Sawyer Library computers installed with hard disks

Students are now able to use these new machines to increase their efficiency in the many classes that require the use of microcomputers. Some of these classes include Chemistry, Business Administration, Accounting, and others. The students have had the benefit of using the computers in class and are now able to complete their assignments at home. The computer lab is located in the 5th floor of the Sawyer Building next to the library. Students can also purchase software that is compatible with the computers in the lab. The lab is open from 8:00 a.m. to 9:00 p.m. on weekdays and 10:00 a.m. to 7:00 p.m. on weekends. The lab is open to all students and faculty of Suffolk University.

Here's to the resurrection

As Nine Muses

A few years ago the Boston Symphony Orchestra's music director, Seiji Ozawa, made a strange and inexplicable announcement: he would be returning to the podium in 1990. People speculated whether it was a way to shake up the music scene or a sign of Ozawa's redemption. In the end, the question remained unanswered. Seiji Ozawa had decided to retire from the podium.

One of the most respected and influential music directors of our time, he had left the podium for health reasons in 1989. His return was unexpected and highly anticipated. His music directorial career spanned over 20 years, during which he directed the Boston Symphony Orchestra and the San Francisco Symphony, among others. His influence on the musical landscape was immeasurable.

Still, those who knew him well could tell you that Ozawa was never one to make hasty decisions. His move to retire, and then announce his return, was a testament to his passion for music and his dedication to the art form.

'Stern's U.S. Open Sores' distasteful

by Peter Tebeke

CINCINNATI — The U.S. Open Sores affair, which has been the subject of much controversy in recent years, has received another blow with the resignation of Stern, the tournament's chief executive officer.

Stern, who has been in charge of the U.S. Open since 1985, has been under fire for his handling of the event, particularly his decision to ban players who did not comply with the dress code.

'Caribbean Rat' successful

by Melba Allen

The Caribbean Rat, a local band known for their unique blend of reggae and soca music, has been receiving rave reviews for their latest album, 'Caribbean Rat.' The album features a mix of reggae, soca, and traditional Caribbean music, and has been praised for its catchy tunes and catchy rhythms.

The band's lead singer, Peter Hall, said they were thrilled with the response to the album. "We've been working hard on this for a long time," he said. "We're just happy that people are finally getting to hear what we're all about."

CLAS Spring Seminars to Begin

The College of Allied Health and Sciences will begin its Spring Seminars on April 20th. The seminars, which begin at 8:30 a.m., will feature a variety of speakers from the fields of dentistry, nutrition, and physical therapy.

The seminars are free and open to the public. For more information, please contact the College of Allied Health and Sciences at 555-1234.

Beanpot 1990

In historic fashion, the Boston College hockey team has won the Beanpot, defeating Harvard University 3-2 in overtime in the championship game.

The Beanpot is an annual hockey tournament held between Boston College and Harvard University, dating back to 1939. The tournament has been a fixture of Boston hockey for over 50 years, and is known for its intensity and tradition.

Black History Month begins

February is Black History Month, a time to celebrate the contributions of African Americans throughout history. At Suffolk University, the Black Student Union is hosting a series of events to honor Black History Month.

More women in college today

According to the National Center for Education Statistics, the number of women enrolled in college has increased by over 50% since 1970. This increase is due in part to changes in societal attitudes towards education and the role of women in society.

"There's a great independence spirit that was born during the 1970s," said Dr. Sarah Howard, director of Suffolk University's Office of Women's Affairs. "Women today are more likely to pursue higher education and to succeed in their careers."

"100% grade a filler"
CLAS Spring Seminars to Begin

The College of Liberal Arts and Sci-
ences will present Spring 1990 Seminars
with Francis J. Vavrus, Director of La
tin American Studies of the Latin
American Studies Center of the Uni-
versity of California, Los Angeles. The
series will continue through the month of
May. Mr. Vavrus will present the initial
Seminars in the Latin American Studies
Center in the Hum in the morning. Ancient
American civilizations, the posit
and the great oral traditions will be
covered. In addition, students will also
have the opportunity to meet other
American civilizations, the posi
and the great oral traditions.

Special seminars will be given by
Sanford Berman, who is currently
Teaching at the University of Cali
in the new year.

Mark Roper, who is currently
Teaching at the University of Cali
in the new year.

Black History Month begins

In a year of social upheaval, the
month of February is dedicated to
Black History Month. The theme this
year is "Black History Month: A Time 
for Reflection and Dialogue." The
month is filled with events celebrating
the achievements of African American
people in various fields.

During this month, numerous
events will be held on campus to honor
the contributions of African Americans
to society. These events include panel
discussions, workshops, and cultural
performances.

More women in college today

In recent years, there has been
an increase in the number of women
enrolling in college. This is attribut
ed to several factors, including the
availability of scholarships and finan
cial aid, as well as increased awaren
of the benefits of higher education.

The increase in women's education
has been particularly noticeable in
sos, where women now constitute
more than half of the student body.

SUGGESTED EVENTS:
