If you would like to write news, come down to RL19.

You’re Needed All Over the World

Ask Peace Corps volunteers who they are just as well as their degrees. They tell you they are helping the world’s poorest people in a warm, friendly, and familiar way. They help them by teaching, training, and developing their knowledge, skills, and ability to provide for their own needs. And they tell you about the rewards of hands-on experience overseas. They’ll tell you all the things you can do with a Peace Corps degree.

Getting to the 'Heart' of Valentines

by Kimberly Baranino

Looking for something unique this Valentine's Day? Try getting there on a bike or skateboard. A bunch of local bike shops in the area are offering rentals. With their own personal transport, you can take your Valentine to a romantic dinner, movies, or a quiet walk under the stars. It's a fun and eco-friendly way to celebrate the holiday. Plus, it's a great way to get some exercise! Check out the bike shops in your area for details.

Director discusses technique

Continued from page 8

Karen Carpenter, above, was always close to her brother, singer and musician Dean, who also helped manage the group. She was sometimes seen wearing a red scarf with a blue circle on it, her favorite accessory. The band was known for its tight harmonies, which she was able to maintain even when her voice was weakened by illness. Her death was a shock to the music world, but her music lives on. For more information, visit karencarpenter.com.

Director discusses technique

The music director discussed the importance of practice and preparation for upcoming concerts. He emphasized the need for musicians to thoroughly rehearse their pieces in order to perform at their best. The director also highlighted the role of technical wizardry in creating a memorable experience for the audience. For those interested in learning more about the techniques used in concert performances, the director recommended checking out the book "Concert Conducting: A Comprehensive Guide" by John Adams. The book provides insights into the world of concert conducting and offers practical advice for aspiring conductors.

Tuition up for next year

The final price tag for seniors

In Carol Casamassa
Your final semester of college is right around the
corner, and most likely you are feeling a mix
of excitement and dread about what lies ahead. But
for some students, the excitement is replaced by a
sense of panic and worry about how they will afford
to attend college next year. Fortunately, Suffolk
Community College has announced the tuition
rates for the 1983-84 academic year, and they
are set to increase by 5%.

Tuition for in-state students will remain at $7,275,
while tuition for out-of-state students will increase
by 5% to $12,920. These rates are set to take
effect on July 1, 1983, and will apply to students
enrolled in both the fall and spring semesters.

The increase in tuition is part of a broader strategy
by the college to ensure the financial stability of
the institution. Suffolk Community College has
been working to increase its revenue streams,
with a focus on developing new programs and
services that can attract more students.

For students who are considering their next steps,
the increase in tuition rates may be a concern.
However, there are several options available to help
students manage the costs of higher education.

One option is to apply for financial aid through
the college's Office of Financial Aid. Students
who demonstrate financial need may be eligible
for grants, scholarships, and work-study programs
that can help offset tuition costs.

Another option is to explore alternative sources
of funding, such as federal and state grants,
scholarships, and other forms of financial aid.
Students can also consider employment opportunities
that can provide income to help pay for college.

Overall, while the increase in tuition rates may be
a concern for some students, there are resources
available to help manage the costs of higher
education. Suffolk Community College remains
committed to providing a quality education at
an affordable price, and we are dedicated to helping
students achieve their goals.

ROTC cadet wants out

By R. Scan Hands

A University of Massachusetts ROTC cadet
has been granted an immediate discharge after
requesting a transfer from the ROTC program.
The cadet, who has been with the University of
Massachusetts ROTC program for two years,
filed a complaint alleging that he was subjected
to a hostile environment.

The complaint was filed in response to
allegations of verbal harassment and
intimidation by other cadets. The cadet
requested a transfer from the program
in order to escape the hostile
environment.

The University of Massachusetts ROTC program
has acknowledged the complaint and
is investigating the allegations.
The cadet’s attorney has filed a
petition for an immediate discharge
from the ROTC program.

The University of Massachusetts ROTC program
is required to provide a response to the
petition within 30 days.

The University of Massachusetts ROTC program
has a history of controversy, with
allegations of mistreatment and harassment
by other cadets.

The cadet’s attorney has stated
that he plans to continue to press
for the cadet’s immediate discharge.

The University of Massachusetts ROTC program
has not commented on the allegations.
