Who's Who Applications Available in the SAO
Open to Full-Part-time Seniors
Deadline is Nov 15

Silva invites students to tour Haiti

Library gets new reference system

Colleges try to oust foreign instructors

Books are available in the SAO, located at the Reading Room, to open to full- or part-time seniors. Applications are due by Nov 15.

Silva invites students to tour Haiti

Reprinted from the December edition

By Frank Silva

A handful of students from four San Francisco Bay Area colleges are invited to Hawaii to tour the island. The tour is sponsored by the Sons of Italy, and the students are invited to see the island's beauty and enjoy its hospitality.

The tour will take place over a week and will include visits to various sites throughout the island. Students will have the opportunity to experience the culture and learn about the history of Hawaii.

The tour is open to students from four San Francisco Bay Area colleges, and applications are now being accepted. Interested students can contact the Sons of Italy for more information.

Books are available in the SAO, located at the Reading Room, to open to full- or part-time seniors. Applications are due by Nov 15.

Library gets new reference system

By Sashi Miller

A new reference system is currently being implemented at the SAO. The new system, called InfoTrac, is designed to help students and faculty find the information they need more efficiently.

InfoTrac is a comprehensive database of full-text articles from hundreds of periodicals and journals, as well as a collection of reference books. The database includes materials from all fields of study, including business, science, humanities, and social sciences.

Students and faculty can access InfoTrac through the SAO's online catalog or by visiting the reference desk. The system is user-friendly and provides access to a wide range of resources, including books, articles, and other materials.

The new reference system is a major improvement over the old system, which relied on printed materials and paper indexes. InfoTrac is more efficient and allows for faster, more accurate searching.

Colleges try to oust foreign instructors

By Maury Cross

In an effort to reduce costs, several colleges are trying to replace foreign instructors with American citizens. The move is part of a broader trend among colleges to reduce their reliance on foreign instructors.

Foreign instructors are often cheaper than their American counterparts, but colleges are now seeing the need to reduce their costs and improve their bottom line. The move to oust foreign instructors is part of this trend.

Some colleges are also concerned about the quality of foreign instructors. They argue that American instructors are better equipped to teach American students.

However, others argue that foreign instructors bring a fresh perspective to the classroom and can provide students with cultural insights that American instructors may lack.

The debate over the use of foreign instructors is ongoing, and colleges are likely to continue to explore ways to reduce their costs and improve the quality of their instruction.

Books are available in the SAO, located at the Reading Room, to open to full- or part-time seniors. Applications are due by Nov 15.
