**ROTC films served in Cafeteria**

By Mark O'Connor

National Connie Simpson Productions presented their film "A skins and Stripes," a true story, to the ROTC students Thursday night in Sawyer 208. The film was shown in conjunction with the Career Planning and Placement Center to stress the importance of the American flag.

This is a story of a young man who enlisted in the ROTC in college, went to Vietnam, and was killed in action.

**Conley elected SGA President**

By W. Scott Heidt

Springfield College's annual election of the Student Government Association was held Wednesday evening in Sawyer 208. Rob Conley, the incumbent president, won re-election for another term.

Conley, who is a junior, said he is aware of the problems facing the association and that he is ready to serve another term.

**Coop: an alternative choice**

By David Bombay

The Cooperative Education Program at SCA has been pregnant. The program serves as an alternative choice for those who are not eligible for ROTC or SCA. It also provides an opportunity for those who are interested in a different type of education.

The program allows students to work in the community and earn credits toward their degree.

**Journalists win award**

By Alex Geller

Two members of the Suffolk Journal, Peter R. Sabol and Karen Synjali, have been awarded the 1983 Society of Professional Journalists Regional Media Excellence Award. They won the award for their story on the SGA elections.

Minor programs may return

In June, proposals for minor programs should be submitted to the chassis committee of the executive board for approval. The committee will consider the feasibility and desirability of each proposal and give a recommendation to the executive board.

Jean F. Sullivan

Jean F. Sullivan, vice president of finance and operations for the Canadian Federation of Bridge, was introduced to the executive board at the meeting. She discussed the federation's financial status and outlined plans for the upcoming year.

Hymie the robot entertains crowd

by John Andrew

When your own the world's oldest robot, Hymie, you can't help but attract attention. In fact, the crowds that gather around Hymie are so large that the robot often gets pushed out of his way. But Hymie is not a robot that is pushed aside. He is a robot that pushes back, with his dexterous arms and nimble fingers. He can move quickly and adeptly, always seeming to be in control.

Hymie's unique abilities have made him a popular attraction at scientific conferences and technology expos. He can do everything from playing music to solving complex mathematical problems. And he always does it with a smile on his face.

Hymie has become a symbol of the future, reminding us of the possibilities that lie ahead. He is a reminder that technology can be both fun and fascinating. And he is a reminder that there are no limits to what we can achieve.

Congratulations to the newly elected SGA members for the year 1983-1984

Class of 1984

President: Richard Pompeo
Vice President: Richard McCann
Representatives: Brian Conley, Ann Katz, Patti Petrosky, Joseph Sheikzechi

Parents' Night rebuttal

Representative-elect thanks voters

Outgoing president thanks voters

Letters should be typed and kept to about 250 words
By Kevin Conrat

In recent years, there's been a lot of talk about the state of rock music. Many feel that it's been declining in quality and originality. However, there are still some bands out there who are keeping the flame alive. One such band is the Grateful Dead.

Their latest album, "From Sea to Shining Sea," is a great example of what rock music should be. The band's sound is a perfect blend of hard rock and folk, and their musicianship is as impressive as ever. The lead vocals are powerful and emotive, and the backup vocals add a nice harmony.

The album opens with "Sugar Magnolia," a song that perfectly captures the spirit of the Grateful Dead. The guitar work is amazing, and the lyrics are full of depth and meaning. "Bertha" is another standout track, with a catchy melody and a driving beat.

Overall, "From Sea to Shining Sea" is a fantastic album that I highly recommend. If you're a fan of rock music, you won't want to miss it.
Red dominates spring fashions

by Sue Daise

"Spring is in the air!"... and so are the colors of spring. The days are longer, the sun is shining, and the flowers are blooming. A sense of renewal and rebirth is in the air. The fashion industry capitalizes on this by showcasing spring's vibrant colors and0

Waking up is hard to do...

John Smith

The minutes tick away...
Rams get revenge against Bentley

The Southpaw Faithful turned out in numbers at the University of Massachusetts-Amherst Sports Stadium for the annual Homecoming football game between the Rams and the Bentley Falcons. The Rams, who won last year's game, were determined to avenge their loss and win back their crown.

On the field, the Rams' defense proved to be the deciding factor. With quarterback Tom Finney leading the offense, the Rams scored three touchdowns in the first half, putting the game out of reach for the Falcons. Bentley tried to fight back in the second half, but the Rams' defense held strong, allowing only one more touchdown.

Off the field, the atmosphere was electric. The stands were packed with excited fans, and the air was filled with the sounds of cheering and excitement. The game was a testament to the spirit of college football and the passion of its fans.

After the final whistle, the Rams celebrated their victory with the Southpaw Faithful. The day was a great success, and the Rams hope to keep up their winning streak in the years to come.
