 is scheduled for March 17, 1981, and will be held in the Publik House. The event will feature live music, food, and drinks, and is open to all students.

Rams lose to Tona 6-1

By Ben Klein

We are looking at the KeCAU tournament final into the season and number of the two teams, but have plenty of players from the coaches. The Rams have earned their way into the title game, and the players and coaches have done their best to get there.

Brian Buehrer and his team started a total of 17 shots. The boys had 14/3, which gave the team a win after the first round. They were called for one penalty in the entire game, and that wasn't a big deal, but the penalty was a problem. Every goal they scored was counted. The Rams led against this championship game, for a matter of fact, they're the first time the Rams have scored.
All of the fashion, but none of the passion

We knew better than to be overly critical of the fashionable set. They didn’t seem to care if they looked good or bad. It was all about style. The clothes were made for the most part of expensive fabrics and only the rich could afford them. We tried to emulate their looks without spending too much money. But we soon realized that it was all about the attitude. The people who wore the clothes, not just the clothes themselves.

Heroes from France’s bleak era

The last days of the French cinema, the French cinema of the 1970s, was a period of great creativity and innovation. It was a time when French cinema was at its height, with directors like Roman Polanski, Louis Malle, and Jean-Luc Godard pushing the boundaries of what could be achieved on the screen. But it was also a time of great political unrest and social change in France, which was reflected in the films of the time.
