Financial aid

Cuts make learning a struggle

Although some students are not interested in cuts as much as they are in finding creative ways to cope with the cuts, a significant number of students believe that the lack of financial aid and the cuts have not significantly changed in comparison with the 1981 budget. The need for financial aid because of the national recession is shown by the following statement from Suffolk University:

"In 1981, students who applied for financial aid at Suffolk University received $4,000 on average. In 1983, the average amount was $2,000. This year, the average amount is expected to be $1,500."

According to the Department of Education at Suffolk University, the total amount of aid that is available to students will be $2,000,000. The amount is $1,500,000 less than last year. The reduction is due to the elimination of the Federal Pell Grant program, the elimination of the Federal Work Study Program, and the elimination of the Federal Supplemental Educational Opportunity Grant (FSEOG).

In addition, the budget for financial aid includes $10,000,000 for the Stafford Loan Program. The budget for Stafford Loans is $1,500,000 below last year's level. This decrease is due to the elimination of the Federal Pell Grant program.

In conclusion, the budget for financial aid at Suffolk University is $4,000,000 below last year's level. This decrease is due to the elimination of the Federal Pell Grant program, the elimination of the Federal Work Study Program, and the elimination of the Federal Supplemental Educational Opportunity Grant (FSEOG)."

Talent wasted in 'Man, Woman and Child'

The film is a sprawling, overlong, and ultimately disappointing piece of filmmaking. Despite the presence of such talented actors as Daniel Day-Lewis, Sigourney Weaver, and Jodie Foster, the film fails to deliver on its promise. The story is disjointed and the pacing is uneven, making it difficult to become emotionally invested in the characters. Overall, 'Man, Woman and Child' is a disappointing effort that fails to live up to its potential.

‘Mexican Radio’ aids Wall’s breakthrough

By Robert Cervantes

If there’s a new trend in the music business, let’s hear it. A trend that focuses attention on the artist rather than the album. A trend that promotes the individual over the collective. Let’s see how that works out.

That’s exactly what happened with the release of the Mexican Radio’s first album, the self-titled ‘Mexican Radio’. The band, which includes singer and songwriter Robert Cervantes, guitarist and keyboardist David Velázquez, and drummer and percussionist Mario Camacho, has been gaining attention for their unique blend of Mexican and American influences.

The album features a mix of traditional Mexican music and contemporary rock, with lyrics in both Spanish and English. The result is a fresh and exciting sound that has been well-received by critics and fans alike.

Cervantes, who wrote and arranged the songs on the album, said he was inspired by the music of his ancestors and by the culture of his heritage.

‘Mexican Radio’ is not just an album, it’s a journey. A journey that takes listeners on a trip through the history and culture of Mexico, from the traditional corridos and mariachi music of the past to the modern rock and roll of today.

The album was produced by David Velázquez, who also served as engineer and co-writer on several of the tracks. The result is a polished and professional sound that highlights the talent and dedication of the band.

Cervantes said he hopes the album will help to introduce a new generation to Mexican music and to the heritage of his people.

‘Mexican Radio’ is available now at local record stores and online. Don’t miss out on this exciting new trend in the music business.
