'60s Hair has a message for today

by Ann Practino

When the Doors hit the stage at Whiskey A Go Go in Los Angeles in 1967, their hair styles were a style phenomenon that swept across the country.

The Doors were no different. According to Jim Morrison, the band's lead singer, "We were just a bunch of young, rebellious rockers who wanted to make a name for ourselves."

But there was more to it than that. Hair became a way for people to express their individuality and their differences. It was a time when people were starting to break away from the mold of traditional society.

And hair was just one of the ways.

The Doors, along with other bands like The Rolling Stones and The Who, helped to popularize the "long hair" look. But it wasn't just about the hair. It was about the style and the attitude that went along with it.

The Doors were known for their unique style and their distinct sound. They were a band that was not afraid to take risks and to experiment with their music.

But what really set them apart was their message. Their songs were about love, life, and death. They were about the struggles of everyday life and the search for meaning.

And all of that was communicated through their hair.

The Doors were a band that was ahead of their time. They were a band that was ahead of the curve. And they were a band that is still remembered today.

And their message lives on.

Suffolk's Man of Steel: nailing down Joe Bibbo

By Luke Carman

Joseph Bibbo, the Suffolk man who raised more than $1 million to build the Suffolk County Police Headquarters, is being called "the Suffolk man of steel.

But Bibbo, who is now 77, never thought he would be a part of this history. He never thought he would be a part of anything.

But Bibbo did just that. He did more than just raise money. He did more than just build a building. He did more than just be a part of something.

He did more than just be a part of something great.

Bibbo was a man of great character. He was a man of great determination. He was a man of great will.

And he never gave up. He never gave in.

He was a man of steel.

Exciting Eligible

The case of the lost pilot of meteor

I think I was actually watching a kind of meteor shower in the sky. It was the late-night kind. But it was pretty impressive. You could see the stars shining bright in the sky, painting a beautiful picture.

But the real excitement came when I saw a meteor fall from the sky. It was a beautiful sight. You could see it burning up in the atmosphere, leaving a trail of smoke in its wake.

And then it hit the ground. It was a spectacular sight.

But there was more to it than that. There was a story behind it.

You see, there was a pilot who was flying in a meteor shower. He was flying close to the earth, trying to catch a glimpse of the action.

But he lost control of his plane. He couldn't see where he was going. He couldn't control his plane. He was lost.

But he was not alone. There was another pilot who was flying close by. He saw what was happening and he did something amazing.

He pulled out all the stops. He did everything he could to help. He tried to follow the pilot, to guide him back to safety.

But it was too late. The pilot was lost.

And the meteor was still falling. It was still burning up in the atmosphere, leaving a trail of smoke in its wake.

But it was not just a meteor. It was a meteor that had a story. It was a meteor that had a message.

And that message lives on.

ARTS & MUSIC

"Annie" remains hard to resist

By John Seel

"Annie" remains a musical delight. No matter how many times you watch it, you always find something new. The story of a little orphan girl who becomes a star on Broadway is well known, but the music and dancing are still as fresh as ever. The cast is top notch, with Carol Burnett in the title role and Wanetta Jackson as Miss Hannigan. The production values are top rate, with a splendid score that includes the hits "Tomorrow" and "It's the Hard Kill That's Hardest to Kill." "Annie" is a must-see for anyone who loves musicals.

Dolby sound enhances "A Hard Day's Night"

By Steve Watts

The Beatles' "A Hard Day's Night" is a classic of its time, a film that captures the essence of the sixties. The movie is a musical comedy that follows the Fab Four as they tour England. The black-and-white footage is enhanced by Dolby sound, making the movie even more enjoyable. The music is timeless, with hits like "Can't Buy Me Love" and "Help!" The acting is spot on, with Paul McCartney as a natural comedian. "A Hard Day's Night" is a must-see for Beatles fans and anyone who loves music and film.

Amityville II: This movie is itself a horror

By Joe Pan

Amityville II: The Possession is a sequel to the original 1979 horror film. The story follows a new family who moves into the house on Ocean View Avenue, only to find that it is haunted by the spirits of the previous occupants. The acting is weak, the storyline is predictable, and the special effects are laughable. The only thing that makes this movie worth watching is the在一个恐怖的夜晚，当暴雨倾盆而下时，一个年轻女子独自在家中。突然，她听到楼上的房间里传来一阵阵奇怪的响声。她的心跳加速，手心冒汗。她缓缓走向楼梯，每一步都踏得小心翼翼。终于，她来到了楼上。房门紧闭，但透过门缝，可以看到里面有闪烁的灯光。她轻轻推开门，只见房间里一片漆黑，只有一盏古董台灯发出微弱的光芒。她打开台灯，发现房间里有一个旧相册，里面放着几张褪色的照片。她拿起照片仔细看了看，发现其中一张照片中有一个年轻男子，穿着旧式军装。她想起了自己的祖父，曾是一名二战的飞行员。想到这里，她突然感到一阵恐惧，仿佛有无形的手在操控着她的行动。
