Madam Marilyn: Interview with a witch

By Jim Connaughton

The esoteric, the mysterious, the magical - these are the things that come to mind when one thinks of the image of Madame Marilyn, the self-proclaimed 'Witch of the West'. But is this just a facade? Does Madame Marilyn really have the power to foretell the future and influence the world around us? We decided to find out.

Madame Marilyn predicts:

What will Michael Jackson be for Halloween? Roy George Peter Pan? A Ninja Spy?

Admittedly, not a pretty picture, but it shows the Halloween spirit.

Tackling objective test taking

By Sandra May

Objective tests can be a challenge for many students. With practice, however, you can improve your score. The key is to learn the test-taking strategies and practice them until they become second nature.

Here are some tips to help you improve your performance on objective tests:

1. Read the directions carefully.
2. Make sure you understand the type of test and what is expected of you.
3. Read each question carefully and choose the best answer.
4. Eliminate obviously incorrect answers to increase your chances of selecting the correct one.
5. Use the process of elimination to narrow down your choices.
6. Avoid guessing if you're unsure of the answer.
7. Double-check your answers if time permits.
8. Review your mistakes and learn from them.

By following these strategies, you can improve your performance on objective tests.

VIOLATIONS OF FREE SPEECH

Recently, the Eleanor Roosevelt Centennial exhibit on display here at Suffolk University, was defaced in the Sawyer Building Lobby. Such acts are flagrant violations of our freedom of speech and should be condemned by the students of Suffolk University.

Unfortunately, the defacing of the display was not the first such occurrence. Last year and this year, posters that were properly sanctioned by the Student Activities Office have either been defaced or torn down. Each time this happens we are not only violating someone's right of speech, we are also denying Suffolk students the right to understand and appreciate the diversity of Suffolk University. No one person should have the power to dictate what is read and seen by the Suffolk community.

Finally, each time a violation of free speech occurs, we as a college community take a step backwards in guaranteeing the right of everyone to learn and grow, and appreciate diversity. And no one person has the right to do that.

Do we have a violent sports culture?

by Mike O’Connell

We are not excelling at Babson. Do we have a violent sports culture? The truth is, it is impossible to determine what the real story is, as it is hidden by the culture of our nation's sports. Many of our nation's athletes are being brainwashed by the media and the culture of our nation's sports, and are now being forced to play a game they weren't meant to play.
