Suffolk students anticipate a change in the student back-to-school procedures. Due to the economic crisis, the school decided to avoid student IDs. Suffolk students plan to use their student IDs to check out the new student back-to-school procedures. The school will be open until 10 PM. The students are looking forward to the changes as they will no longer have to wait in long lines at the registrar's office. The new procedures will be implemented starting September 15. Temple and Suffolk students are expected to vote on the change by June 14.

ED ITORIALS

The staff of the Suffolk Journal would like to welcome all new and returning students to the academic year by the National Student Journal editors and express our delight and excitement for the future of Suffolk's students, student newspaper, and future issues of the Suffolk Journal.

Since its birth in 1936, the Journal has been a hub of excellence and growth, serving as a platform for the voices of the community. It stands as the place where students can express their ideas and opinions. The Journal is not only a source of news and information but also a creative outlet for its students. In recent years, the Journal has seen an increase in the number of students involved, which is a testament to the quality of the content produced.

In this issue, we feature an article on the importance of fiscal responsibility and how students can manage their finances more effectively. The article covers topics such as budgeting, saving, and investing, providing practical advice for students.

In the coming weeks, we will continue to cover a range of topics, from local events to national issues. We encourage all students to contribute to the Journal by submitting their work. Whether it's a story, an opinion piece, or a creative piece, we welcome all submissions. Join us in making the Journal a true reflection of the Suffolk community.

The Suffolk Journal is a platform for students to express their ideas and contribute to the community. It is a place where students can have a voice and make a difference. As the Journal continues to grow, we look forward to seeing the contributions of all students.

FAMOUS LAST WORDS FROM FRIENDS TO FRIENDS

"Are you OK today?"
"What's up there?"
"Did you have too much alcohol?"
"I'm perfectly fine."
"Are you seeing shapes today?"
"I'm not feeling it."
"I think you've had too much alcohol."
"You're feeding your eyes with your eyes closed."
"You've had too much alcohol."
"Nobody drives a car but me."
"Are you OK today?"
"What's up there?"

The computer age has arrived

A beginner's guide to computers

BASIC

The computer's operating language is called BASIC (Beginner's All-purpose Symbolic Instruction Code). It's a high-level language that allows programmers to write programs in a way that is more like English.

BOOT

This is the first program that runs when you turn on the computer. It loads the operating system (OS) into memory, which then controls the computer's operations.

CRASH

When a program crashes, it stops running unexpectedly. This can happen for various reasons, such as running a program that is not compatible with the operating system.

DAISY WHEEL

This is a common term for the physical arrangement of computer hardware components, such as the keyboard and mouse, around a central processing unit (CPU).

DISK

A disk is a physical storage medium that stores data. It's composed of two parts: the track and the sector. The track is a series of concentric circles, and the sector is a small area on the disk that stores data.

DISKет

A disk is a physical storage medium that stores data. It's composed of two parts: the track and the sector. The track is a series of concentric circles, and the sector is a small area on the disk that stores data.

DISPLAY

This is information on a video screen.

DOCUMENTATION

This is written information that tells you how to use a program.

DOT MATRIX

This describes the dot matrix printer, which is a type of printer that uses a grid of dots to print text and images.

LOAD

This is the process of transferring data from one location to another, such as loading a program into memory.

PRINT

This is a way to output data on a printer. You can choose to print a program, a document, or a report.

SAVE

This is the process of storing data on a disk or other storage device. You can save a program, a document, or a report.

The Suffolk Journal is a platform for students to express their ideas and contribute to the community. It is a place where students can have a voice and make a difference. As the Journal continues to grow, we look forward to seeing the contributions of all students.
SIDETRACKS

Elvira - t.v.'s newest scream queen

by Joe Petrucci

Elvira, the latest creation of director Jack Handey, is t.v. 's newest scream queen (and ghouliest secretary). In this Halloween-themed television special, Elvira takes an audit course at the University of Michigan. Her professor? Professor Marlowe, 'the world's greatest publishing mogul,' who is also the guest star of this special. The special is filled with hilarious sight gags, puns, and weirdo characters. Elvira is the ultimate scream queen, with her black hair, red lips, and cat's eye make-up. She is the perfect combination of beauty and brains. She is also the ultimate office worker, with her black dress, white blouse, and red stockings. She is the ultimate combination of beauty and brains. The special is a must-see for all Elvira fans. Get down to business faster. With the BA-35.

It plans, one thing business students have always needed, that is an affordable, business-oriented calculator. The Texas Instruments BA-35, the Student Business Analyst.

It's built in business terminology, so you can perform calculations and transactions without a calculator. The BA-35 means your accountant and statistical function, the ones that typically require a lot of time and effort, are now part of the classroom. A powerful combination. Think Business. With the BA-35 Student Business Analyst.

CLAS celebrates 50th

By Laurie Jacobson

The CLAS 50th Anniversary celebration of its 1964 founding as the College of Arts and Sciences was held on September 9, 2014. The event was attended by presidents, deans, faculty, students, and alumni.

The college was founded on the idea of providing a liberal education, with a focus on interdisciplinary studies. The college's current dean is Dr. Thomas J. Starzyk.

In closing, Dr. Starzyk thanked all those who contributed to the success of the college and expressed his vision for the future of CLAS.

Cuts fit into ‘plan’

By Katty Lopez

Instead of cutting students, the Suffolk administration has decided to cut back on non-tenured faculty. This decision was made in response to budget cuts, and the administration is confident that it will be able to maintain the quality of education.

The cuts will affect some of the most popular courses at Suffolk, including communications and business. The administration is working to ensure that students will not be adversely affected by the cuts.

Suffolk University's 50th Anniversary celebration

by Kim Barrissa

The Suffolk University 50th Anniversary celebration was held on September 9, 2014. The event featured a morning program that included a student debate, a panel discussion on the history of Suffolk, and a keynote speech by Dr. Thomas J. Starzyk, the current president.

The afternoon program included a faculty panel discussion on teaching strategies, a student showcase of research, and a reception to celebrate the milestone.

The day ended with a fireworks display in the sky above the campus.
